Submission Services
Submission By Us

To help you comply with the new NIH Public Access Policy, the Duke Medical Center Library & Archives (DUMCL&A) will submit your manuscript to PubMed Central (PMC) through the National Institutes of Health Manuscript Submission (NIHMS) System.

We are providing this as a Duke campus-wide service. Any NIH-funded researcher and author at Duke may use this service.

The NIH Manuscript Submission System (NIHMS) is very easy to use, but if you do not want to handle the submission process yourself or within your department or unit, you may use this service offered by the Medical Center Library & Archives. NIH offers a tutorial for using NIHMS.

This new policy applies to all peer-reviewed journal articles accepted for publication on or after April 7, 2008. You do not need to submit articles accepted before that date, but if you want to submit them, you may use this service or submit them yourself.

Use the DUMCL&A NIH Submission Service now or read more about the process below.

In order to submit the article on your behalf, you will need to provide the following information to complete the submission form:
- Confirmation that you have copyright clearance from the journal publishers to comply with the NIH Public Access policy.
- Check your agreement with the publisher.
- Names and email addresses of Principal Investigators.
- Title of the journal.
- Title of the manuscript.
- Grant number(s).
- Manuscript files including all graphs, figures and accompanying materials. They can be in Word, Excel, PowerPoint, TIF, GIF, JPEG, PDF, etc.
- Embargo/Delay time period — how long after publication can the journal article be made available in PubMed Central as specified by the publisher; 12 months is the maximum embargo period as per NIH policy. Check your agreement with the publisher for the delay period.

The Library will send you and the PI an email confirming that the manuscript has been submitted, and we will include the NIHMS manuscript number in the email.

Submission is not complete until you have done this final step! The NIHMS system will also send an email to the PI confirming the receipt of the manuscript and asking the PI for final approval for submission to PubMed Central. Please be sure to respond to this confirming email.
Guide to the NIH Public Access Mandate

Researchers funded by the NIH must, at the time they submit articles for publication, also submit the article to PubMed Central for public access. This Guide explains the steps for doing this.

Let us do it for you
Let us do it for you

The Library can submit your articles for you.

1. Copyrights
   Contact us if you need help deciding whether you have the right to deposit your paper into PubMed Central. Although compliance to the Policy is mandatory, authors are still required to comply with Copyright Law. Although the Library cannot offer legal advice, we have experience reading Publisher's Copyright Transfer Forms and can guide you to a better understanding of your rights.

2. Submission
   The Library, acting as your surrogate, can submit your files to the NIH Manuscript Submission System for you.
   - The Author will need to send the following information to us:
     - Journal Title
     - Article Title
     - Name of Principal Investigator
     - NIH Grant Number
     - All the files that were submitted to the publisher, including the final post-review version of the article, and any accompanying tables or figures, clearly labelled.

3. IDEAL
   With your permission, the Library would also like to submit your manuscript to IDEALS, the University of Illinois archive for scholarly works.

If you would like our assistance with any of the three steps, please contact:

Kathy Newman
Biotechnology Librarian and Scholarly Communication Officer
newmank@uiuc.edu
217-245-5388

Sarah Threaves
IDEALS Coordinator
sthereaves@uiuc.edu
217-244-2977.
