Changes to Springer E-book Access through BISON

In an effort to provide better access to Springer e-books, we have ordered new records from OCLC, rather than continuing access through the MyLibrary platform. As a result, there will no longer be access to Springer E-books through a MyLibrary link.

Over the next couple of weeks, the old Springer e-book records will be globally deleted from the catalogue and new records will be loaded.

Springer - Verlag Electronic Books Now Available

The MSU Libraries recently entered a consortial agreement that gives us online access to more than 10,000 e-books published by Springer-Verlag between 2005 and 2007. The 2008 Springer e-books will become accessible as they are published. Springer is one of the leading scholarly publishers in the areas of computer science, engineering, and technology.

Because all Springer book titles will now be available online, we will no longer purchase print copies of new Springer books. Records with links to the full text of these online books are now appearing in the library's catalog: http://magic.msu.edu/. The e-books are also searchable through SpringerLink: http://springerlink.metapress.com/home/main.aspx.

Below are examples of some of the Springer engineering and computer science e-books now accessible to MSU users:

- Mechanical modeling and computational issues in civil engineering: http://magic.msu.edu/record=b5593234
- Modern aspects of electrochemistry: http://magic.msu.edu/record=b5598188
- Computer engineering in applied electromagnetism: http://magic.msu.edu/record=b5593148
- Logical Foundations of Computer Science: http://magic.msu.edu/record=b5592190
- Data warehousing and data mining techniques for cyber security: http://magic.msu.edu/record=b5598713
- Monitors of organic chemicals in the environment: semipermeable membrane devices: http://magic.msu.edu/record=b5598124
- Variational problems in materials science: http://magic.msu.edu/record=b5594959
- Springer Handbook of Experimental Fluid Mechanics: http://springerlink.metapress.com/content/w3732k/?p=69db9c1bc3d4da9962b392511026ee340=1

Knovel University Challenge
The online reference book website Knovel is putting on a contest, the Knovel University Challenge.
The contest begins today and goes through November 7th. It's open to all UMN students. All you have to do is enter via the widget below and get three answers correct using Knovel Ebooks.

If you get three correct answers you will be eligible for Knovel's drawing. They plan to give away 2 Nintendo WIsis, 3 Ipod Nanos, and 1 iTunes Gift Cards.
You'll be able to familiarize yourself with this great reference resource and may just win a prize. For more information about rules and regulations, click here.

E-books at YUL available through the new Library Interface

As a member of the Ontario Council of University Libraries (OCUL), York University Libraries has unlimited access to a growing selection of thousands of e-books as part of the Scholars Portal services that are available through the Library interface.

Ebrary now offers Quick View to read the books online and if you choose to use to highlight, annotate, copy and paste and use other InfoTools then you need to download the Ebrary reader. Browse the Subject Collection.

Creating Permanent links to Springer E-Books

I have made a blogroll of some of the highly accessed e-books from Springer publications. To make a permanent link to the electronic book then you would have to find the DOI of that e-book from the blogroll or from the Springer E-Books page. Then add the DOI number at the end of this link http://dx.doi.org.ezproxy.library.yorku.ca/

Click image links below to see the steps involved in locating:

- DOI from Blogroll
- DOI from Springer Interface.

Step 1: Log-on to Springer Books and then find your book using the find box. See Image

Step 2: After locating the DOI number of that book add it at the end of this link http://dx.doi.org.ezproxy.library.yorku.ca/

E-books @ York University Libraries:

- **Health Sciences, Biology, Kinesiology, Nursing**
  - Anatomy Study Guide (through Primal Pictures)
    Primal Pictures provides a dynamic interactive multimedia overview of human anatomy from head to toe. It features three-dimensional animations that illustrate function, and biomechanics. It covers a detailed anatomy study guide and includes detailed notes and figures of the skeletal, muscular, cardiovascular, nervous, digestive, reproductive, and endocrine systems.
  - Books@Ovid (Health)
    Description: Ovid delivers key medical, nursing, sport science and pharmacy texts from a variety of publishers to clinicians’ desktops through the Books@Ovid database. YUL provides access to 71 full text online handbooks, drug guides, nursing care plans, diagnostic tests, clinical procedures and more.
  - Canadian Health Research Collection
    This is a collection of monograph publications from Canadian research institutes, government agencies and university centres working in the area of health and medical research. The publications included are of a specialized clinical or technical nature.
  - Cognet
    An interdisciplinary online collection in cognitive and brain sciences includes 7 MIT Press e-journals, over 400 online books, the MIT Encyclopedia of Cognitive Sciences and other reference sources. Covers areas of cognitive science such as psychology, linguistics, computational intelligence, philosophy, and neuroscience. Browse books by Title, Author or Topic in MITCogNet Library.
  - Ebrary
    As a member of the Ontario Council of University Libraries (OCUL), YUL has unlimited access to a growing selection of thousands of e-books as part of the Scholars Portal services. Powered by Ebrary, this site offers a number of powerful tools for finding and using information in a range of subject areas available from multiple publishers. Some of the subjects include: Law, medicine, technology, social science, education, language and literature and much more. Requires ebrary Reader. Download here. Firefox 3 users alternate download & install procedure.
