Capstone 2007 – Mugar Memorial Library

U.S. Foreign Policy in an Era of Danger: 2007 and Beyond

This year’s Capstone syllabus has been written by faculty in the Division of Social Science, coordinated by Professor William Tilchin.

Social Science Bibliographers
Anthropology, General Social Science, and Sociology Bibliographer: Chris Smith
Geography, International Relations, and Political Science Bibliographer: Susan Wishinsky
Gerontology, Psychology, and Social Work Bibliographer: Meredith Kirkpatrick

Head of Reference
Reference Librarian: Tom Casserly

Science & Engineering Library Coordinator (2 questions)
Astronomy, Earth Sciences, Geology, and Physics Bibliographer: Barbara Maratos

African Studies Library Coordinator (2 questions)
Head, African Studies Library and African Studies Selector: Mary Foppian

Gretchen Walsh

Planning
• capstone-syllabus.doc
• Step One: Capstone Topics - and Librarians Covering
• Step Two: Procedures for Selecting Material to be Put on Reserve
• Books requested to be put on Reserve
• Send Susan titles of recent (2000+) titles that should be rushed for the collection.
• Step Three: Electronic resources - let Susan know about resources that should be considered for highlighting.
• Step Four: Prepare bookmarks to handout on Friday, March 30 using the rubber stamp.
• Step Five: Capstone Launch Day Schedule
• What to Cover in five minutes at Capstone Launch
• Step Six: Schedule of Research Orientations
• Step Seven: Capstone Committee Meeting and Reference & Instructional Services (RIS) Staff Meeting
• Agenda for Capstone Committee Meeting on Tuesday, March 27 at 1pm
• Prepare for 5 minute launch presentations on Friday, March 30
• Review Launch schedule
• Review Library Research Orientations schedule
• Review Capstone Research Guide

Some wiki resources:
• An example of a wiki created by students in a library science course that Lauren Maggio, Coordinator of Library Education & Information Management at the IUS Medical Library, knew about and that the Instruction Advisory Committee looked at: USC Health Sciences - A Knowledge Base for Health Librarians [2006]
• A presentation about using wikis in libraries I found quite readable: Wiking In Your Library: A Practical Overview

Stuff from the PBwiki folks (this wiki that we are using) to look at:
• What can you do with a wiki? Take a tour and use pre-made templates
• How do you create a new page? 2 easy ways
• Learn how to use bold, italics, tables, and more: The wiki style page
• Share this wiki with others. It’s easy

Subject Guides

Course Guides

A librarian may have created a guide if the library is related to a specific course, program, or assignment. We have created guides for SAGES and many other courses. Visit the Course Guides to explore the recommended resources for your course.

Arts & Humanities

- African American Studies
- American Studies
- Art History and Art
- Classics
- Dance
- English
- History
- History of Medical Science
- Judaic Studies
- Modern Languages and Literature
- Music
- Philosophy
- Religion
- Theater and Dance
- Women's Studies

Engineering

- Aeronautical Engineering
- Biological Engineering
- Chemical Engineering
- Civil Engineering
- Electrical Engineering & Computer Science
- Molecular Biology & Bioengineering
- Materials Science & Engineering
- Mechanical & Aerospace Engineering

Social & Behavioral Sciences

- Anthropology
- Communication Sciences
- Political Sciences
- Psychology
- Sociology

Interdisciplinary Guides

- Cognitive Science
- Ethics Studies (Center for Ethics and Excellence)
- Government Documents
- Humanities and Geospatial Data
- Patents
- Special Collections
- Locating Standards & Technical Reports
- Locating Tests and Measures in the Social Sciences

Welcome to the University of Connecticut Libraries’ Staff Wiki

http://wiki.lib.uconn.edu/index.php/Main_Page

Main Page

The University of Connecticut Libraries’ Staff Wiki is a project to create a complete, up-to-date and reliable source for various ITS Documents. Check out the links below to see how you can edit any page right now. There are currently 1,153 documents in the database.

Welcome to the University of Connecticut Libraries’ Staff Wiki

What is a Wiki?

A Wiki enables documents to be authored collectively using a web browser. This Wiki was created to help maintain the ITS area’s large amount of documentation. The Wiki makes all of our documentation searchable, and allows easy access for anyone in the library to edit the information when necessary.

A few tips to get you started:

- Please register first if you haven’t already. It’s quick and easy.
- Most information in a Wiki is found via the search. For example, try to search for the words, ‘password’ (without quotes).
- Once you’ve found a document, if you see that it is missing information or has an error, you can edit it (as long as you’re logged in). Keep in mind that the Wiki doesn’t have to use HTML. You can type things free form, or use the Guide to Markup Text to format.

Creating a new document is easy. Just type this address in your browser:

http://wiki.lib.uconn.edu/wiki/

and then add the title of your document at the end of the link. Please consult Page Naming Conventions before choosing a name for your article. So if I wanted to create a new document that contained ITS Staff Phone Numbers, I might type this URL:

http://wiki.lib.uconn.edu/wiki/ITSKB:Staff_Phone.Numbers

When you visit the new page you created, you’ll need to login and edit it, and then save it for the URL to be created.

You’ll find that ITS’s documents all start with ITS KB. This allows anyone to view an index of all ITS documents by searching for ‘ITS KB’ (without the quotes).

A good way to experiment with editing is to visit the Official Sandbox.

More information:

This site is using MediaWiki, also used by Wikipedia.

The McGill Library Global Health Resource Guide

The McGill Global Health Resource Guide was created as a wiki to promote collaboration between all McGill people working in the field of global health. All McGill faculty, clinicians, researchers and students are encouraged to use and add to these resources.

We hope this resource guide will attract a global audience, and promote collaboration between professionals within, and beyond, the McGill Community.

If you would like to contribute to this resource, but are not a member of the McGill community, we would like to hear from you.

For more information, comments, or suggestions for content, please contact Deborah Meet at the McGill Macdonald Campus Library (debora.mee@mcgill.ca)

Sign up for the McGill Library Global Health Workshop

Where in the world .. ? Online Sources for Global Health Information: A Hands-On Workshop

Data for next session is June 17, 2008. It will be from 1-3pm in the Macdonald Campus Library eZone.

Registration: http://www.health-library.mcgill.ca/services/instruct/shops/registration.cfm?

Resources
1. Suggested Texts
2. Key Databases
   - Additional databases
   - Indexes to Regional Literature
3. Key Journal Titles
4. Access to Electronic Journals
5. Free and Low Cost Publications
6. Canadian Resources
   - McGill Departments, Resources & Research in Progress
7. Legal sources
8. Government Documents
9. Statistics & Data
10. Conferences & Events
11. Other Resources of Interest
12. Related Subject Guides
13. Sources to Support Library Development and Self-Sufficiency in Developing Countries
14. Information for writers, editors, and publishers
15. Jobs, Placements, Electives, Exchanges, Volunteer Opportunities
16. Workshop handouts and other

Maps + Tools
- Global Health Atlas (interactive)
- Gephi: geographic software for comparing countries (Hans Rosling)
- Health Map: Global Disease Alert
- Globalis
- Malaria Atlas Project
- McGill Global Health Programs: Interactive Databases
- McGill Interdisciplinary Global Health Course

In the News
15th Canadian Conference on International Health Call for Abstracts Deadline Extended to June 15, 2008
The 15th Canadian Conference on International Health is fast approaching and is being held on October 26 - 29, 2008 at the Ottawa Marriott, 100 Kent St., Ottawa, ON, Canada. The theme this year, "Checking In: Health for All or Health for Some?", promises to provide an opportunity to reflect the thirty years that have passed since the World Health Organization endorsed the vision of Alma Ata, "Health for All", and to collectively question whether and how Health for All remains our vision today. The deadline for the Call for Abstracts is June 15 and we encourage all those who would like to present a paper, poster, workshop or symposia to submit their abstract as soon as possible. Abstracts can be submitted in English, French or Spanish.

Against the Odds: Making a Difference in Global Health
An exhibition opening at the US National Library of Medicine, Bethesda, MD, April 17, 2008

How to use this wiki
The McGill Global Health Resource Guide is an application of the widely used software, MediaWiki. Help on editing pages using this software is available here: MediaWiki help page on basic editing. More advanced capabilities are explained on pages linked from here: MediaWiki help contents page.

Please do not hesitate to contact the Editorial Board if you have questions or comments - contact information at Contact Us.

Welcome to the University of Minnesota Libraries Staff Website

Vision

The University Libraries are a strategic asset of the University, providing intellectual leadership and extraordinary information experiences toward the advancement of knowledge.

Mission

The University Libraries inspire learning and discovery through information resources, collaboration, and expertise.

Vision and Mission as stated in the Libraries' Planning Framework document prepared as part of the University's strategic planning process and submitted to the Provost on December 1, 2004.

Our Planning & Budget page has more details about our annual planning.

How we operate

The University Librarian's Cabinet (Cabinet) and Libraries Leadership Council (LLC) work with the University Librarian to set priorities, analyze systems-wide issues, and review policies. Other important committees exist around the Libraries, including those related to our governance and oversight.

Our Councils include those for divisions and program areas of the Libraries:

- Access Services Council
- Information Technology Council
- Collections Council
- Undergraduate Initiatives Council

Welcome to RefWorks - Syracuse University

This wiki is a training and knowledge management tool created by Science and Technology Librarians at Syracuse University Library to promote the use of RefWorks among the Syracuse University (SU) community.

Why should I be interested in RefWorks?

RefWorks is a service that allows you to save and store citations, and generate bibliographies in different styles (e.g., APA, MLA, Chicago). Also when using Write-N-Cite utility program you may add references to a paper and format the reference list. References may be easily imported from many online databases, the SUMMIT catalog, the Internet and other bibliographic management tools, or you can manually enter the information into RefWorks.

Can I use RefWorks at home?

RefWorks is accessible from off-campus to members of the SU community. More information involving off-campus access and SU's policy on access to licensed web resources is available.

Do you offer training on using RefWorks?

Instructional training sessions will be available during the Fall and Spring semesters. They will be located at Bird Library in the lower level, room 046. Registration is not required and all SU and SUNY ESF students, faculty and staff are welcome to take part. You may also request a training session for a group of students or class through the Instructional Services page. During the summer, take advantage of the free webinars.

Want to join our wiki?

You are invited to join this site and be part of the growing community of RefWorks users who share ideas as well as problems or solutions that they have encountered while navigating or using the software.

For optimal viewing, we recommend using the Mozilla Firefox browser.
