- [UF Research Computing](#)
- [Materials for our work \(reports, templates for presentations and group discussions, etc.\)](#)

Meetings:
Reminders are sent on the email list. Meetings are every other Wednesday from 1-2pm.
Locations rotate: Health Science Center Library C2-41, Library West 429, and Marston Science Library L107.
Next Meeting: July 24, 1-2pm, MSL

Overall Activities

- Description of Responsibilities from the Charge**
This group is charged to assess needs, make recommendations, and develop support for the role of the Libraries in campus-wide data management and curation.
 - Specific advisory activities include:
 - Formally assess, through surveys, interviews, and focus groups, campus-wide data management needs and current support resources and activities
 - Review and consider the best practices and models of peer institutions
 - Develop recommendations for the Libraries' campus-level role in support of data management and curation
 - Propose a corresponding framework and resources for library support of the data life cycle
 - Recommend the role of the institutional repository and research computing in storing, finding, and accessing working and final data, and linking publications to supporting data
 - Recommend a framework for liaisons and subject specialists to incorporate data instruction and consultation into their workflows
 - Specific operational activities include:
 - Develop materials and sessions for training of liaisons, subject specialists, and other library staff to prepare them to support campus data management services
 - Develop training and outreach materials to be used by liaisons, subject specialists, and other library staff in their work with clients
 - Develop means to enhance and expand the librarian liaison model with the goal of making librarians partners in research activities
 - Develop and implement templates and support training and services for the DMPTool (Data Management Plan Tool) and other resources
 - Additional goals identified by the group (draft):**
Ensure that the recommendations and plans resulting from the group both support immediate campus needs and support ongoing, long-term needs for full support including, but not limited to:
 - Develop and promote training and resources: for data management/curation related concerns, finding data, citing data, creating data management plans, and implementing data management
 - Develop and submit recommendations for a full approach for supporting the implementation of data management and curation across campus, for collaborative implementation and support with the libraries, Office of Research, Research Computing, and others as appropriate, along with resources and requirements for the recommendations to be fully operational

Current Activities and Coordinator

- [SURA, collaboration on pilot test for Dataverse Network](#) (Laurie, all)
- [DMP Tool, customization for UF resources](#) (Val)
- Survey (Hannah and Rolando)
- Focus Groups (all)
- Sharing and promoting activities (all)
- Coordinating existing training activities related to data management (all)
 - Including training by [Research Computing](#), Libraries (ICPSR, Census and Gov Data, [Best Practices in Research Data Management at HSCL](#), HSCL specific classes, etc.), and others
- Coordinating and promoting speakers and events related to data management (all)
- Integrating resources within a single consolidated portal for all users, with the [Research Data Management LibGuide](#)

UF UNIVERSITY of FLORIDA
The Foundation for The Gator Nation

The screenshot shows the Purdue University Libraries website. At the top, the logo for Purdue University Libraries is displayed. Below the logo, the page title is "Supporting Information for Data Services" with a breadcrumb trail: "Libraries » LibGuides » Supporting Information for Data Services". There is an "Admin Sign In" link in the top right corner. The main content area features a central location for handouts, talking points, and articles. Below this, there is a "Last Updated" date (Jun 12, 2013) and a URL. A row of social media and utility links includes "Print Guide", "RSS Updates", "Email Alerts", and "SHARE" with icons for Facebook, Twitter, and Email. A horizontal navigation menu contains links for Home, FAQ/Glossary, Resource Guides, Other Libraries' Data Services, Purdue-authored articles, Workshop Handouts, and Webliography. A secondary menu below it includes Helpful Data Literature, Tools, DMP Requirements, Sample DMPs and Templates, Data Curation Profiles, and Conferences. A search bar is located on the right side of the navigation menu. The main content area is divided into three columns: "Mentors" (listing contact information for Megan Sapp Nelson, Jeremy Garritano, Jake Carlson, Michael Witt, and Lisa Zilinski), "Welcome" (a paragraph explaining the page's purpose), and "Purdue University Research Repository (PURR)" (a paragraph describing the repository). At the bottom, there is a footer with a disclaimer: "Purdue University is an equal access/equal opportunity university. If you have trouble accessing this page because of a disability, please contact accessibility@lib.purdue.edu." and a small logo on the right.

A discussion group at Yale for issues relating to data, science, and research support across disciplines.

What is DaEG?

DaEG is an informal discussion group interested in data curation, management, sharing, publication, citation and the services and infrastructures surrounding those activities at Yale and universities and data centers in the US and internationally.

Topics discussed are: the latest in data literature, what's going on at Yale, how we can learn more, implement best practices, and spread awareness about data at Yale.

Join the mailing list here to be informed of upcoming readings and meetings:
<http://mailman.yale.edu/mailman/listinfo/daeg>
