Promotional Materials
The DHC brings together PEOPLE, TECHNOLOGY, and INFORMATION RESOURCES in an environment where researchers can work with multimedia resources in consultation with humanities librarians and technology specialists.

THE DHC FEATURES

- Windows and Mac workstations
- Flatbed, film, and large-format book scanners
- Digital video editing workstations
- Library research and technology workshops
- A help desk for research and technology questions
- One-on-one consultations with research librarians and technology experts
- A wide range of specialized software

www.columbia.edu/library/dhc
SERVICES

- Help using the Libraries' digital primary- and secondary-source collections
- In-depth consultations on research and technology projects
- Support for digitizing texts and images by scanning or reprocessing
- Editing and publishing texts and images using DreamWeaver, oXygen, Adobe Creative Suite, and word-processing software
- Digital video editing using FinalCut Pro, iMovie
- Citation management using EndNote, RefWorks, Zotero
- Research notes management using FileMaker Pro, Adobe Acrobat
- Textual and qualitative analysis using NVIVO and other tools
- Access to a collection of essential electronic text resources that are accessible on-site only

The Digital Music Lab @ The Music & Arts Library (Dodge 701)

www.columbia.edu/library/musiclab

The Digital Music Lab offers Mac workstations for creating and editing digital audio and music notation, digital pianos, and expert assistance from library staff.
STAFF

Subject specialist librarians from the Libraries’ History & Humanities Division are available at the DHC to work with you on your research projects or dissertation.

Technology consultants will help you identify and use the tools available at the DHC. Consultations with librarians from other humanities libraries on campus are also available.
HOURS
