ARL Academic Health Sciences Library Statistics 2006–2007

The tables presented in this publication are not indicative of performance and outcomes and should not be used as measures of library quality. In comparing any individual library to ARL medians or to other ARL members, one must be careful to make such comparisons within the context of differing institutional and local goals and characteristics.

The *ARL Academic Health Sciences Library Statistics* datafiles and accompanying documentation are available at www.arl.org/stats/annualsurveys/med/index.shtml.

HIGHLIGHTS

ARL ACADEMIC HEALTH SCIENCES LIBRARY STATISTICS 2006–2007

- Out of 113 ARL university libraries, 65 responded to this survey.¹
- Health Sciences libraries reported median values of 244,188 volumes held and 3,402 gross volumes added. The full-time equivalent of 2,395 staff were employed by these libraries during the year.
- Responding libraries reported total expenditures of \$ 244,188,020.² As seen in the graph below, library materials made up the largest portion of that total, with 46.46% of aggregated expenses falling under that category.
- Health sciences libraries reported a total of \$75,592,753 on electronic materials, or a median of 70% of their total materials budgets. This includes a total of \$71,413,063 on electronic serials.

¹ Seventy-three university libraries reported a health sciences library on the 2006–2007 ARL Statistics. British Columbia, Brown, Laval, McGill, Manitoba, Missouri, Ohio, and Wayne State included health sciences library data with the ARL Statistics, but did not respond to this survey. Cornell and Indiana did not include a health sciences library on the ARL Statistics, but did submit a response to this survey.

² This figure includes Canadian universities, whose expenditures were converted to US dollars at the rate of 1.1323 Can\$ = 1 US\$, the average monthly noon exchange rate published in the Bank of Canada Review for the period July 2006 to June 2007.

ARL STATISTICS QUESTIONNAIRE, 2006–2007

INSTRUCTIONS FOR COMPLETING THE QUESTIONNAIRE

General Instructions

Definitions of statistical categories can be found in NISO Z39.7-2004, *Information Services and Use: Metrics & Statistics for Libraries and Information Providers--Data Dictionary* (<http://www.niso.org/emetrics/current/index.html>). ARL has been modifying the interpretation of the standard definitions to address questions posed by the library staff at various member institutions that complete the survey and with feedback from the ARL Statistics and Assessment Committee (<http://www.arl.org/stats/program/meeting.html>).

Please do not use decimals. All figures should be rounded to the nearest whole number.

Please respond to every question. If an exact figure cannot be provided, use NA/UA to indicate that the figure is either unavailable or not applicable. If the appropriate answer is zero or none, use 0.

Although the form allows for data to be entered from both main and branch campuses, an effort should be made to report figures for the main campus only. (The U.S. National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS) defines a **branch institution** as “a campus or site of an educational institution that is not temporary, is located in a community beyond a reasonable commuting distance from its parent institution, and offers organized programs of study, not just courses.”) If figures for libraries located at branch campuses are reported, please specify which branch libraries are included and which ones are excluded in the notes below.

A **branch library** is defined as an auxiliary library service outlet with quarters separate from the central library of an institution, which has a basic collection of books and other materials, a regular staffing level, and an established schedule. A branch library is administered either by the central library or (as in the case of some law and medical libraries) through the administrative structure of other units within the university. Departmental study/reading rooms are not included.

The questionnaire assumes a fiscal year ending **June 30, 2007**. If your fiscal year is different, please indicate this in the notes below by adjusting the reporting period.

Footnotes. Explanatory footnotes will be included with the published statistics. Provide any notes you may have in the footnotes area at the end of the survey. Reporting libraries are urged to record there any information that would clarify the figures submitted in that line, e.g., the inclusion and exclusion of branch campus libraries. Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Specific Instructions

Question 1. Volumes in Library. Use the ANSI/NISO Z39.7-2004 definition for **volume** as follows:

*a single physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, distinguished from other units by a separate binding, encasement, portfolio, or other clear distinction, which has been **cataloged, classified, and made ready for use**, and which is typically the unit used to charge circulation transactions. Either a serial volume is bound, or it comprises the serial issues that would be bound together if the library bound all serials.*

Include duplicates and bound volumes of periodicals. For purposes of this questionnaire, unclassified bound serials arranged in alphabetical order are considered classified. Exclude microforms, maps, nonprint materials, and uncataloged items. If any of these items cannot be excluded, please provide an explanatory footnote

Include government document volumes that are accessible through the library's catalogs regardless of whether they are separately shelved. "Classified" includes documents arranged by Superintendent of Documents, CODOC, or similar numbers. "Cataloged" includes documents for which records are provided by the library or downloaded from other sources into the library's card or online catalogs. Documents should, to the extent possible, be counted as they would if they were in bound volumes (e.g., 12 issues of an annual serial would be one or two volumes). Title and piece counts should not be considered the same as volume counts. If a volume count has not been kept, it may be estimated through sampling a representative group of title records and determining the corresponding number of volumes, then extrapolating to the rest of the collection. As an alternative, an estimate may be made using the following formulae:

$$\begin{aligned} &52 \text{ documents pieces per foot} \\ &10 \text{ "traditional" volumes per foot} \\ &5.2 \text{ documents pieces per volume} \end{aligned}$$

Include e-book units, as long as these e-books are owned or leased and have been cataloged by your library. Include electronic books purchased through vendors such as NetLibrary® or Books 24x7, and e-books that come as part of aggregate services. Include individual titles of e-book sets that are treated as individual reference sources. Include locally digitized electronic books and electronic theses and dissertations. Provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles in a note.

Include volumes purchased collectively where the cost is shared at the time of purchase.

If either formulas or sampling are used for deriving your count, please indicate in a footnote.

Question 1b. Volumes Added. Include only volumes cataloged, classified, and made ready for use. Include government documents if they have been included in the count of volumes on line 1a. Do not include as part of Volumes Added Gross any government documents or other collections (such as large gift collections or e-book packages) that were added to the collection as the result of a one time download or addition to the OPAC. Include these items in Volumes Held of the previous year (Line 1a) and provide a footnote explaining the revision of Line 1a.

Question 2. Monographic Volumes Purchased. Report number of volumes purchased; do not include volumes received or cataloged. Include all volumes for which an expenditure was made during 2006-07, including volumes paid for in advance but not received during the fiscal year. Include monographs in series and continuations. Include e-books that fit the NetLibrary® model, i.e., electronic manifestations of physical entities and/or units; provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles. If only number of titles purchased can be reported, please report the data and provide an explanatory footnote.

Question 3: Basis of Volume Count. A physical count is a piece count; a bibliographic count is a catalog record count.

Questions 4-5. Serials. Use the following definition for a serial:

a publication in any medium issued in successive parts bearing numerical or chronological designations and intended to be continued indefinitely. This definition includes periodicals, newspapers, and annuals (reports, yearbooks, etc.); the journals, memoirs, proceedings, transactions, etc. of societies; and numbered monographic series.

Report the total number of unique serial titles, NOT SUBSCRIPTIONS, that you currently acquire. Do not include duplicate counts of serial titles. To the extent possible, report all government document serials even if housed in a separate documents collection. Verify the inclusion or exclusion of document serials in Question 5. Exclude unnumbered monographic and publishers' series. Electronic serials acquired as part of a bundle or an aggregated package should be counted by title, even if they are not cataloged, as long as they are made accessible by the library.

Question 4a. Serial titles currently purchased. In the case of consortial agreements, count under 'serial titles currently purchased' those titles for which the library pays any amount from its budgeted expenditures. Include all titles that are part of bundles or aggregated packages, even if your library makes a partial payment for access to those titles. If a purchased title includes electronic access to the title, count that title ONLY ONCE (DEDUPED) as electronic only. If a database includes full-text and abstracted titles, the number of full-text titles can be counted.

Question 4b. Serial titles: Not Purchased. If serial titles have been purchased through a consortium whose budget is centrally funded and independent from the library's budget, these serials should be reported under 'serial titles currently received but not purchased.'

Report other titles that your library receives and does not pay for directly under 'serial titles received but not purchased.'

Record those serial titles received without purchase for whatever reason. If within a purchased or aggregated package it cannot be determined that some titles are not purchased, report all titles as purchased.

If separate counts of nonpurchased and purchased serial titles are not available, report only the total number of serial titles currently purchased and received on line 4, and report U/A for lines 4a and 4b.

Question 6. Microforms. Report the total number of physical units: reels of microfilm, microcards, and microprint and microfiche sheets. Include all government documents in microform; provide a footnote if documents are excluded.

Question 7. Government documents. Report the total number of physical units (pieces) of government documents in paper format that have not been counted elsewhere. Include local, state, national, and international documents; include documents purchased from a commercial source if shelved with separate documents collections and not counted above. Include serials and monographs. To estimate pieces from a measurement of linear feet, use the formula $1 \text{ foot} = 52 \text{ pieces}$ and indicate in a footnote that the count is based on this estimate. Exclude microforms and nonprint formats such as maps or CD-ROMs. Adjust line 1a, i.e., last year's Volumes Held, and provide a footnote if you are adding records to the OPAC for government documents previously held but not counted as part of Volumes Held (line 1a).

Question 8. Computer files. Include the number of pieces of computer-readable disks, tapes, CD-ROMs, and similar machine-readable files comprising data or programs that are locally held as part of the library's collections available to library clients. Examples are U.S. Census data tapes, sample research software, locally-mounted databases, and reference tools on CD-ROM, tape or disk. Exclude bibliographic records used to manage the collection (i.e., the library's own catalog in machine-readable form), library system software, and microcomputer software used only by the library staff.

Question 9. Manuscripts and archives. Include both manuscripts and archives measured in linear feet.

Question 10. Cartographic materials. Include the numbers of pieces of two- and three-dimensional maps and globes. Include satellite and aerial photographs and images.

Question 11. Graphic materials. Include the number of pieces of prints, pictures, photographs, postcards, slides, transparencies, film strips, and the like.

Question 12. Audio materials. Include the number of pieces of audiocassettes, phonodiscs, audio compact discs, reel-to-reel tapes, and other sound recordings.

Question 13. Film and video materials. Include the number of pieces of motion pictures, videocassettes, video laser discs, and similar visual materials.

Questions 14-20. Expenditures. Report all expenditures of funds that come to the library from the regular institutional budget, and from sources such as research grants, special projects, gifts and endowments, and fees for service. (For question 17, include non-library funds; see instruction Q17.) Do not report encumbrances of funds that have not yet been expended. **Canadian libraries should report expenditures in Canadian dollars.** (For your information, if interested in determining figures in U.S. dollars, divide Canadian dollar amounts by 1.1323, the average monthly noon exchange rate published in the Bank of Canada *Review* for the period July 2006-June 2007.) **Please round figures to the nearest dollar.**

Question 15a. Monographs. Report expenditures for volumes purchased counted on line 2.

Question 15b. Serial titles. Report expenditures for serial titles counted on line 4a. Exclude unnumbered monographic and publishers' series, and encumbrances.

Question 15c. Other library materials. Include expenditures for all materials not reported in Questions 15a and 15b, e.g., backfiles of serials, charts and maps, audiovisual materials, manuscripts, etc. If expenditures for these materials are included in lines 15a and/or 15b and cannot be disaggregated, please report U/A and provide a footnote. Do not include encumbrances.

Question 15d. Miscellaneous expenditures. Include any other **materials funds expenditures** not included in questions 15a-c, e.g., expenditures for bibliographic utilities, literature searching, security devices, memberships for the purposes of publications, etc. Please list categories, with amounts, in a footnote. **Note:** If your library does not use materials funds for non-materials expenditures—i.e., if those expenditures are included in "Other Operating Expenditures"—**report 0, not U/A**, on line 15d.

Question 16. Contract Binding. Include only contract expenditures for binding done outside the library. If all binding is done in-house, state this fact and give in-house expenditures in a footnote; do not include personnel expenditures. (This figure should also be reported in the 2006-07 ARL Preservation Survey, question 7b.)

Questions 17. Salaries and wages. Exclude fringe benefits. If professional and support staff salaries cannot be separated, enter U/A, on lines 17a and 17b and enter total staff on line 17.

Question 17c. Salaries and wages: Student Assistants. Report 100% of student wages regardless of budgetary source of funds. Include federal and local funds for work study students.

Question 19. Other operating expenditures. Exclude expenditures for buildings, maintenance, and fringe benefits.

Questions 21-25. Electronic expenditures. These items are intended to indicate what portion of your institution's total library expenditures are dedicated to electronic resources and services. Please use the Footnotes to indicate any

electronic materials expenditures you believe not to be covered by these questions. *Many expenditures recorded in these questions should have been included in Question 20, total library expenditures.*

Question 21. One-time electronic resource purchases. Report expenditures that are not current serials (i.e. are non-subscription, one-time, or monographic in nature) for software and machine-readable materials considered part of the collections. Examples include periodical backfiles, literature collections, one-time costs for JSTOR membership, etc. Expenditures reported here may be derived from any of the following categories: Monographs (Q15a), Other Library Materials (Q15c), Miscellaneous (Q15d), or Other Operating Expenditures (Q19).

Question 22. Ongoing electronic resource purchases. Report subscription expenditures (or those which are expected to be ongoing commitments) for serial publications whose primary format is electronic and for online searches of remote databases such as OCLC FirstSearch, DIALOG, Lexis-Nexis, etc. Examples include paid subscriptions for electronic journals and indexes/abstracts available via the Internet, CD-ROM serials, and annual access fees for resources purchased on a “one-time” basis, such as literature collections, JSTOR membership, etc. Not all items whose expenditures are counted here will be included in Serial titles currently received (Question 4) or Serials Expenditures (Question 15b).

Q23. Bibliographic Utilities, Networks, and Consortia. Because it is increasingly common for ARL Libraries to enter into consortial arrangements to purchase access to electronic resources, both “Library” and “External” expenditure blanks and instructions are provided. Please use a footnote to describe expenditures that you believe are not covered by the question, or situations that do not seem to fit the instructions.

Q23a. From internal library sources. Report expenditures paid by the Library for services provided by national, regional, and local bibliographic utilities, networks, and consortia, such as OCLC and RLG, unless for user database access and subscriptions, which should be reported in Questions 21 or 22. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q23b. From external sources. If your library receives access to computer files, electronic serials or search services through one or more centrally-funded system or consortial arrangements for which it does not pay fully and/or directly (for example, funding is provided by the state on behalf of all members), enter the amount paid by external bodies on its behalf. If the specific dollar amount is not known, but the total student FTE for the consortium and amount spent for the academic members are known, divide the overall amount spent by your institution’s share of the total student FTE.

Q24. Computer hardware and software. Report expenditures from the library budget for computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer, and whether for staff or public use. Include expenditures for: maintenance; equipment used to run information service products when those expenditures can be separated from the price of the product; telecommunications infrastructure costs, such as wiring, hubs, routers, etc. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q25. Document Delivery/Interlibrary Loan. Report expenditures for document delivery and interlibrary loan services (both borrowing and lending). Include fees paid for photocopies, costs of telefacsimile transmission, royalties and access fees paid to provide document delivery or interlibrary loan. Include fees paid to bibliographic utilities if the portion paid for interlibrary loan can be separately counted. Include only expenditures that are part of Miscellaneous Materials Expenditures (Q15d) or Other Operating Expenditures (Q19), and only for those ILL/DD programs with data recorded in Questions 34-35.

Questions 26. Personnel. Report the number of FTE (full-time equivalent) staff in filled positions, or positions that are only temporarily vacant. ARL defines temporarily vacant positions as positions that were vacated during the fiscal year for which ARL data were submitted, for which there is a firm intent to refill, and for which there are expenditures for

salaries reported on line 17.

Include cost recovery positions and staff hired for special projects and grants, but provide an explanatory footnote indicating the number of such staff. If such staff cannot be included, provide a footnote. To compute full-time equivalents of part-time employees and student assistants, take the total number of hours per week (or year) worked by part-time employees in each category and divide it by the number of hours considered by the reporting library to be a full-time work week (or year). **Round figures to the nearest whole numbers.**

Question 26a. Professional Staff. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term “professional.” Each library should report those staff members it considers professional, including, when appropriate, staff who are not librarians in the strict sense of the term, for example computer experts, systems analysts, or budget officers.

Question 26b. Support Staff. Report the total FTE (see instruction 26) of staff not included in 26a.

Question 26c. Student Assistants. Report the total FTE (see instruction Q26) of student assistants employed on an hourly basis whose wages are paid from funds under library control or from a budget other than the library’s, including federal work-study programs. Exclude maintenance and custodial staff.

Question 27. Number of staffed library service points. Count the number of staffed public service points in the main library and in all branch libraries reported in this inventory, including reference desks, information desks, circulation, current periodicals, reserve rooms, reprographic services (if staffed as a public facility), etc. Report the number of designated locations, not the number of staff.

Question 28. Number of weekly public service hours. Report an unduplicated count of the total public service hours per typical full-service week (i.e., no holidays or other special accommodations) across both main library and branches using the following method (corresponds to IPEDS): If a library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 40 hours per week. If several of its branches are also open during these hours, the figure remains 40 hours per week. Should Branch A also be open one evening from 7:00 p.m. to 9:00 p.m., the total hours during which users can find service somewhere within the system becomes 42 hours per week. If Branch B is open the same hours on the same evening, the count is still 42, but if Branch B is open two hours on another evening, or remains open two hours later, the total is then 44 hours per week. **Exclude 24-hour unstaffed reserve or similar reading rooms.** The maximum total is 168 (i.e., a staffed reading room open 7 days per week, 24 hours per day).

Questions 29–30. Instruction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Questions 29 and 30. Please indicate if responses are based on sampling.

Question 29. Presentations to Groups. Report the total number of sessions during the year of presentations made as part of formal bibliographic instruction programs and through other planned class presentations, orientation sessions, and tours. If the library sponsors multi-session or credit courses that meet several times over the course of a semester, each session should be counted. Presentations to groups may be for either bibliographic instruction, cultural, recreational, or educational purposes. Presentations both on and off the premises should be included as long as they are sponsored by the library. Do not include meetings sponsored by other groups using library meeting rooms. Do not include training for library staff; the purpose of this question is to capture information about the services the library provides for its clientele. Please indicate if the figure is based on sampling.

Question 30. Participants in Group Presentations. Report the total number of participants in the presentations reported on line 29. For multi-session classes with a constant enrollment, count each person only once. Personal, one-to-one

instruction in the use of sources should be counted as reference transactions on line 31. Please indicate if the figure is based on sampling. Use a footnote to describe any special situations.

Question 31. Reference Transactions. Report the total number of reference transactions. A **reference transaction** is

an information contact that involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include (a) printed and nonprinted material; (b) machine-readable databases (including computer-assisted instruction); (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library. When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.

If a contact includes both reference and directional services, it should be reported as one reference transaction. Include virtual reference transactions (e.g., e-mail, WWW form, chat). Duration should not be an element in determining whether a transaction is a reference transaction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Question 31. Please indicate if the figure is based on sampling.

EXCLUDE SIMPLE DIRECTIONAL QUESTIONS. A directional transaction is an information contact that facilitates the logistical use of the library and that does not involve the knowledge, use, recommendations, interpretation, or instruction in the use of any information sources other than those that describe the library, such as schedules, floor plans, and handbooks.

Questions 32-33. Circulation. For Question 32, count the number of initial circulations during the fiscal year from the general collection for use usually (although not always) outside the library. Do not count renewals. Include circulations to and from remote storage facilities for library users (i.e., do not include transactions reflecting transfers or stages of technical processing). Count the total number of items lent, not the number of borrowers.

For Question 33, report total circulation for the fiscal year including initial transactions reported on line 32 and renewal transactions. Exclude reserve circulations; these are no longer reported.

Questions 34-35. Interlibrary Loans. Report the number of requests for material (both returnables and non-returnables) provided to other libraries on line 34 and the number of filled requests received from other libraries or providers on line 35. On both lines, include originals, photocopies, and materials sent by telefacsimile or other forms of electronic transmission. Include patron-initiated transactions. Exclude requests for materials locally owned and available on the shelves or electronically. Do not include transactions between libraries covered by this questionnaire.

Questions 36. Ph.D. Degrees. Report the number awarded during the 2006-07 fiscal year. Please note that only the number of Ph.D. degrees are to be counted. Statistics on all other advanced degrees (e.g., D.Ed., D.P.A., M.D., J.D.) should not be reported in this survey. If you are unable to provide a figure for Ph.D.s only, please add a footnote.

Question 37. Ph.D. Fields. For the purposes of this report, Ph.D. fields are defined as the specific discipline specialties enumerated in the U.S. Department of Education's Integrated Postsecondary Education Data System (IPEDS) "Completions" Survey. Although the IPEDS form requests figures for all doctoral degrees, only fields in which Ph.D.s are awarded should be reported on the ARL questionnaire. Any exceptions should be footnoted.

Question 38. Instructional Faculty. Instructional faculty are defined by the U.S. Dept. of Education as

members of the instruction/research staff who are employed full-time as defined by the institution, including faculty with released time for research and faculty on sabbatical leave.

Full-time counts generally exclude faculty who are employed to teach fewer than two semesters, three quarters, two trimesters, or two four-month sessions; replacements for faculty on sabbatical leave or leave without pay; faculty for preclinical and clinical medicine; faculty who are donating their services; faculty who are members of military organizations and paid on a different pay scale from civilian employees; academic officers, whose primary duties are administrative; and graduate students who assist in the instruction of courses. Please be sure the number reported, and the basis for counting, are consistent with those for 2005-06 (unless in previous years faculty were counted who should have been excluded according to the above definition). Please footnote any discrepancies.

Questions 39–42. Enrollment. U.S. libraries should use the Fall 2006 enrollment figures reported to the Department of Education on the Integrated Postsecondary Education Data System survey. Please check these figures against the enrollment figures reported to ARL last year to ensure consistency and accuracy. **Note:** In the past, the number of part-time students reported was FTE; the number now reported to IPEDS is a head count of part-time students. Canadian libraries should note that the category “graduate students” as reported here includes all post-baccalaureate students.

FOOTNOTES

Please consult the data entry Web interface (www.arlstatistics.org) for a copy of last year’s footnotes. These can be found under “Historical Data” by clicking a survey’s arrow icon under the “View Summary” column and then selecting the “Footnotes” tab. Explanatory footnotes will be included with the published statistics. Reporting libraries are urged to record in the footnote section any information that would clarify the figures submitted, e.g., the inclusion and exclusion of branch campus libraries (see the “General Instructions” for definition of branch campus libraries). Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire
by **January 30, 2008.**

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Mark Young (stats-ra@arl.org)
Tel. (202) 296-2296.

ARL STATISTICS 2006–2007
WORKSHEET

This worksheet is designed to help you plan your submission for the 2006-07 *ARL Statistics*. The figures on this worksheet should be similar to those in the "Summary" page of your web form, except in cases where data are unavailable. If an exact figure is unavailable, use "NA/UA". If the appropriate answer is zero or none, use "0."

Reporting Institution _____ Date Returned to ARL _____

Report Prepared by (name) _____

40. Part-time students, undergraduate and graduate (40) _____
(Add line 22, columns 15 & 16, and line 28, columns 15 & 16.)

41. Full-time graduate students *(Line 14, columns 15 & 16.)* (41) _____

42. Part-time graduate students *(Line 28, columns 15 & 16.)* (42) _____

FOOTNOTES

On the web form, you will be able to add footnotes to individual questions, as well as footnotes that apply to your entire institution. Please provide any information which would clarify the figures submitted, e.g., the inclusion of branch campus libraries or any special projects which might cause radical increases or decreases. Please use the footnotes in the *ARL Statistics 2005–2006* for comparison if necessary. Please consult the data entry Web interface (www.arlstatistics.org) for a copy of last year’s footnotes. These can be found under “Historical Data” by clicking a

survey's arrow icon under the "View Summary" column and then selecting the "Footnotes" tab. Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire by **January 30, 2008**.

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Mark Young (stats-ra@arl.org)
Tel. (202) 296-2296.

Footnotes to the ARL Academic Health Sciences Library Statistics 2006–2007

Footnotes may also include errata and corrections to data not previously reported from prior years. Numbers in parentheses refer to columns in Library Data Tables and to Questionnaire numbers. Unless otherwise noted, all figures are as of 06/30/2007.

QUESTION NUMBER	FOOTNOTE
ALABAMA	
	All figures are as of 09/30/2007.
15d	Includes memberships.
19	Includes bibliographic utilities and literature searching.
ARIZONA	
	Includes the Arizona Health Sciences Library - Phoenix.
4-4a.i	Includes titles AHSL purchases directly, titles purchased along with the main library through packages, and other titles identified as relevant to our users from a number of resources. An unknown percentage of these titles will duplicate what the main library reports.
4b-4b.ii	AAHSL does not track free vs. purchased titles.
8	Free databases were eliminated from catalog, resulting in a smaller number for 2006-2007.
21	Includes Elsevier and LWW backfiles.
23a	Amigos (OCLC) membership, Lockss participation.
23b	We do not have access to the full cost of products we share with the University of Arizona main campus library. AHSL contributed costs are reflected in (22).
27	Includes ref/info desk, loan desk, copy technology services counter, Phoenix ref/info desk.
36-42	Institutional-level data reported in ARL Statistics.
BOSTON	
	Includes the Alumni Medical Library.
CALIFORNIA, DAVIS	
	Includes the Carlson Health Sciences Library and the Blaisdell Medical Library.
2	Increase in volumes purchased is not statistically significant, given low total number.
6, 12	No-longer-useful units withdrawn.
13	Decrease in units is not statistically significant given low total number.
15a	Increase in expenditures attributable to inflation and increased curricular and research needs.
17b	Decrease in expenditures due to greater than expected staff turnover and reorganization.
17c	Increase in expenditures due to project work, minimum wage increase and to cover routine duties as a consequence of (17.b).
26	Larger than expected support staff turnover and reorganization.
26a	Normal turnover.
26b	Larger than expected staff turnover and reorganization.
26c	Increased project work and to cover routine duties as a consequence of (26.b).
33	Increase attributable to higher than expected use of print collections.
34	Reduced number attributable to greater availability of material in electronic form and lending load leveling among UC campuses.
35	Reduced number attributable to greater availability of material in electronic form.
36-42	Institutional-level data reported in ARL Statistics.
CALIFORNIA, IRVINE	
1a	Volumes held June 30, 2006 revised to 325,775.
36	Data unavailable as of January 30.
CALIFORNIA, LOS ANGELES	
4a.i	Unable to breakout just Health Sciences electronic resources.
CALIFORNIA, SAN DIEGO	
	Includes the Biomedical Library, and the Medical Center Library.
	Excluded: the Arts Libraries, the Center for Library & Computing Services, the International Relations & Pacific Studies Library, the Mandeville Special Collections Library, the Science & Engineering Library, the Scripps Institution of Oceanography Library and the Social Sciences and Humanities Library.
	E-books are all reported on the General Survey, including those that would be considered for the Health Sciences.

QUESTION NUMBER	FOOTNOTE
4	Totals here represent only “unique” serial titles completely de-duped across both format and purchase type and also de-duped between the General and the Health Sciences Libraries (reported on separate ARL surveys, but only de-duped amounts are being reported for each).
4a.ii	Includes monographic series if series title is received on standing order.
15b	Includes monographic series received on standing order.
15c	Includes backfiles and non-continuing serials. Expenditures: amounts for maps and audiovisual materials included in (15a) and (15b).
23b	This figure is a prorated estimate: percentage of the total library expenditures ((15b) for both main and Health Sciences) multiplied by CDL support figure.
24	Opened an Infocommons in the Biomedical Library.
29-30	Both the Biomedical Library and the Medical Center Library hired an Instruction and Outreach Librarian which is reflected in the instruction figures.
31	This includes 730 virtual reference questions.
32	The Biomedical Library has returned to its own building (renovation) in the Health Sciences section of campus after a 3 year absence and students seem to find it much easier to go into and use the library without needing to renew and hold books for a much longer period of time.
CASE WESTERN RESERVE	
4a.i	The medical library also has access to 37,913 e-journals that are reported in the main library’s statistics.
19	Operating Expenditures reported in 2005-06 were incorrect.
CHICAGO	
	John Crerar Library is a central science library with a biomedical collection for health sciences. Many numbers are percentages as a result. Data for the ARL survey are matched as closely as possible to data compiled and reported for the Association of Academic Health Sciences Libraries’ (AAHSL) Annual Statistics of Medical School Libraries in the United States and Canada
4-4a, 4b	The count of open access serials available from the DOAJ (Directory of Open Access Journals) in all categories of biology and medicine was added to our totals this year.
8	All multimedia are counted as a single category, with computer files, audio and video CD and DVD formats included here.
17c	Additional student hours were added for a major shifting project.
18	Fringe benefits are included.
19	Due to an error in calculation, 2005-06 figure was too high - should have been about \$33,000.
22	Library continues to build electronic serials collection aggressively and to reduce print subscriptions.
25	New ILL reporting and accounting processes provide more accurate estimates for biomedical based transactions than in previous years.
26a	Professional staffing temporarily reduced due to a retirement; position was not filled during the year.
26c	The ratio of work study to non-work study students fluctuated resulting in lower FTEs but higher costs during 2006-07.
32	No explanation for higher circulation figures.
34-35	ILL statistics were estimated in previous years; new reporting systems provided more accurate figures for biomedical transactions.
CINNINATI	
	Excludes the Raymond Walters College, Clermont College libraries.
4	It was too difficult to separate especially our e-journals from the other jurisdictions within the university. We are allowing our titles to be counted in the “main” count.
15	This lower number reflects a 6% cut to the collections budget and the fact that we pre-paid some items in 2005-06.
19	This includes significant expenses for history of medicine construction project.
29-30	Lower figure reflects fewer formal classes.
COLUMBIA	
4	Serials data included in Butler library data.
11	Wilcox Collection.
28	Number included in Butler count (95 for Health Sciences only, 107 total for Columbia).
CONNECTICUT	
1a	Volumes held June 30, 2006 revised to 205,078.
CORNELL	
1b.i	Includes e-books.
2	We are reporting 770 e-books.
4b	2005-06 we only reported “print” serials received but not purchased.

QUESTION NUMBER	FOOTNOTE
17a	A number of staff were on medical leave.
31	2006-07 data reported incorrect numbers as Circulation desk staff had captured all directional questions in the new online reporting system. 2006-07 data reflect actual decrease as well as incomplete data collection as reported by desk staff. Some staff only captured encounters rather than individual questions, so approximately 11% of in-person questions were multiplied by the encounter rate.
DARTMOUTH	
	Includes Dana and Matthews-Fuller (both bio-Medical libraries).
1	Does not include e-books, have no way to attribute these to individual collections.
2	This is an approximation; payment lines are used as proxy for volumes for mono series/MPIs.
4a.i	Includes all digital titles selected by BioMedical libraries for online catalog resources listing; counted all as paid (other than a small number with order records), but no doubt more are really free. (Also subtracted from System less BioMedical, (4ai)).
23a	We continue to opt out of this question, feeling it is too poorly defined to provide a meaningful basis of comparison between libraries.
FLORIDA	
4a.i	This number is reported by the Main library.
18	Fringe benefits are included.
36-42	Reported by Main library.
FLORIDA STATE	
	Includes the College of Medicine Maguire Library.
GEORGE WASHINGTON	
1a	Calculation correction. Volumes held June 30, 2006 revised to 129,750.
1b	Medical Library weeding project.
2	979 Print volumes and 144 electronic (totaling 1,123).
4	Calculation correction.
11	Includes individual slides.
15a	Decrease in expenditures from endowment funds.
15b	Calculation method changed.
15d	PLoS and Biomed Central: \$3,994; Electronic database costs increased to: \$260,434.
35	Number of requests decreased.
39	The enrollment figures listed under the Himmelfarb Health Sciences Library are for the Medical School only. See enrollment data entered for Main Library for GW figures.
GEORGETOWN	
1	Decrease from number reported 2005-06 is due to an error in reporting volumes held in 2006-07.
1a	Volumes held June 30, 2006 revised to 98,961.
1b, 1b.i, 2	Decline in number is result of transition to all electronic library.
4b, 4b.i	Increase due to change in counting mechanism as well as adding several open access titles.
12-13	Result of culling of outdated materials.
15-15a	Increase reflects actual expenditures including DEPOSIT ACCOUNTS with various vendors, which were not reported previously. This is a more accurate figure so deposit account monies will be included from now on.
17c	Decline is result of decline in staffed hours after transition to 24/7 library open access.
21	Increase due to purchase of archival electronic backfiles.
22	Increase due to transition to all electronic library and calculation adjustment to refine category contents.
27	Number of service points was inaccurately reported in 2006-07, there have been 3 service points for some time.
29	Increase is due to more staff doing more presentations to smaller groups.
31	Increase due to more staff participating in reference transactions.
35	Decrease reflects increased access to electronic back file runs as well as a trend across the health sciences library world.
HARVARD	
1b.ii	Large de-accession project started in 2005-06 and continues, to a lesser degree in 2006-07.
7	Government documents now counted as part of the collection.
15b	Numbers are a result of serial backfiles acquisition in 2005-06 and accounting practices related to serials purchases in 2006-07 and 2007-08.
17a	Increases reflect additions to Center for Biomedical Informatics.

QUESTION NUMBER	FOOTNOTE
HAWAII	
	Excludes the Hamilton Library, School of Law Library, and the Sinclair Library.
1	Includes 4,189 e-books purchased via STAT!Ref, OvidBooks, MDConsult, ebrary, and PsycBOOKS.
25	Nearly all of the interlibrary loans for Health Sciences Library users are processed by the main campus library, Hamilton Library.
HOWARD	
4b	New inventory of electronic serials not purchased.
ILLINOIS, CHICAGO	
	Includes: Library of the Health Sciences (LHS) - Chicago, LHS - Peoria, LHS - Rockford, LHS- Urbana.
	Excludes: Richard J. Daley Library, Science Library.
34-35	Figures unavailable for all institutions with which UIC has reciprocal borrowing privileges. I-Share statistics for health sciences branches not included.
INDIANA	
1a	Volumes held June 30, 2006 revised to 275,841.
IOWA	
1, 2	Moved from physical to bibliographic counting.
1a	Volumes held June 30, 2006 revised to 296,600.
4	Any shared titles between Law and Main or Health Sciences are being counted with Law.
12-13	Moved from physical to bibliographic counting.
17a	Including programming staff that support the Libraries but not directly from Libraries' budget.
19	Including equipment costs that support the Libraries but not directly from Libraries' budget.
24	Including hard/software costs that support the Libraries but not directly from Libraries' budget.
26b	Fewer graduate assistants due to grants ending; number of merit positions eliminated; includes 3 FTE programmers who support the Libraries but not directly from Libraries' budget.
26c	Using fewer student employees.
33	Removed Main/Branch/Health Sciences intra-library circulation numbers.
35	Decrease due to new software, ILLiad, which counts transactions differently than Clio software.
KANSAS	
1b.i	Some systematic weeding of collections was performed in 2006-07, so withdrawal figure went up.
2	More resources were committed to monographic acquisitions in 2006-07.
4a, 4b	Change between 2005-06 and 2006-07 reflects new methodology for reporting this information.
15b	Supplementary funding from administration was received in 2006-07 which allowed greater expenditures on current serials.
17a	Removed two positions in 2006-07 which, while considered professional staff, were not actually librarians.
17c	Cut student hours to reflect a decrease in the need for their services in 2006-07.
26a	Added one grant funded position in 2006-07.
32-33	Used a different data source in 2006-07 to obtain this information.
LOUISIANA STATE	
17c, 26c	Could not find any to hire this year.
26a	One retirement this year.
MCMASTER	
	All figures are as of 04/30/2007.
15-25	Expenditures as reported in Canadian dollars: (15) \$1,511,670; (15a) \$178,909; (15b) \$1,279,348; (15c) \$0; (15d) \$53,413; (16) \$13,957; (17) \$1,361,511; (17a) \$566,021; (17b) \$749,797; (17c) \$45,693; (19) \$158,766; (20) \$3,045,904; (21) \$352,732; (22) \$1,105,525; (23a) \$25,000; (23b) \$0; (24) \$40,000; (25) \$56,000.
MIAMI	
8	Medical library computer files are included in (13), audiovisual materials.
13	All audiovisual materials (10 - 13) and computer files (8) are reported in (13) for medical library.
17a	Excludes medical library director's salary.
31a	Medical library educational transactions are sampled and non-educational non-directional transactions are counted.
36-42	Institutional-level data reported in ARL Statistics.
MICHIGAN	
	Included are the Taubman Medical Library, the Dentistry Library and the Public Health Library and Informatics, all of the Ann Arbor campus.

QUESTION NUMBER	FOOTNOTE
MINNESOTA	
1a	Volumes held June 30, 2006 revised to 550,910. Adjusted for transfer of volumes to MLAC shared storage facility.
4a.i- 4b.ii	Not possible to separate unique serial titles by branch library.
11	Breakdown by media not available for all libraries. Total A/V media holdings for Health Sciences Libraries is 2,832 consisting of approximately 53 graphic, 66 audio, 2,377 video.
25	Decrease in expenditure is due to participation in reciprocal ILL through EFTS consortium.
28-42	Not reported for branch libraries to avoid misleading sum in main ARL statistics.
MONTREAL	
15-25	Expenditures as reported in Canadian dollars: (15) \$2,164,905; (15a) \$219,652; (15b) \$1,945,253; (15c) \$0; (15d) \$0; (16) \$14,789; (17) \$1,919,556; (17a) \$780,604; (17b) \$1,138,952; (17c) \$0; (19) \$22,444; (20) \$4,121,694; (21) UA/NA; (22) \$1,209,869; (23a) UA/NA; (23b) UA/NA; (24) UA/NA; (25) UA/NA.
NEW YORK	
	All figures are as of 08/31/2007.
	The Medical and Dental Libraries are submitting a consolidated report of their statistics this year instead of separately as in past years.
1a	Includes 8,729 e-books.
4	The total number of serials decreased dramatically as part of the de-duping process for the new counting methodology. All electronic serials will only be reported through the Division of Libraries. The actual number of serial titles available from the Medical and Dental Libraries is 20,831.
4a.i	Electronic serials totals for NYU are only being counted in the main Division of Libraries total. The actual number of electronic serials purchased available at the Medical and Dental Libraries is 9,519.
4b.i	Electronic serials totals for NYU are only being counted in the main Division of Libraries total. The actual number of free electronic serials at the Medical and Dental Libraries is 11,062.
NORTH CAROLINA	
1a	Volumes held June 30, 2006 revised to 339,154. Added 86 e-books not previously counted, plus 5,661 volumes to reflect more accurate counts obtained through new ILS.
26	Professional staff = 31.03; Support staff = 30.48; Student assistants = 8.49; Total = 70 FTE. Personnel includes 1.93 FTE for special projects and grants.
28	Service hours = 109.
NORTHWESTERN	
	All figures are as of 08/31/2007.
OHIO STATE	
4a.i	Library purchases or shares in the purchase of 3,543 electronic serials.
4b.i	All Ohio State libraries have access to 3,285 cataloged free electronic serials.
23b	Inseparable from total university libraries figure of \$1,142,832.
OKLAHOMA STATE	
18	Fringe benefits are included.
39	There are 351 medical students using the professional classification in IPEDS. This number reported in lieu of the breakout asked for in (39-42).
PENNSYLVANIA STATE	
	Includes the Milton S. Hershey Medical Center library, and the College of Medicine Harrell Library (Hershey, PA).
PITTSBURGH	
1a	Volumes held June 30, 2006 revised to 337,597.
QUEEN'S	
	All figures are as of 04/30/2007.
	Includes the Bracken Health Sciences Library.
	(36-37) and (39-42) are as of November 2006, (38) as at October 2006. (4), (23) and (24) are statistics included in Main Library questionnaire (see ARL Statistics). The numbers cannot be broken out.
15-25	Expenditures as reported in Canadian dollars: (15) \$1,759,554; (15a) \$174,790; (15b) \$1,581,828; (15c) \$2,936; (15d) UA/NA; (16) \$7,567; (17) \$809,261; (17a) \$328,107; (17b) \$441,302; (17c) \$39,852; (19) \$198,409; (20) \$2,774,791; (21) UA/NA; (22) \$1,393,376; (23a) UA/NA; (23b) UA/NA; (24) UA/NA; (25) UA/NA.
ROCHESTER	
4	This figure is the total of print-only journals (156) PLUS the e-journals included in the Health Sciences and Life Sciences categories in SFX.
8	Includes non-local computer files purchased by Miner.
17, 20	Due to a re-organizational initiative, medical-center-wide Web support no longer falls under the health sciences library's organizational structure; 4.5 FTE were transferred.
21	AMA Journal backfiles.

QUESTION NUMBER	FOOTNOTE
36-42	Included in Rush Rhees Library statistics.
SASKATCHEWAN	
	All figures are as of 04/30/2007.
15-25	Expenditures as reported in Canadian dollars: (15) \$2,827,588; (15a) \$209,649; (15b) \$2,617,939; (15c) UA / NA; (15d) UA / NA; (16) \$10,813; (17) \$629,932; (17a) \$330,188; (17b) \$241,570; (17c) \$58,174; (19) UA / NA; (20) \$3,468,333; (21) UA / NA; (22) UA / NA; (23a) UA / NA; (23b) UA / NA; (24) UA / NA; (25) UA / NA.
15b	Increase in Provincial grants received.
15c	Included in (16).
20	Increase in Provincial grants received.
31	Decrease due to change in method of statistics collection in December 2006.
SOUTHERN CALIFORNIA	
1a	Volumes held June 30, 2006 revised to 213,968. Owned /leased e-Books held, including from the following packages: AccessMedicine, Books@Ovid, Marcel Dekker, PsychiatryOnline, R2 Library, Stat!Ref, Thieme Electronic Book Library (TEBL), Wiley Current Protocols, Wiley Reference Works; plus 3 individual paid books.
2	Owned /leased e-Books added from the following packages: AccessMedicine, Books@Ovid, PsychiatryOnline, R2 Library, Stat!Ref, Thieme Electronic Book Library (TEBL), Wiley Current Protocols; plus 1 individual paid book. Count is from acquisitions, and is a bibliographic (title) count.
3	Our print volume count is physical, our electronic count is bibliographic.
15a	This includes some expenditures on electronic monographs that are purchased under subscription.
21	One-time electronic resource purchases. We do not distinguish between one-time and ongoing purchases. We distinguish between purchases of electronic serials, electronic books, educational software, and databases. We can provide an overall amount covering all electronic resource purchases.
SUNY-BUFFALO	
1a	Volumes held June 30, 2006 revised to 355,683.
4a.i, 4b.i	Electronic serials are reported on the Main Library summary for the entire Library System.
24	Library totals are reported on the Main Library summary. See institutional-level data reported in ARL Statistics.
32-33	Numbers reported for circulation are more accurate than in past years due to implementation to a new online system.
36-42	This question is answered with institutional data on the main library page. See institutional-level data reported in ARL Statistics.
SUNY-STONY BROOK	
1a	Volumes held June 30, 2006 revised to 272,590.
TENNESSEE	
	Includes the Health Sciences libraries, which consists of the University of Tennessee Health Sciences, Memphis; the Preston Medical Library and the Knoxville part of College of Medicine in Memphis.
1a	Volumes held June 30, 2006 revised to 218,244.
4a	Medical Titles Purchased: Electronic 651 [of 3,987] (4a.i), Print 235 [of 359] (4a.ii), Total 886 [of 4,346] (4a).
22	Allocation of dollars from print to online occurred when Health Sciences converted to print and print and online titles to online only. Also improved reporting the online purchases through our serials vendor. In 2006-07 these were all reported as print expenditures regardless of format.
28	UT Health Sciences Library is open 136 hours per week but occurrence of hours is within that of Main.
36-41	Institutional-level data reported in ARL Statistics.
TEXAS TECH	
	All figures are as of 08/31/2007.
	Includes Harrington Library TTUHSC / Amarillo Montes-Gallo Library of the Health Sciences TTUHSC / El Paso Library of the Health Sciences TTUHSC / Odessa Preston Smith HSC Library.
TULANE	
1a	Volumes held June 30, 2006 revised to 157,409.
VANDERBILT	
17c	This library has substantially reduced student hours because electronic journal use has cut down on the need for shelving. In addition, this is the first year this library is reporting federal funds for work study students.
VIRGINIA	
	Includes the Health Sciences library.
	Excludes: Law, Darden Graduate Business, Alderman, Astronomy, Biology /Psychology, Chemistry, Clemons Undergraduate, Education, Fiske Kimball Fine Arts, Math, Music, Physics, Brown Science & Engineering and Small Special Collections libraries.
	(4), (28), and (36-42) are reported for the University Library only but apply to all of the UVa libraries.

QUESTION NUMBER	FOOTNOTE
1a	Volumes held June 30, 2006 revised to 177,162. Includes 860 e-books not included in previous surveys. This is the number of e-books held as of 6/30/07.
1b.i	This number represents print volumes only.
1b.ii	Health Sciences conducted a massive weeding project during 2006-07.
2	Includes 111 e-book purchases.
4	Serials for all libraries are reported on the University Library (main) survey only.
15a	Print monographic purchases only.
18	Fringe benefits are included.

WASHINGTON U.-ST. LOUIS

1	Includes electronic books that were added to total volumes held for 2006 but not included in volumes added.
1a	Volumes held June 30, 2006 revised to 300,573. Includes 1,319 electronic books.
17	Information Technology Staff with salaries of almost \$4M were transferred from the library to a separate department. Since these are no longer in the library budget, there is a significant decrease in expenditures.
18	Fringe benefits are included.
26a	Significant staff reduction because of transfer of Information Technology Department out of Medical Library. In previous years, this staff was under the Director of the Library but that is no longer the case.

Appendix: ARL Member Libraries as of June 1, 2008
