ARL Academic Health Sciences Library Statistics 2007–2008

The tables presented in this publication are not indicative of performance and outcomes and should not be used as measures of library quality. In comparing any individual library to ARL medians or to other ARL members, one must be careful to make such comparisons within the context of differing institutional and local goals and characteristics.

The *ARL Academic Health Sciences Library Statistics* datafiles and accompanying documentation are available at www.arl.org/stats/annualsurveys/med/index.shtml.

HIGHLIGHTS

ARL ACADEMIC HEALTH SCIENCES LIBRARY STATISTICS 2007–2008

- Out of 113 ARL university libraries, 64 responded to this survey.¹
- Health Sciences libraries reported median values of 240,955 volumes held and 2,598 gross volumes added. The full-time equivalent of 2,304 staff were employed by these libraries during the year.
- Responding libraries reported total expenditures of \$240,019,298.² As seen in the graph below, library materials made up the largest portion of that total, with 48.61% of aggregated expenses falling under that category.
- Health sciences libraries reported a total of \$81,986,136 on electronic materials, or a median of 76% of their total materials budgets. This includes a total of \$76,921,558 on electronic serials.

EXPENDITURES IN ARL ACADEMIC HEALTH SCIENCES LIBRARIES 2007–2008

¹ 73 university libraries included data for a health sciences library for the 2007–2008 *ARL Statistics*. Among them, British Columbia, Brown, Johns Hopkins, Laval, Louisville, Manitoba, Missouri, Ohio, Toronto, and Wayne State included health sciences library data in the *ARL Statistics*, but did not respond to this survey. Cornell and Indiana did not include health library data in the *ARL Statistics*, but did respond to this survey.

² This figure includes Canadian universities, whose expenditures were converted to U.S. dollars at the rate of 1.0101 Can\$ = 1 US\$, the average monthly noon exchange rate published in the *Bank of Canada Review* for the period July 2007–June 2008.

ARL STATISTICS QUESTIONNAIRE, 2007–2008

INSTRUCTIONS FOR COMPLETING THE QUESTIONNAIRE

General Instructions

Definitions of statistical categories can be found in NISO Z39.7-2004, *Information Services and Use: Metrics & statistics for libraries and information providers--Data Dictionary* (<http://www.niso.org/>). ARL has been modifying the interpretation of the standard definitions to address questions posed by library staff at various member institutions that complete the survey and with feedback from the ARL Statistics and Assessment Committee (<http://www.arl.org/stats/program/meeting.html>).

Please do not use decimals. All figures should be rounded to the nearest whole number.

Please respond to every question. If an exact figure cannot be provided, use NA/UA to indicate that the figure is either unavailable or not applicable. If the appropriate answer is zero or none, use 0.

Although the form allows for data to be entered from both main and branch campuses, an effort should be made to report figures for the main campus only. (The US National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS) defines a **branch institution** as “a campus or site of an educational institution that is not temporary, is located in a community beyond a reasonable commuting distance from its parent institution, and offers organized programs of study, not just courses.”) If figures for libraries located at branch campuses are reported, please specify which branch libraries are included and which ones are excluded in the notes below.

A **branch library** is defined as an auxiliary library service outlet with quarters separate from the central library of an institution, which has a basic collection of books and other materials, a regular staffing level, and an established schedule. A branch library is administered either by the central library or (as in the case of some law and medical libraries) through the administrative structure of other units within the university. Departmental study/reading rooms are not included.

The questionnaire assumes a fiscal year ending **June 30, 2008**. If your fiscal year is different, please indicate this in the notes below by adjusting the reporting period.

Footnotes. Explanatory footnotes will be included with the published statistics. Provide any notes you may have in the footnotes area at the end of the survey. Reporting libraries are urged to record there any information that would clarify the figures submitted in that line, e.g., the inclusion and exclusion of branch campus libraries. Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Specific Instructions

Question 1. Volumes in Library. Use the ANSI/NISO Z39.7-2004 definition for **volume** as follows:

*a single physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, distinguished from other units by a separate binding, encasement, portfolio, or other clear distinction, which has been **cataloged, classified, and made ready for use**, and which is typically the unit used to charge circulation transactions. Either a serial volume is bound, or it comprises the serial issues that would be bound together if the library bound all serials.*

Include duplicates and bound volumes of periodicals. For purposes of this questionnaire, unclassified bound serials arranged in alphabetical order are considered classified. Exclude microforms, maps, nonprint materials, and uncataloged items. If any of these items cannot be excluded, please provide an explanatory footnote

Include government document volumes that are accessible through the library's catalogs regardless of whether they are separately shelved. “Classified” includes documents arranged by Superintendent of Documents, CODOC, or similar numbers. “Cataloged” includes documents for which records are provided by the library or downloaded from other sources into the library's card or online catalogs. Documents should, to the extent possible, be counted as they would if

they were in bound volumes (e.g., 12 issues of an annual serial would be one or two volumes). Title and piece counts should not be considered the same as volume counts. If a volume count has not been kept, it may be estimated through sampling a representative group of title records and determining the corresponding number of volumes, then extrapolating to the rest of the collection. As an alternative, an estimate may be made using the following formulae:

$$\begin{array}{l} 52 \text{ documents pieces per foot} \\ 10 \text{ "traditional" volumes per foot} \\ 5.2 \text{ documents pieces per volume} \end{array}$$

Include e-book units, as long as these e-books are owned or leased and have been cataloged by your library. Include electronic books purchased through vendors such as NetLibrary® or Books 24x7, and e-books that come as part of aggregate services. Include individual titles of e-book sets that are treated as individual reference sources. Include locally digitized electronic books and electronic theses and dissertations. Provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles in a note.

Include volumes purchased collectively where the cost is shared at the time of purchase.

If either formulas or sampling are used for deriving your count, please indicate in a footnote.

Question 1b. Volumes Added. Include only volumes cataloged, classified, and made ready for use. Include government documents if they have been included in the count of volumes on line 1a. Do not include as part of Volumes Added Gross any government documents or other collections (such as large gift collections or e-book packages) that were added to the collection as the result of a one time download or addition to the OPAC. Include these items in Volumes Held of the previous year (Line 1a) and provide a footnote explaining the revision of Line 1a.

Question 2. Monographic Volumes Purchased. Report number of volumes purchased; do not include volumes received or cataloged. Include all volumes for which an expenditure was made during 2007–2008, including volumes paid for in advance but not received during the fiscal year. Include monographs in series and continuations. Include e-books that fit the NetLibrary® model, i.e., electronic manifestations of physical entities and/or units; provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles. If only number of titles purchased can be reported, please report the data and provide an explanatory footnote.

Question 3: Basis of Volume Count. A physical count is a piece count; a bibliographic count is a catalog record count.

Questions 4–5. Serials. Use the following definition adapted from AACR2 for a serial:

A bibliographic resource issued in a succession of discrete parts, usually bearing numbering, that has no predetermined conclusion. Examples of serials include journals, magazines, electronic journals, continuing directories, annual reports, newspapers, and monographic series.

Report the total number of **unique** serial titles, NOT SUBSCRIPTIONS, that you currently acquire and to which you provide access. Do not include duplicate counts of serial titles. Report each title once, regardless of how many subscriptions or means of access you provide for that title. Exclude unnumbered monographic and publishers' series. Electronic serials acquired as part of a bundle or an aggregated package should be counted at the title level, even if they are not cataloged, as long as the title is made accessible directly by the library (e.g., through a finding aid). If access is provided only through the overall platform or aggregator, do not report the individual titles but count the package as a single title.

Question 4a. Serial titles currently purchased. In the case of consortial agreements, count under 'serial titles currently purchased' those titles for which the library pays any amount from its budgeted expenditures. Include all titles that are part of bundles or aggregated packages, even if your library makes a partial payment for access to those titles. If a purchased title includes electronic access to the title, count that title **ONLY ONCE (DEDUPED)** as electronic only. If a database includes full-text and abstracted titles, the number of full-text titles can be counted.

Question 4b. Serial titles: Not Purchased. Report other titles that your library receives and does not pay for directly under 'serial titles received but not purchased.' These titles may include exchanges, gifts, etc.

If serial titles have been purchased through a consortium whose budget is centrally funded and independent from the library's budget, these serials should be reported under 'serial titles currently received but not purchased.' If within a purchased or aggregated package it cannot be determined that some titles are not purchased, report all titles as purchased.

Freely accessible titles are those your library provides direct access to via cataloging records or through online serial lists of other finding aids.

To the extent possible, report all government document serials separately in 4b.iv.

If separate counts of non-purchased and purchased serial titles are not available, report only the total number of serial titles currently purchased and received on line 4, and report U/A for lines 4a and 4b.

Question 6. Microforms. Report the total number of physical units: reels of microfilm, microcards, and microprint and microfiche sheets. Include all government documents in microform; provide a footnote if documents are excluded.

Question 7. Government documents. Report the total number of physical units (pieces) of government documents in paper format that have not been counted elsewhere. Include local, state, national, and international documents; include documents purchased from a commercial source if shelved with separate documents collections and not counted above. Include serials and monographs. To estimate pieces from a measurement of linear feet, use the formula $1 \text{ foot} = 52 \text{ pieces}$ and indicate in a footnote that the count is based on this estimate. Exclude microforms and non-print formats such as maps or CD-ROMs. Adjust line 1a, i.e., last year's Volumes Held, and provide a footnote if you are adding records to the OPAC for government documents previously held but not counted as part of Volumes Held (line 1a).

Question 8. Computer files. Include the number of pieces of computer-readable disks, tapes, CD-ROMs, and similar machine-readable files comprising data or programs that are locally held as part of the library's collections available to library clients. Examples are US Census data tapes, sample research software, locally mounted databases, and reference tools on CD-ROM, tape or disk. Exclude bibliographic records used to manage the collection (i.e., the library's own catalog in machine-readable form), library system software, and microcomputer software used only by the library staff.

Question 9. Manuscripts and archives. Include both manuscripts and archives measured in linear feet.

Question 10. Cartographic materials. Include the numbers of pieces of two- and three-dimensional maps and globes. Include satellite and aerial photographs and images.

Question 11. Graphic materials. Include the number of pieces of prints, pictures, photographs, postcards, slides, transparencies, film strips, and the like.

Question 12. Audio materials. Include the number of pieces of audiocassettes, phonodiscs, audio compact discs, reel-to-reel tapes, and other sound recordings.

Question 13. Film and video materials. Include the number of pieces of motion pictures, videocassettes, video laser discs, and similar visual materials.

Questions 14-20. Expenditures. Report all expenditures of funds that come to the library from the regular institutional budget, and from sources such as research grants, special projects, gifts and endowments, and fees for service. (For question 17, include non-library funds; see instruction Q17.) Do not report encumbrances of funds that have not yet been expended. **Canadian libraries should report expenditures in Canadian dollars.** (For your information, if interested in determining figures in US dollars, divide Canadian dollar amounts by 1.0101, the average monthly noon exchange rate published in the Bank of Canada *Review* for the period July 2007–June 2008.) **Please round figures to the nearest dollar.**

Question 15a. Monographs. Report expenditures for volumes purchased counted on line 2.

Question 15b. Serial titles. Report expenditures for serial titles counted on line 4a. Exclude unnumbered monographic and publishers' series, and encumbrances.

Question 15c. Other library materials. Include expenditures for all materials not reported in Questions 15a and 15b, e.g., backfiles of serials, charts and maps, audiovisual materials, manuscripts, etc. If expenditures for these materials are included in lines 15a and/or 15b and cannot be disaggregated, please report U/A and provide a footnote. Do not include encumbrances.

Question 15d. Miscellaneous expenditures. Include any other **materials funds expenditures** not included in questions 15a-c, e.g., expenditures for bibliographic utilities, literature searching, security devices, memberships for the purposes of publications, etc. Please list categories, with amounts, in a footnote. **Note:** If your library does not use materials funds for non-materials expenditures—i.e., if those expenditures are included in “Other Operating Expenditures”— **report 0, not U/A**, on line 15d.

Question 16. Contract Binding. Include only contract expenditures for binding done outside the library. If all binding is done in-house, state this fact and give in-house expenditures in a footnote; do not include personnel expenditures. (This figure should also be reported in the 2007–2008 ARL Preservation Survey, question 7b.)

Questions 17. Salaries and wages. Exclude fringe benefits. If professional and support staff salaries cannot be separated, enter U/A, on lines 17a and 17b and enter total staff on line 17.

Question 17c. Salaries and wages: Student Assistants. Report 100% of student wages regardless of budgetary source of funds. Include federal and local funds for work study students.

Question 19. Other operating expenditures. Exclude expenditures for buildings, maintenance, and fringe benefits.

Questions 21–25. Electronic expenditures. These items are intended to indicate what portion of your institution's total library expenditures are dedicated to electronic resources and services. Please use the Footnotes to indicate any electronic materials expenditures you believe not to be covered by these questions. **Many expenditures recorded in these questions should have been included in Question 20, total library expenditures.**

Question 21. One-time electronic resource purchases. Report expenditures that are not current serials (i.e. are non-subscription, one-time, or monographic in nature) for software and machine-readable materials considered part of the collections. Examples include periodical backfiles, literature collections, one-time costs for JSTOR membership, etc. Expenditures reported here may be derived from any of the following categories: Monographs (Q15a), Other Library Materials (Q15c), Miscellaneous (Q15d), or Other Operating Expenditures (Q19).

Question 22. Ongoing electronic resource purchases. Report subscription expenditures (or those which are expected to be ongoing commitments) for serial publications whose primary format is electronic and for online searches of remote databases such as OCLC FirstSearch, DIALOG, Lexis-Nexis, etc. Examples include paid subscriptions for electronic journals and indexes/abstracts available via the Internet, CD-ROM serials, and annual access fees for resources purchased on a “one-time” basis, such as literature collections, JSTOR membership, etc. Not all items whose expenditures are counted here will be included in Serial titles currently received (Question 4) or Serials Expenditures (Question 15b).

Q23. Bibliographic Utilities, Networks, and Consortia. Because it is increasingly common for ARL Libraries to enter into consortial arrangements to purchase access to electronic resources, both “Library” and “External” expenditure blanks and instructions are provided. Please use a footnote to describe expenditures that you believe are not covered by the question, or situations that do not seem to fit the instructions.

Q23a. From internal library sources. Report expenditures paid by the Library for services provided by national, regional, and local bibliographic utilities, networks, and consortia, such as OCLC and RLG, unless for user database access and subscriptions, which should be reported in Questions 21 or 22. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q23b. From external sources. If your library receives access to computer files, electronic serials or search services through one or more centrally-funded system or consortial arrangements for which it does not pay fully and/or directly (for example, funding is provided by the state on behalf of all members), enter the amount paid by external bodies on its

behalf. If the specific dollar amount is not known, but the total student FTE for the consortium and amount spent for the academic members are known, divide the overall amount spent by your institution's share of the total student FTE.

Q24. Computer hardware and software. Report expenditures from the library budget for computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer, and whether for staff or public use. Include expenditures for: maintenance; equipment used to run information service products when those expenditures can be separated from the price of the product; telecommunications infrastructure costs, such as wiring, hubs, routers, etc. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q25. Document Delivery/Interlibrary Loan. Report expenditures for document delivery and interlibrary loan services (both borrowing and lending). Include fees paid for photocopies, costs of telefacsimile transmission, royalties and access fees paid to provide document delivery or interlibrary loan. Include fees paid to bibliographic utilities if the portion paid for interlibrary loan can be separately counted. Include only expenditures that are part of Miscellaneous Materials Expenditures (Q15d) or Other Operating Expenditures (Q19), and only for those ILL/DD programs with data recorded in Questions 34-35.

Questions 26. Personnel. Report the number of FTE (full-time equivalent) staff in filled positions, or positions that are only temporarily vacant. ARL defines temporarily vacant positions as positions that were vacated during the fiscal year for which ARL data were submitted, for which there is a firm intent to refill, and for which there are expenditures for salaries reported on line 17.

Include cost recovery positions and staff hired for special projects and grants, but provide an explanatory footnote indicating the number of such staff. If such staff cannot be included, provide a footnote. To compute full-time equivalents of part-time employees and student assistants, take the total number of hours per week (or year) worked by part-time employees in each category and divide it by the number of hours considered by the reporting library to be a full-time work week (or year). **Round figures to the nearest whole numbers.**

Question 26a. Professional Staff. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term "professional." Each library should report those staff members it considers professional, including, when appropriate, staff who are not librarians in the strict sense of the term, for example computer experts, systems analysts, or budget officers.

Question 26b. Support Staff. Report the total FTE (see instruction 26) of staff not included in 26a.

Question 26c. Student Assistants. Report the total FTE (see instruction Q26) of student assistants employed on an hourly basis whose wages are paid from funds under library control or from a budget other than the library's, including federal work-study programs. Exclude maintenance and custodial staff.

Question 27. Number of staffed library service points. Count the number of staffed public service points in the main library and in all branch libraries reported in this inventory, including reference desks, information desks, circulation, current periodicals, reserve rooms, reprographic services (if staffed as a public facility), etc. Report the number of designated locations, not the number of staff.

Question 28. Number of weekly public service hours. Report an unduplicated count of the total public service hours per typical full-service week (i.e., no holidays or other special accommodations) across both main library and branches using the following method (corresponds to IPEDS): If a library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 40 hours per week. If several of its branches are also open during these hours, the figure remains 40 hours per week. Should Branch A also be open one evening from 7:00 p.m. to 9:00 p.m., the total hours during which users can find service somewhere within the system becomes 42 hours per week. If Branch B is open the same hours on the same evening, the count is still 42, but if Branch B is open two hours on another evening, or remains open two hours later, the total is then 44 hours per week. **Exclude 24-hour unstaffed reserve or similar reading rooms.** The maximum total is 168 (i.e., a staffed reading room open 7 days per week, 24 hours per day).

Questions 29–30. Instruction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Questions 29 and 30. Please indicate if responses are based on sampling.

Question 29. Presentations to Groups. Report the total number of sessions during the year of presentations made as part of formal bibliographic instruction programs and through other planned class presentations, orientation sessions, and tours. If the library sponsors multi-session or credit courses that meet several times over the course of a semester, each session should be counted. Presentations to groups may be for either bibliographic instruction, cultural, recreational, or educational purposes. Presentations both on and off the premises should be included as long as they are sponsored by the library. Do not include meetings sponsored by other groups using library meeting rooms. Do not include training for library staff; the purpose of this question is to capture information about the services the library provides for its clientele. Please indicate if the figure is based on sampling.

Question 30. Participants in Group Presentations. Report the total number of participants in the presentations reported on line 29. For multi-session classes with a constant enrollment, count each person only once. Personal, one-to-one instruction in the use of sources should be counted as reference transactions on line 31. Please indicate if the figure is based on sampling. Use a footnote to describe any special situations.

Question 31. Reference Transactions. Report the total number of reference transactions. A **reference transaction** is

an information contact that involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include (a) printed and nonprinted material; (b) machine-readable databases (including computer-assisted instruction); (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library. When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.

If a contact includes both reference and directional services, it should be reported as one reference transaction. Include virtual reference transactions (e.g., e-mail, WWW form, chat). Duration should not be an element in determining whether a transaction is a reference transaction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Question 31. Please indicate if the figure is based on sampling.

EXCLUDE SIMPLE DIRECTIONAL QUESTIONS. A directional transaction is an information contact that facilitates the logistical use of the library and that does not involve the knowledge, use, recommendations, interpretation, or instruction in the use of any information sources other than those that describe the library, such as schedules, floor plans, and handbooks.

Questions 32–33. Circulation. For Question 32, count the number of initial circulations during the fiscal year from the general collection for use usually (although not always) outside the library. Do not count renewals. Include circulations to and from remote storage facilities for library users (i.e., do not include transactions reflecting transfers or stages of technical processing). Count the total number of items lent, not the number of borrowers.

For Question 33, report total circulation for the fiscal year including initial transactions reported on line 32 and renewal transactions. Exclude reserve circulations; these are no longer reported.

Questions 34–35. Interlibrary Loans. Report the number of requests for material (both returnables and non-returnables) provided to other libraries on line 34 and the number of filled requests received from other libraries or providers on line 35. On both lines, include originals, photocopies, and materials sent by telefacsimile or other forms of electronic transmission. Include patron-initiated transactions. Exclude requests for materials locally owned and available on the shelves or electronically. Do not include transactions between libraries covered by this questionnaire.

Questions 36. PhD Degrees. Report the number awarded during the 2007–2008 fiscal year. Please note that only the number of **PhD** degrees are to be counted. Statistics on all other advanced degrees (e.g., DEd, DPA, MD, JD) should not be reported in this survey. If you are unable to provide a figure for PhDs only, please add a footnote.

Question 37. PhD Fields. For the purposes of this report, PhD fields are defined as the specific discipline specialties enumerated in the US Department of Education's Integrated Postsecondary Education Data System (IPEDS) "Completions"

Survey. Although the IPEDS form requests figures for all doctoral degrees, only fields in which PhDs are awarded should be reported on the ARL questionnaire. Any exceptions should be footnoted.

Question 38. Instructional Faculty. Instructional faculty are defined by the US Department of Education as

members of the instruction/research staff who are employed full-time as defined by the institution, including faculty with released time for research and faculty on sabbatical leave.

Full-time counts generally exclude faculty who are employed to teach fewer than two semesters, three quarters, two trimesters, or two four-month sessions; replacements for faculty on sabbatical leave or leave without pay; faculty for preclinical and clinical medicine; faculty who are donating their services; faculty who are members of military organizations and paid on a different pay scale from civilian employees; academic officers, whose primary duties are administrative; and graduate students who assist in the instruction of courses. Please be sure the number reported, and the basis for counting, are consistent with those for 2006–2007 (unless in previous years faculty were counted who should have been excluded according to the above definition). Please footnote any discrepancies.

Questions 39–42. Enrollment. US libraries should use the Fall 2007 enrollment figures reported to the Department of Education on the Integrated Postsecondary Education Data System survey. Please check these figures against the enrollment figures reported to ARL last year to ensure consistency and accuracy. **Note:** In the past, the number of part-time students reported was FTE; the number now reported to IPEDS is a head count of part-time students. Canadian libraries should note that the category “graduate students” as reported here includes all post-baccalaureate students.

FOOTNOTES

Please consult the data entry Web interface (www.arlstatistics.org) for a copy of last year’s footnotes. These can be found under “Data Repository” after you login into www.arlstatistics.org. Explanatory footnotes will be included with the published statistics. Reporting libraries are urged to record in the footnote section any information that would clarify the figures submitted, e.g., the inclusion and exclusion of branch campus libraries (see the “General Instructions” for definition of branch campus libraries). Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire
by **January 30, 2009.**

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Les Bland (les@arl.org)
Tel. (202) 296-2296.

ARL STATISTICS WORKSHEET 2007–2008

This worksheet is designed to help you plan your submission for the 2007–2008 *ARL Statistics*. The figures on this worksheet should be similar to those in the “Summary” page of your web form, except in cases where data are unavailable. If an exact figure is unavailable, use “NA/UA”. If the appropriate answer is zero or none, use “0.”

41. Full-time graduate students *(Line 14, columns 15 & 16.)* (41) _____

42. Part-time graduate students *(Line 28, columns 15 & 16.)* (42) _____

FOOTNOTES

On the Web form, you will be able to add footnotes to individual questions, as well as footnotes that apply to your entire institution. Please provide any information which would clarify the figures submitted, e.g., the inclusion of branch campus libraries or any special projects which might cause radical increases or decreases. Please use the footnotes in the *ARL Statistics 2006–2007* for comparison if necessary. Please consult the data entry Web interface (www.arlstatistics.org) for a copy of last year's footnotes. These can be found under "Historical Data" by clicking a survey's arrow icon under

the “View Summary” column and then selecting the “Footnotes” tab. Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire by **January 30, 2009**.

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Les Bland (les@arl.org)
Tel. (202) 296-2296.

FOOTNOTES

Footnotes may also include errata and corrections to data not previously reported from prior years. Numbers refer to columns in Library Data Tables and to Questionnaire numbers. Unless otherwise noted, all figures are as of 06/30/2008.

QUESTION NUMBER	FOOTNOTE
ALABAMA	
	All figures are as of 09/30/2008.
1a	Volumes held 30 June 2007 revised to 20,791. Difference in 2006–2007 volumes held 9/30/2007 (17,857) and 2007–2008 volumes held 9/30/2007 (20,791) due to adjustments to problem records in ILS.
4a	The number of serials titles currently purchased (197) is composed of (4ai) electronic: 109 and (4aii) print: 88. Both (4ai) and (4aii) were changed to UA/NA so that the operating system could aggregate other figures from the Alabama law and main library surveys.
4b	All 1,961 serials that are received, but not purchased, are from (4bii) freely accessible. This response was marked UA/NA so that the operating system could aggregate other figures from the Alabama law and main library surveys.
15d	Includes memberships.
19	Includes bibliographic utilities and literature searching.
ARIZONA	
	Library branches included: Arizona Health Sciences Library-Phoenix.
1a	Volumes held 30 June 2007 revised to 223,687.
1bi	Number is net volumes added.
1bii	Volumes withdrawn figure is not available.
4ai	E-journal management tools were implemented during 2007–2008 and it became possible to identify and track journal titles that are provided to users that were not easily available for inclusion in journal title counts done in earlier years. Additionally, a number of electronic biomedical (broadly defined) journals are from all libraries on campus (not just Arizona Health Science Library).
13	Includes bibliographic record types of video/film in both Tucson and Phoenix branches.
19	Includes ERE expenditures of \$646,644.89.
23a	\$6,718 represents charges from AMIGOS. However, charges are more than offset by credits; e.g., credits received for what we contribute to OCLC database/ILs amounted to \$12,384.
23b	This figure includes AZHIN dues.
25	Includes all expenses, except personnel costs, which are only partially reflected.
27	Information desk, Copy Technology Services desk, Phoenix desk are included.
29	Includes education and outreach group teaching.
30	Includes participants in education sessions only.
CALIFORNIA, DAVIS	
	Library branches included: Carlson Health Sciences Library and Blaisdell Medical Library.
1b-1bi	A combination of weeding due to moving into new space to make room for growth and reduced spending contributed to the net reduction of volumes in the library.
4-4a	New California Digital Library packages and associated content was added.
4b	Addition of government resources, free internet resources cataloged.
8	Increase due to more CD's and DVD's accompanying print materials and software programs added to support School of Medicine curriculum.
15a	Reduced book expenditures for this period.
26a	Number reported 2006–2007 was not correct, should have been 10 not 8. No variance in this number.
26c	The health sciences technical services operations were integrated as part of a campus library reorganization of technical services functions thus decreasing the number of students required.
29	Reflects increased number of requests for educational sessions by the School of Medicine.

CALIFORNIA, DAVIS, cont.

- 32-33 The new library facility in Sacramento is now part of a medical education building, so is more convenient for the library's clientele. Thus, more individuals are borrowing the materials.
- 34 In years prior to 2007–2008 requests were low because the electronic formats of journals did not show in SERHOLD for UC-Davis. We had canceled the print versions in earlier years, but did not update SERHOLD to include the electronic formats.
- 36-42 This item is reported as an overall total for all libraries across campus on the Main Library Section.

CALIFORNIA, IRVINE

- 1a Volumes held 30 June 2007 revised to 333,471.

CALIFORNIA, LOS ANGELES

- 4 This figure is repeated from the previous year (2006–2007). UCLA has not yet determined accurate counts for subscription titles that are obtained without cost via the internet, since these titles do not have order records in UCLA's bibliographic database. Because there is a significant increase in these titles, UCLA is devoting efforts to capturing this information in a systematic and reliable way for the next annual statistical report.
- 27 Included in the General Library count (see 2007–2008 ARL Statistics). The Medical Library has 1 service point and is open for 97 hours weekly.

CALIFORNIA, SAN DIEGO

Library branches included: Biomedical Library, Medical Center Library.

- 38 Full-time instructional faculty figures for UCSD are for the whole university and are included in the 2007–2008 ARL Statistics.

CASE WESTERN RESERVE

- 4ai The Health Sciences Library also has access to 50,986 e-journals that are reported in the main library's statistics (see 2007–2008 ARL Statistics).

CHICAGO

John Crerar Library is a central science library with a biomedical collection for health sciences. Many numbers are percentages as a result. Data for the ARL survey are matched as closely as possible to data compiled and reported for the Association of Academic Health Sciences Libraries' (AAHSL) Annual Statistics of Medical School Libraries in the United States and Canada.

- 1b-1bi Number of volumes added during 2006–2007 was anomalously high. Current value (2007–2008) is close to the average reported over the past five years.
- 4-4a More accurate data were available this year (2007–2008); it is likely that 2006–2007's estimates were low.
- 12-13 Expenditures for these materials are centralized and cannot be disaggregated.
- 15-15b More accurate data collection was available during 2007–2008 that allowed better separation of health-science-only expenditures.
- 15c More accurate data collection was available for 2007–2008 that allowed better separation of health-science-only expenditures. It is not possible to completely separate health science library expenditures from other science expenditures, and it is likely that this number contains expenditures for non-health science materials.
- 18 Fringe benefits are included.
- 20 Significant differences in (15) account for variance in total collection expenditures.
- 23a-23b Expenditures for these materials are centralized and cannot be disaggregated.
- 34-35 More accurate reporting was available through ILLIAD interlibrary loan management system.

CINCINNATI

- 1a Volumes held 30 June 2007 revised to 304,892.
- 1bii The monograph collection was weeded prior to move.
- 4 Serials not reported separately from total university count.
- 16 This decrease reflects the purchase of fewer print journals and less binding when we have archival rights to an electronic journal title.
- 17 This decrease reflects a reorganization that separated what was formerly a combined Health Science Library (HSL) and IT organization. The HSL is now integrated into the central library system administratively and operationally as it originally was until 1972.
- 19-20 This decrease reflects the reorganization mentioned in (17).
- 26 This decrease reflects a reorganization that separated what was formerly a combined HSL and IT organization. The HSL is now integrated into the central library system administratively and operationally as it originally was until 1972.
- 31 This decrease reflects not providing chat reference services this year (2007–2008).

COLUMBIA

- 1 The Augustus C. Long Health Sciences Library has been undergoing major renovation since 2007 to free up space for a new Learning Center. This has required us to remove most of the printed library collection. However, there has been no loss of access to our collection. The library has retained approximately 340K volumes which have been moved to an off-site location. We weeded out-of-scope materials of the medical library collection, de-duped the basic science materials from the collection if available in another Columbia University Library, and most of the journal subscriptions (in-scope materials) were converted to electronic if the source was reliable and retention of paper was no longer needed.
- 4 Included in Butler Library statistics (see 2007–2008 ARL Statistics).
- 25 Actual number for Health Sciences Library is \$8,609; number is marked UA/NA in order to submit correct overall number for Columbia (see footnote for (25) in the 2007–2008 ARL Statistics).
- 26 Increase in staff is due to the library renovation, wherein the need for temporary staff to help out with the barcoding of printed materials before moving to off-site storage.

CORNELL

- 1a Volumes held 30 June 2007 revised to 189,422. Change in volumes held June 30, 2007 reflects the fact that additional e-books were counted.
- 4 This is an estimate only. Approximately 870 were estimated to be non-current e-titles.
- 17,26 Several staff members were on medical leave during 2007–2008.
- 38 Decrease from 2006–2007 reflects a more accurate count.

DARTMOUTH

Library branches included: Dana Biomedical Library, Matthews-Fuller Health Sciences Library.

- 4 Count of serials titles for 2007–2008 was made using a different source, which we believe is more accurate.

DUKE

Library branches included: this survey includes the Medical Center Library only.

- 36-42 This data is reported in the Main Library survey (see 2007–2008 ARL Statistics).

EMORY

All figures are as of 08/31/2008.

Library branches included: Grady Branch Library, Emory Hospital Branch Library.

- 4aai Number represents print only titles.
- 12 A library branch was left out of count for prior year (2006–2007).

FLORIDA

- 1a Volumes held 30 June 2007 revised to 352,466.
- 4ai This number is reported by the main academic library (see 2007–2008 ARL Statistics).
- 18 Fringe benefits are included.

FLORIDA STATE

- 4aai Some serials counted in this category are now counted in a new or different category.
- 17b Support staff were not given raises for 2007–2008.
- 19 The increase in this category is due to small increases across several expenditure categories: interlibrary loan, recruitment to fill open positions, travel, telecommunications, and costs related to library renovation services from vendor.
- 20 Large increase in this category due to the purchasing of e-books as opposed to leasing arrangement in 2006–2007.
- 41 The 2006-2007 number was incorrect. The correct number is 13.

GEORGE WASHINGTON

- 1 129,526 was the figure determined by the library.
- 1a Number from previous statistics is 10 higher—129,536.
- 8,11-12 Changes from 2006–2007 due to weeding project, that occurred during July-August 2007.
- 23a Different calculation method was used than the one used previously.
- 28 The calculation for 2006–2007 only represented a portion of total public service hours and was thus incorrectly low.
- 29 2006–2007's number of library presentations to groups was incorrectly calculated and omitted our involvement in a year-long class.

GEORGE WASHINGTON, cont.

- 34 Number continues to decrease due to increased availability of journals in electronic format.

HARVARD

- 1a Volumes held 30 June 2007 revised to 681,657.
- 4 Total number of unduplicated current serials titles received, including periodicals, is approximately 2,300.
- 15c,21 Increase reflects change in accounting practice and deferred 2006–2007 purchases pending appointment of Collections Manager.

HAWAII

Library branches not included: University of Hawaii at Manoa Library (main); William S. Richardson School of Law Library.

HOWARD

- 1a Volumes held 30 June 2007 revised to 133,916.
- 4ai Include counting individual titles in databases (e.g., ScienceDirect), for which there is a record in the OPAC.

ILLINOIS, CHICAGO

Library branches included: Libraries of the Health Sciences in Chicago, Rockford, Peoria and Urbana.

Library branches not included: Richard J. Daley Library, Science Library.

- 9-11 Figure included in main library (Daley) 2007–2008 ARL Statistics.
- 16 The Library of the Health Sciences reported \$36,268 spent on contract binding during 2007–2008. This question has been marked UA/NA so that the subtotals from the medical library correcting aggregate in the 2007–2008 ARL statistics publication (note contract binding (16) is marked UA/NA in the main library survey— see 2007–2008 ARL Statistics).
- 35 Figure reported for 2006–2007 were incorrect. 39,349 was the correct figure for 2006–2007.
- 38-42 Included in main library report (see 2007–2008 ARL Statistics).

INDIANA

- 1 86 e-books included in count: Ovid, StatRef and 9 miscellaneous.
- 1a Volumes held 30 June 2007 revised to 278,471.

KANSAS

Library branches included: Dykes Medical Center Library.

- 1bii We went through a systematic project in 2006–2007 to remove materials. The numbers for 2007–2008 reflect more normal levels of withdrawn materials.
- 15a Funds reallocated from monograph purchases to support serials.
- 17a Added staff as a consequence of several successful grant applications.
- 17c Temporary “bump” in student funding, some of which was used to pay for night supervisors.
- 26c See comments for (17c).
- 34 In the past we were only reporting print holding to Docline. As our print collection was reduced (see comments to (1bii)) so were our lending requests. We have started to add our online holding to Docline.

KENTUCKY

- 4a Total represents print journals only. Medical Center e-journals are included in Main Library total (see 2007–2008 ARL Statistics).
- 4ai Unable to produce a separate total for Medical Center Library e-journals. Health Science e-journals are included in the total submitted for the Main Library (see 2007–2008 ARL Statistics).
- 4bi-4bii Not able to break out separate total for Health Sciences. Included in total submitted for Main Library (see 2007–2008 ARL statistics).

LOUISIANA STATE

All health science libraries are included.

MCGILL

Library branches included: Life Sciences Library and Osler Library (History of Medicine).

- 4ai Statistics by location for e-journals are not kept.
- 4bii These freely accessible serials are only in print format.

MCGILL, cont.

- 15-25 Expenditures as reported in Canadian dollars: (15a) 731,699; (15b) 1,025,370; (15c) 8,819; (15d) 0; (15) 1,765,888; (16) 11,035; (17a) 654,779; (17b) 597,766; (17c) 60,404; (17) 1,312,949; (19) 46,966; (20) 3,136,838; (21) 137,101; (22) 762,502; (23a) 0; (23b) 0; (24) 0; (25) 0.

MCMASTER

All figures are as of 04/30/2008.

- 15-25 Expenditures as reported in Canadian dollars: (15a) 266,037; (15b) 1,249,889; (15c) 0; (15d) 41,229; (15) 1,557,155; (16) 245; (17a) 580,774; (17b) 758,615; (17c) 29,137; (17) 1,368,526; (19) 158,524; (20) 3,084,450; (21) 105,500; (22) 1,100,751; (23a) 25,000; (23b) 0; (24) 40,000; (25) 56,000.

MIAMI

- 8 Medical library computer files are reported in (13).
13 Medical library audiovisual materials (10-13) and computer files (8) are reported in (13).
17a Excludes medical library director's salary.
26a Includes only medical library faculty. In years prior to 2007–2008 all non-faculty professional staff were reported in (26a); in 2007–2008 they are reported in (26b).
26b Includes both support and non-faculty professional staff. In years prior to 2007–2008 all non-faculty professional staff in the medical library were reported in (26a).
36-42 Institutional-level data reported in 2007–2008 ARL Statistics.

MINNESOTA

Veterinary Medical Library is included in Health Sciences statistics.

- 1a Volumes held 30 June 2007 revised to 544,335.
11 Breakdown for main library is unavailable; therefore, breakdown has not been entered for branches to avoid distortion. Breakdown for Health Sciences is: Graphic: 53; Audio: 66; Video: 2,377.

MONTREAL

- 15-25 Expenditures as reported in Canadian dollars: (15a) 100,302; (15b) 1,883,671; (15c) 0; (15d) 0; (15) 1,983,973; (16) 16,626; (17a) 659,709; (17b) 1,058,505; (17c) 0; (17) 1,718,214; (19) 0; (20) 3,718,813; (21) 0; (22) 1,355,521; (23a) 0; (23b) 0; (24) 0; (25) 0.

NEW MEXICO

Library branches included: University of New Mexico Health Sciences Library.

- 23a This increase reflects a change in methodology for calculating consortial expenditures to include internal and external spending on electronic journals, monographs, databases and bibliographic utilities.

NEW YORK

- 1a Volumes held 30 June 2007 revised to 227,233.

NORTH CAROLINA

- 1a Volumes held 30 June 2007 revised to 330,019. Reduced by 15,161 to correct flawed count in 2006–2007.
21 The increase is due to several major journal backfile (one-time) purchases made in 2007–2008, plus a one-time payment to Nature Publishing Group, on behalf of TRLN, to buy out their annual maintenance fees for their entire journal package.
36-42 See "University Library" in ARL 2007–2008 Statistics for institutional totals for questions 36-42.

NORTHWESTERN

All figures are as of 08/31/2008.

OHIO STATE

- 23b Inseparable from total university libraries figure of \$1,185,462.

OKLAHOMA

- 4a-4ai Inclusion of Law Integrating Resources. Serials statistics are reported as de-duped for all libraries.
4aii-4bi Serials statistics are reported as de-duped for all libraries following ARL Best Practices.

OKLAHOMA STATE

- 1a Volumes held 30 June 2007 revised to 53,890. During summer 2008, the library did a physical volume count and changed the end count reported in 2006–2007 from 58,875 to 53,890 for a decrease of 4,985 volumes.
18 Fringe benefits are included.

PENNSYLVANIA

- 4 This number does not fully reflect serials available to the medical community at Pennsylvania, as the overwhelming count of serials for medicine are electronic and are included in the electronic serials counts for the institution.

PENNSYLVANIA STATE

Library branches included: Milton S. Hershey Medical Center College of Medicine Harrell Library Hershey, Pennsylvania

- 1a Volumes held 30 June 2007 revised to 108,128.
- 21 The decrease is due to the Medical Library not purchasing any backfiles during 2007–2008.
- 29-30 A library education team was initiated and all librarians now teach and make presentations to groups.
- 34-35 Interlibrary loans increased when online subscriptions with ILL permissions were added to Serhold and OCLC holdings.

PITTSBURGH

Library branches included: health sciences libraries.

- 1 Does not include e-books; additionally, this figure is partly based on an estimate.
- 1a Volumes held 30 June 2007 revised to 392,609. Number submitted 2006–2007 included error.
- 15d This is a much larger figure than 2006–2007 because it includes some electronic resources.

QUEENS

All figures are as of 04/30/2008.

Library branches included: Bracken Library, Health Science Library.

- 4-4biv Included in the main library survey (see the 2007–2008 ARL Statistics).
- 5-11 Included in main library survey (see the 2007–2008 ARL Statistics).
- 15-25 Expenditures as reported in Canadian dollars: (15a) 145,420; (15b) 1,685,116; (15c) 4,012; (15d) 0; (15) 1,834,548; (16) 9,124; (17a) 666,469; (17b) 465,889; (17c) 36,939; (17) 1,169,297; (19) 200,929; (20) 3,213,898; (21) 0; (22) 1,509,838; (23a) 0; (23b) 0; (24) 0; (25) 0.
- 17a Salaries for professional staff paid through external funding were not included in 2006–2007's salary total, although the FTE included these positions. This year (2007–2008), the associated salaries were included.
- 21-25 Included in main library survey (2007–2008 ARL Statistics).
- 36-37 Information for (36) and (37) as of November 2007.
- 38 Information is as of October 2007.
- 39-42 Information is as of November 2007.

ROCHESTER

Library branches included: Edward G. Miner Library, University of Rochester Medical Center; Basil G. Bibby Library, Eastman Dental Center.

- 4 Sum of print-only serials (139) and the e-journals included in the Health Sciences & Life Sciences categories of SFX.
- 8 Includes non-local computer files purchased by Miner library. This number is down from 2006–2007 because many of the old Macintosh educational software programs have been removed from Macs in our Computing Center.

SASKATCHEWAN

All figures are as of 04/30/2008.

- 15b Includes provincial funding of \$1,373,027 (Canadian). Expenditures for 2007–2008 compared to 2006–2007 were lower due to timing of invoices received, and the strength of the Canadian dollar.
- 17a Includes \$226,432 from provincial grant 2007–2008.
- 26a Includes four Librarians funded from a provincial grant in 2007–2008.
- 15-25 Expenditures as reported in Canadian dollars: (15a) 180,131; (15b) 1,576,247; (15c) 0; (15d) 0; (15) 1,756,378; (16) 8,038; (17a) 330,188; (17b) 241,570; (17c) 58,174; (17) 629,932; (19) 0; (20) 2,394,348; (21) 0; (22) 0; (23a) 0; (23b) 0; (24) 0; (25) 0.

SUNY-BUFFALO

- 4ai-4bii Included in main library survey response (see 2007–2008 ARL Statistics).
- 23a Included in main library survey response (see 2007–2008 ARL Statistics).
- 23b This information is unavailable.
- 24 Included in main library survey response (see 2007–2008 ARL Statistics).

SUNY-BUFFALO, cont.

- 25 Figures are unavailable.
- 36-42 Included in main library survey response (2007–2008 ARL Statistics).

TEMPLE

- Library branches included: Included: Charles Krauze Library- School of Podiatric Medicine Library and HSC Library South (College of Allied Health, Pharmacy, Dental and Nursing).
- 21 Significant one-time purchases made of journal backfiles in medicine and health professions.

TENNESSEE

- Library branches included: Health Sciences Library, Memphis; Preston Medical Library; and the Knoxville part of College of Medicine in Memphis.
- 1a Volumes held 30 June 2007 revised to 219,841. It was adjusted for Health Sciences Library-Memphis from 197,202 to 197,411 to capture the number of e-books held, which was inadvertently omitted in 2006–2007.
- 4a Before de-duplication: medical titles purchased: electronic 5,389, print 251, total 5,640.
- 4b Before de-duplication: medical titles not purchased: 4,362
- 28 Health Sciences Library-Memphis is open 93 hours and Preston Medical Library is open 42.5 hours, but occurrence is within the 148 hours of operation for the University Libraries.
- 32 In 2007–2008, Health Sciences Library-Memphis did not estimate initial circulations as in previous years, so there is a drop in the total. The 2007–2008 total includes only the Preston Medical Library.
- 37 Footnote: In 2006–2007 the UT Health Sciences PhD programs were omitted.

TEXAS TECH

- All figures are as of 08/31/2008.
- Library branches included: Harrington Library TTUHSC/Amarillo, Montes-Gallo Library of the Health Sciences TTUHSC/El Paso, Library of the Health Sciences TTUHSC/Odessa, Preston Smith HSC Library.
- 15d The establishment of the new El Paso four-year medical school library is the reason for such a significant increase in our miscellaneous expenses listed here. 2007–2008 was the first year of funding for this new library.

UTAH

- 15c The answer to (15c) and (15d) were combined in calculation for 2006–2007. The correct amount for (15c) is 53,883.
- 15d See note for (15c). The correct amount for (15d) in 2006–2007 is 5,242.
- 17 Corrected amount for 2006–2007 is 1,733,550.
- 17a Salaries on projects were not included in 2006–2007. Correct amount should have been 879,023.
- 17b Salaries paid from projects not included in 2006–2007. Corrected amount is 666,009.
- 19 In 2006–2007 this amount was incorrectly calculated. The high number incorporated salaries from projects, including that from our donor's salary and benefits. Those numbers should have been excluded to obtain the correct calculation of \$1,503,275.
- 20 Corrected the amount to answers (17) and (20) to obtain the proper total library expenditures: \$4,528,779 for the 2006–2007 survey.
- 23a In 2006–2007 an amount was reported here that should have been (23b). It was from an external source and should have been 0.
- 23b See note on (23a). Correction of amount listed in (23a) for 2006–2007 (20,936). The amount double counted a credit that was already included. This number should have been 21,077 for 2006–2007.
- 24 The figure reported in 2006–2007 was miscalculated. It should have been 101,514.
- 26a RML liaisons have (mistakenly) not been included in this number. They will be added from in future reports.
- 26b 2006–2007's number was high-- some people paid from projects had FTE that was counted twice. The correct number is 19.
- 34 The number reported for 2006–2007 included document delivery and campus requests.

VIRGINIA

- Health Sciences Library branches are included.
- 1 Includes 981 e-books.
- 1bi Includes 152 e-books.
- 1bii Includes 31 e-books.
- 2 Includes 181 e-books.

VIRGINIA, cont.

- 4 The serials figures for all University of Virginia libraries are reported on the University Library survey (2007–2008 ARL Statistics) only.
- 36-42 Reported for all University of Virginia libraries on the University Library survey (see 2007–2008 ARL Statistics).

WASHINGTON U.-ST. LOUIS

- 1 Includes electronic books.
- 18 Fringe benefits are included.

WISCONSIN

- Library branches included: Health Sciences Library (Ebling Library).
- 36-42 Numbers reported for entire University of Wisconsin-Madison campus, regardless of discipline affiliation, school or college.

YALE

- 23a In 2006–2007, we erroneously reported consortial purchases which should have been reported in (21) or (22).
- 31 2006–2007's calculation (13,599) was incorrect; it should have been 11,839.

ARL MEMBER LIBRARIES AS OF JANUARY 1, 2009

The Association of Research Libraries (ARL) represents the interests of 123 libraries that serve major North American research institutions. The ARL Statistics and Measurement program is organized around identifying, collecting, analyzing, and distributing quantifiable information describing the characteristics of research libraries.

Institution	Category	Full Name of Institution	Location
