Program Descriptions
ACADEMIC LIBRARIES OF INDIANA
Welcome
http://ali.bsu.edu/about.ali.html

ACADEMIC LIBRARIES OF INDIANA
Welcome

Academic Libraries of Indiana (ALI) is an organization representing all academic libraries in accredited non-profit institutions of higher education in Indiana. Included among the 72 ALI members are major research libraries, law and medical libraries, theological school libraries, and many undergraduates libraries.

ALI was established in 2003 to:

- Support economic development in Indiana
- Promote collaboration, innovation, preservation, and resource sharing
- Maintain resources for improving teaching, learning, research and service
- Improve Indiana's information infrastructure

Annual Meeting 2014

The ALI E-Resource Rendezvous will be rescheduled from October 2014 to a TBD spring semester date.
Overview & Introduction

Inspired by the potential enhancements to scholarship, teaching, research, preservation, access, academic achievement, and as well as operational and economic efficiency, six planning task forces representing diverse academic settings convened to analyze academic needs, review trends and formulate potential solutions.

- Licensing
- Resource Sharing
- Tools for Accessing Web-based Resources
- Shared Digitization Infrastructure, including Digital Archiving
- Storage
- Distance Education/Off Campus Library Services

A new vision emerged from this process — one that set forth an integrated and dynamic approach for higher education by supporting teaching, learning, research, and service in Indiana’s seventy-three colleges and universities. The Academic Libraries of Indiana’s, a not-for-profit corporation, took the lead in 2003 to manage this tactical and strategic cooperation.

ALI cooperative projects address the rapidly shifting trends in teaching, learning, and scholarship that have an increasing impact on student success, faculty excellence, and economic development. New and emerging curricular and research trends, pedagogical styles, changing classroom and academic technologies, burgeoning network bandwidth support needs, shifting scholarly communication models, and increased faculty and student expectations for access. A stronger information infrastructure that also provides enhanced information content is critical for economic development in the state.

Organizational Structure

The Academic Libraries of Indiana has a 501(c)(3) non-profit corporation status that enables it to best address our collective needs and implementation strategies. This non-profit status allows ALI to seek private and federal grant funding as well as state funding through Indiana partner organizations, such as INCOLSA, the State Library, and the Indiana Commission on Higher Education.

To qualify for membership, academic libraries must be part of a not-for-profit institution of higher education within Indiana accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools or the Association of Theological Schools. Participating libraries pay an annual fee to fund ALI’s administrative costs and core services that are available to all members. Currently all seventy-three academic libraries in Indiana are members of the Academic Libraries of Indiana. All additional projects are voluntary, with costs shared among specific participants or funded by grants. The governing group is the membership composed of the library directors of the member libraries or their designated representative. The membership adopted Articles of Incorporation and Bylaws. The membership has the sole authority to adopt the annual budget, the strategic plan and to deliberate and consider other matters referred to it by the board of directors.

The sixteen-member board of directors is composed of board representatives selected by each of the following constituent groups: Privates - PALNI members (3); Notre

Program Goals

In response to increasing demands for immediate access, ALI members offer full text content online. Through member cooperative programs, the interlibrary lending and delivery system supporting access to all Indiana academic library collections will be improved. ALI members also initiate a collaborative approach to the preservation, storage, and on-demand access to lower-use, but still vital, print collections.

Consortial Resources for Improving Learning, Teaching, Research, and Service

Expanded online academic content: Building on INSPIRE, a state-wide package of databases and full text resources available to all Indiana citizens, members of ALI will identify a core set of significant full-text academic resources to further enrich information content accessible by all our students and faculty. In addition to academic content, ALI provides an organizational environment for members to partner in the purchase of electronic information resources of consortial interest.

Improved access to collections: A cooperative program of interlibrary lending has been in place for decades, evolving with technology, and continuing to improve as individual libraries have upgraded their internal operations. With collaborative actions, significant improvements in service, access, timeliness, and flexibility have been realized.

Digital repository: Drawing on the advanced digitization skills held by Indiana librarians as well as models for collaborative digitization projects in other states, ALI creates a shared platform of digitization standards, IT equipment, training and search systems. Cooperation using shared standards enables cultural and scientific heritage repositories to create digital versions of their rare and unique collections. To the extent permitted by copyright and license agreements, ALI members will make digital images available to all citizens of Indiana and beyond. Integrating digital collections with other Internet projects provides a Web-based repository for Indiana’s unique culture and history.

Collaborative preservation and storage facilities for physical collections: ALI’s initiatives to improve access to full text content are enhanced by simultaneously supporting Indiana academic libraries’ responsibilities to preserve and maintain their print collections in order to sustain access to the scholarly record. A cooperative preservation and storage plan enables ALI to leverage Indiana University’s considerable investment in storage facilities in Bloomington. The cooperative preservation program allows academic libraries to allocate limited resources more effectively amid the growing tension between loss of purchasing power or outright budget reductions and continuing demands for new and improved services.

Access to special collections and unique resources: Indiana’s academic libraries hold thousands of unique and valuable materials in special collections and archives previously available only to scholars willing to travel to those libraries. Digital, 365/24/7 repositories connect the user to this information content without the cost, effort, and inconvenience of travel.

Improved Information Infrastructure
Dame (1); another private college or university not a member of PALNI (1); Publics - Indiana University Bloomington (1); Purdue University, West Lafayette (1); other public universities (Ball State University, Indiana State University, IUPUI) (2); Ivy Tech and Vincennes (3); Independent Professional School Libraries (1) and one at-large member (1).

The board of directors has the authority to take charge of, manage, and conduct the business of ALI, including formulating a strategic plan and proposing an annual budget plan for approval by the membership. The membership elects the officers of ALI, who must be members of the board of directors. In 2005, a committee was appointed to review the governance structure.

The day-to-day operation of ALI projects is accomplished through a combination of hired staff and advisory committees representing the member libraries. Wherever appropriate, ALI will contract with INCOLSA or member libraries to implement or manage discrete projects.

IUPUI University Library

"IUPUI Library" by Tom Hanes, licensed under CC BY-NC-SA

Academic Libraries of Indiana members seek to expand the boundaries of faculty and student scholarship by creating common search environments and an infrastructure that catalogs, aggregates, digitizes and distributes these information resources quickly and efficiently. Such an infrastructure also sets the stage for future partnerships outside of academe, e.g. the Indiana State Library and the Indiana Historical Society.

**Tools for accessing web-based resources**: Simultaneously searching of multiple digital resources available in academic and non-traditional settings connects students and faculty to high quality resources and specialized subject guides.

**Virtual Indiana academic library catalog**: A virtual or “union” catalog enables students and faculty to explore, discover and mine the substantial information resources of all academic libraries in the state in a single search, regardless of where the searcher is located or the information resides.

**Supporting Economic Development in Indiana**

Academic Libraries of Indiana supports economic, community, and educational development by making the scholarly record accessible in support of grants, contracts, projects, entrepreneurial ventures, and government initiatives. Students at schools and colleges in Indiana learn how to identify, access, evaluate, and apply information they obtain through their libraries, thus preparing them for vocational success, lifelong learning, and democratic citizenship. An educated citizenry attracts businesses that desire access to this educated workforce.

Although located on college and university campuses, academic libraries are public spaces. They attract visitors, leading to increased foot traffic in the vicinity of the library, and income associated with visitors to our campuses. Increased visitor usage makes a campus more vital and vibrant. Academic libraries provide a gathering place for groups who support our institutions, such as alumni, donors, friends, and individuals engaged in study. They knit together our campuses, and reach out to our communities, drawing in those interested in the graphic arts, literature, theater, music, and cultural arts. Academic libraries enhance an institution’s sense of pride and community. The Academic Libraries of Indiana members are engaged in the advancement of economic development and growth for the State of Indiana both individually and collaboratively.

**Collaboration, Innovation, Preservation, and Resource Sharing**

Academic Libraries of Indiana initiatives are based on the foundational principles of librarianship: quality information content, easily accessible to all members of the higher education community, preserved in digital and print repositories that assure its accessibility now by faculty, students and researchers as well as in the future. Strengthened by communication and collaboration, innovative application of new and emerging technologies, and a sharpened focus on economic impact, Academic Libraries of Indiana is positioned to identify quality information content, make it widely and readily accessible, enable successful use of information resources, and preserve the scholarly record for the State of Indiana.
ASSOCIATION OF SOUTHEASTERN RESEARCH LIBRARIES
Cooperative Journal Retention. Scholars Trust
http://www.aserl.org/programs/j-retain/

Cooperative Journal Retention

ASERL has approved a policy for cooperatively retaining print journals as a means of optimizing collection management across the consortium. The retention agreement is in effect through December 31, 2035. A group of 25 ASERL libraries are retaining titles under this agreement. The current working title list (*.xls spreadsheet) is available here (Updated: 09-18-2014).

The program is governed by a Steering Committee consisting of one representative of each participating library and a liaison from the ASERL Board of Directors.

Scholars Trust
In early 2013, ASERL and the Washington Research Library Consortium (WRLC) signed an agreement to combine the contents of their respective print journal archives under a single retention and access agreement. The combined title list exceeds 8,000 journal titles and more than 260,000 volumes, making Scholars Trust one of the largest print journal repositories in the United States. At the same time, WRLC and ASERL libraries have agreed to extend reciprocal priority Inter-Library Loan (ILL) services across the group.

To participate in the program, an ASERL library need only submit a concise letter of agreement signed by the library dean (or higher authority) affirming to comply with the program policies.

JRNLS - Journal Retention and Needs Listing

The Journal Retention and Needs Listing (JRNLS) tool was developed as a way for participating institutions to track journal retention commitments between the Association of Southeastern Research Libraries (ASERL) and Florida State University System (FSUS) partners. It allows users to upload current journal holdings and identify particular gaps in those holdings. Further, users can determine if their institution has holdings that could be donated to other institutions to fill those gaps.

A JRNLS Oversight Committee consisting of representatives from each participating consortium develops policies to guide development of and participation in JRNLS.

JRNLS login page: http://apps.uf.lib.ufl.edu/JRNLS/
System Administrator Contact: JRNLSDevelopment@uf.lib.ufl.edu

The following ASERL libraries are participating in this program:

1. Auburn University
2. Clemson University
3. College of William & Mary
4. Duke University
5. East Carolina University
6. Emory University
7. Georgia Tech
8. Louisiana State University
9. Mississippi State University
10. North Carolina State University
11. Tulane University
12. University of Alabama
13. University of Florida
14. University of Kentucky
15. University of Louisville
16. University of Memphis
17. University of Mississippi
18. University of North Carolina at Chapel Hill
19. University of North Carolina at Greensboro
20. University of South Carolina
21. University of Tennessee
22. University of Virginia
23. Virginia Commonwealth University
24. Virginia Tech
25. Wake Forest University

The project's Steering Committee is focused on the steps needed to implement this policy. For more information about this effort, please contact John Burger or Cheryl Cole-Bennett
As of April 1, 2014, CRL has archived 80,229 volumes of the JSTOR Archive Collections. This is 64% of the holdings within the JSTOR archived collections for Arts & Sciences. CRL continues to build this journal archive, working with regular donations from the University of Arizona, Harvard University, Dennison, Northwestern University, Ohio State University, University of the South and other CRL member libraries throughout the U.S.

The goal of CRL's JSTOR print archive is to assemble a collection of JSTOR print volumes that match most of those in the JSTOR Arts & Sciences Collections. The exception is for JSTOR collections that are not widely held by CRL member libraries. Currently these are titles found in the Ireland and the British Pamphlets Collections.

The CRL JSTOR print archive is for the use of CRL library members. It provides CRL member libraries with the assurance that print versions of all JSTOR archive titles are available should the JSTOR electronic archive be unable to meet the needs of our members. The volumes in the CRL JSTOR archive are received through donation from CRL member libraries. CRL commits to preserving the volumes, and providing them to members when appropriate.

A complete list of JSTOR archived titles is available on the JSTOR website at [http://www.jstor.org/action/showJournals?browseType=title&]. The CRL JSTOR Catalog provides title level information about the holdings we have available on our shelves and those we have not yet acquired. Call numbers for JSTOR materials are assigned using the same convention as for other CRL holdings. A unique alpha/numerical call number, is assigned to each donated title beginning with the letter J. The numerical part of the call number is assigned sequentially, and is based on the date of receipt. For example, the first title and volume of the JSTOR collection is J-1. Because content is shelved as it is received, volumes within a title may be assigned to different call numbers.

All current JSTOR records in CRL’s catalog ([http://catalog.crl.edu/]) have fields that list current holdings and issues wanted. Please note that the catalog holdings do not reflect donation offers we have accepted, but have not yet received.

CRL has identified the roles and responsibilities of JSTOR print archive donors and CRL in this document: [Roles and responsibilities of donor library](http://www.crl.edu/archiving-preservation/print-archives/crl-administered/jstor). Please contact us if you have any questions. CRL’s JSTOR Print Archive email is (jstorarchive at crl.edu).
NEW DONATIONS

We welcome new member donations. To begin the process, please contact CRL’s JSTOR staff (jstorarchive at crl dot edu) to discuss the workflow for your donations. New donors are encouraged to consult our JSTOR donation procedures.

ENVIRONMENTAL CONDITIONS

Journals are located in a climate and humidity-controlled environment within the Center for Research Library Facility in Chicago, IL. We have posted our temperature and humidity readings for the JSTOR Print Archive at CRL.[1] Temp Humid H L for past seven years.[2]

VALIDATION OF JSTOR

JSTOR materials are accepted into the repository based on their condition. Please consult our validation statement for an explanation.

CIRCULATION OF JSTOR JOURNALS

CRL lends journals from the JSTOR print archive to CRL libraries when the JSTOR electronic version does not meet the needs of a user. Users interested in borrowing JSTOR print journals may contact their library’s interlibrary loan office. The users local ILL department will make the arrangements with CRL’s Access Services staff to deliver the volumes to the member library. A list of CRL members is available under membership on this Web site.

[1] These numbers are an average for temperature and humidity readings over seven years.
For information on the best conditions for print preservation, please consult the NEDCC website.

About CI-CCI

The library directors of Central College, Drake University, Grand View University, Grinnell College and Simpson College announced the formation of the Central Iowa Collaborative Collections Initiative (CI-CCI) in the summer of 2013. The directors signed a Memorandum of Understanding to formalize the initiative. The group met again in early August to begin to develop print retention scenarios.

CI-CCI has four immediate goals:

First, to responsibly reduce the size of local print collections by reducing duplication among the participating libraries so that library space may be freed up for other uses.

Second, to create and maintain a distributed, shared collection of these titles to ensure that circulating copies of them are retained within the group.

Third, to coordinate acquisitions with the goal of developing a shared collection among the participants to reduce duplication and to leverage acquisition funds.

Fourth, to establish an environment where exploration and additional areas of collaboration can flourish.

By launching this shared print initiative, each library can free space for more pressing local and institutional needs such as student study space, learning commons, classrooms, etc. A key component of this initiative is a focus on developing a shared collection development approach to allow the participants to make better use of acquisitions dollars. For many items it will eliminate the need to duplicate book purchases within the group since the collections will be shared. This will allow the libraries to offer a greater depth of materials. Additionally, the collaboration lays the framework for more targeted future collaboration among the participants.
Introduction

As part of their mutual commitment to efficient, ongoing access to scholarly information resources, library directors from CIC member universities agreed in July 2011 to fund a shared collection of print journal backfile volumes. The first phase of this initiative is now underway, with plans for securing some 250,000 volumes over the next five years in a state-of-the-art storage facility located at Indiana University.

The Summer 2014 Update is available [here](http://www.cic.net/projects/library/shared-print-repository/introduction).
Shared Print Repository

Introduction | Goals | Activities | Policies/Guidelines | Holdings | Working Groups

Goals
The CIC Shared Print Repository (SPR) is intended to:

1. Aggregate, secure, and preserve the rich print resources developed by CIC libraries over the past two centuries;
2. Ensure that CIC scholars and students have timely access to these archived resources;
3. Realize the economies of scale made possible through collective action that will allow CIC libraries to apply best practices for storing, preserving, servicing, and reflecting print holdings well into the future;
4. Help CIC campuses reclaim local resources, including space, funds, and staff time by relieving them of the obligation to store lesser-used redundant materials; and
5. Integrate CIC libraries into an emerging national network of collectively managed research library resources.
**Shared Print Archive Project Oct 2012-**

*November 21st, 2013*  
*Posted in*

---

**Project Launch:** October 20, 2012

**Goal:** To further our collaboration through greater mutual reliance on our respective circulating print book collections, and in the process relieving pressure on both library shelf space and storage space. To that end we will:

1. Provide access to the maximum range of print resources while reducing the level of redundancy among low-use titles while carefully drawing down portions of our individual print collections.
2. Equitably allocate the deselection & retention of titles
3. Identify uniquely held titles and establish a last copy policy for the consortium.

**ConnectNY Libraries participating in the project**

- Adelphi University
- Bard College
- Canisius College
- Cazenovia College
- Colgate University
- Hamilton College
- Le Moyne College
- Medaille
- Pitzer
- Saint Lawrence University
- Union College
- Vassar

**Project Coordinators:** Emily Hutton-Hughes (Colgate) and Deb Bucher (Vassar)

**Project partner:** Sustainable Collection Services
Criteria for titles included in the ConnectNY Circulating Monograph Project

- Focus on low use circulating monographs. We agreed that two copies of each title would be retained for ten years with a data driven review at some mid point.
- Data set includes:
  - Titles that are currently held by 3 or more institutions in the group
  - Published or added to the collection prior to 2000
  - Last circulation before 2007
  - Titles with 3 or fewer circulations

Key documents

- CNY Print Trust
- Release Notes – CNY Shared Print Allocated Candidate Lists
- Best Practices for Handling Items on SCS Retention Lists up to Dec 2013
- Last Copy Guidelines Final April 2013

Listserv for project participants: cnyresco_printarchive@nnyin.net

Comments are closed.
Goal:
The goal of the CNY Shared Print Trust Program is to preserve legacy print collections across the CNY member libraries and to provide new options for sharing the costs and efforts of long-term collection management. The Shared Print Trust consists of sets of print materials that have been identified by specific projects proposed and developed by CNY libraries that would be held in trust for a specified period of time determined by each project. The Program acknowledges the importance of local need and local decision-making among the membership, and at the same time promotes and actively supports the efficiencies of acting as a consortium, with the ultimate goal of improving all collections and expanding access to them for all users.*

Trust Management Committee:
A Trust Management Committee will be appointed by the CNY Directors’ Council to review Program projects proposed by an individual member library or a group of member libraries. After approving a project and determining its scope, schedule and budget, the committee will appoint project coordinators.

Trust Project Process:
Each project will create a set of governing rules, metrics and other criteria for materials to be included, retention commitments, and a subsequent review period, during which modifications may be made to the original retention period.

Materials that have been selected for retention in each project must be marked in the catalog records of the holding library, identifying both the item as being held in trust and the period of time held as predetermined by the project.

Unless materials have been identified in a catalog record as Trust materials, they are not included in the Trust Collection. However, in the spirit of the Trust, when a CNY member library is withdrawing items, it should use the Last Copy Guidelines, (developed by the CNY SCS Working Group 4/13), which describe a process for dealing with the last remaining CNY copy of an item. These guidelines are now available on the CNY website: http://connectny.org/about/projects/shared-print-archive-project-oct-2012/

The Future:
In the current archival, library and publishing environment, any print collection management program such as this one is necessarily provisional. To be useful to members and our users into the future, the Shared Print Trust Program must be clear in its purposes, poised to anticipate change, and prepared to implement changes that are in the best interest of the membership.

The Trust Management Committee will ensure that the CNY membership remains informed about evolving regional and national efforts in the areas of digital publishing, open access programs, and others, with the intention of both leading and joining such initiatives.

*All CNY member institutions are eligible to participate in any CNY share print project*
Limited space and the maintenance of aging library collections are urgent concerns of many CARLI libraries. Over the years, many academic libraries have accumulated print materials that are no longer relevant to their curriculum or to the research interests of their respective communities, and yet libraries are reluctant to de-accession these materials.

The CARLI Last Copy Project seeks to preserve the last copy of monographs within the Illinois academic and research library community. This project allows any CARLI library that seeks to withdraw a “last copy” monograph to donate it to another CARLI library that will retain the title for resource sharing in Illinois.

Currently, the University of Illinois at Urbana-Champaign (UIUC) serves as the initial recipient of the monographs submitted to the Last Copy Project. Materials that the UIUC does not want or cannot house are offered to other interested Illinois research libraries. Items that are not accepted by a library participating in this project remain with the original owning library to keep or discard the items at their discretion.

Complete a simple web form to initiate the process.

Libraries interested in offering materials for preservation through the Last Copy Project will complete a simple web form to initiate the process.

Eligible Materials

Each item offered for donation must meet the following criteria:

- Must be the last copy in Illinois, as confirmed through I-Share and through WorldCat
- Must be bibliographically complete, with no missing volumes
- Must be cataloged at least at the core (M) level
- Must be completely free of mold, mildew, and insects
- Materials may not include theses or dissertations filmed by ProQuest, retail catalogs, VHS tapes, ERIC fiche, or government documents. Libraries interested in donating Illinois state government documents should contact the Illinois State Library.

Offering Materials for Donation

Libraries interested in offering materials for preservation through the Last Copy Project will complete a simple web form to initiate the process.
For each item that meets all the eligibility requirements noted above, libraries should complete the Last Copy web form. Libraries will need to provide the following information:

- Donor library
- Contact name
- Contact email
- Item title, author and ISBN
- I-Share control number (if available)
- Number of copies in Illinois, as confirmed through I-Share and through WorldCat
- OCLC number (if available)
- Total number of copies in OCLC WorldCat

UPON SUBMISSION OF THE WEB FORM

Staff at the University of Illinois and CARLI will be notified via email when a library has offered to donate a last copy. The contact person designated on the Last Copy web form will receive an email confirmation with an attached book slip for the item. Please save this email. The UIUC staff will review the information submitted and determine whether they are able to accept the material.

If UIUC is willing to accept the materials, the donor library will be notified via email and may proceed with shipping. Materials that the UIUC does not want or cannot house will be offered to other interested Illinois research libraries. The donor library will be notified of the next steps in the process.

UPON ACCEPTANCE BY UIUC

The donor library will complete the following steps:

- Place a copy of the book slip with the material.
- Withdraw record / holdings from donor's local catalog and OCLC.
- Ship the materials to UIUC via ILDS (UIU) or via other shipping methods at the donor's own expense, using the following address:
  
  Last Copy
  44 Main Library
  University of Illinois at Urbana-Champaign
  1408 W. Gregory Dr.
  Urbana, IL 61801

UPON SHIPMENT TO UIUC

All donated material becomes the property of UIUC upon shipment to them. Unless the donated item meets criteria for addition to the Rare Book Library, UIUC will add item to circulating collections with a note in the record indicating that they are part of the "CARLI Last Copy Program." Items will be available for borrowing. The University of Illinois at Urbana-Champaign may also choose to keep the materials in long-term storage, add the materials to the regular collection, digitize the materials, etc. Donated materials that must be removed from the UIUC collection will be offered to other research libraries, and to the original donor library before being destroyed.

If you have questions about the project, support@carli.illinois.edu.
Shared Print Archive Network (SPAN) (http://www.coppul.ca/programs/shared-print)

The Council of Prairie and Pacific Libraries' Shared Print Archive Network (SPAN) is a distributed retrospective print repository program. SPAN's main goals are to provide access to shared print archives, create opportunities for the reallocation of library space, and preserve the print record for its members in a cost-effective way. Rather than thinking about the project in terms of preserving the "last copy," this partnership emphasizes the role of the archived print as part of an optimal copy network that includes other print archiving initiatives.

The 21 participating COPPUL libraries (/print/programs/shared-print#participating_libraries) have agreed to consolidate and validate print journal backfiles at major library storage facilities and selected campus locations. Selection of titles for inclusion in SPAN will be made using a risk management framework: journals will be categorized as Low-, Moderate-, or Higher-Risk based on their availability electronically, rarity, and relevance to the region (Western Canada).

The COPPUL Shared Print Archive Network Member Agreement (April 2012) (http://www.coppul.ca/sites/default/files/uploads/SPAN%20AgreementApril2012revWEB.pdf) outlines the governance of the initiative, as well as the contributions and responsibilities expected from each participating library.

List of participating libraries:

- Athabasca University
- Brandon University
- Concordia University College of Alberta
- King's University College
- Kwantlen Polytechnic University
- MacEwan University

The Five College Library Depository (FCLD) collection is a set of lesser-used materials drawn from the libraries of Amherst College, Hampshire College, Mount Holyoke College, Smith College, and the University of Massachusetts Amherst for which the libraries have adopted a long-term shared retention agreement. The FCLD collection also serves needs of Affiliate Members and may accept contributions to enhance the collection from them. All materials in the FCLD collection are listed in the Joint Online Library Catalog.

Faculty members, staff members, students and community users with a valid Five College library card may request journal articles via an online article request form. Anyone else may request items via the Interlibrary Loan services of the person's primary library.

Faculty members, staff members and students affiliated with a Five College library may request books directly through the “Request Item” function of the Joint Online Library Catalog.

On-site access to materials FCLD collection is also possible at the FCLD facility by appointment. Please use the contact information below to make arrangements.

For more detailed access information, please consult our access instructions.

For more information about the policies of FCLD refer to links on the left side of this page.

Hours
Operating hours of the current FCLD facility: 8:30 a.m. to 4:30 p.m. weekdays, observing Five Colleges, Incorporated holidays (e.g., New Year's Day, MLK Birthday, Memorial Day, July 4th, Labor Day, Thanksgiving, and Christmas -- for details see the Five College Holiday Calendar elsewhere on the FCI website).

Location
Current location of the FCLD facility: west end of Military Road, off Route 116 at The Notch, South Amherst, MA. Click here for map and directions. Materials are stored in compact shelving in a climate controlled area of a former Strategic Air Command Bunker currently owned by Amherst College.

Contact Information
bunker@fivecolleges.edu, (413) 542-2865, or view the directory.
LIPA is a non-profit 501(c)(3) consortium of academic, federal, state and public law libraries working on projects to preserve print and electronic legal information. It provides the opportunity for libraries to work collaboratively on preservation projects at lower cost and to take advantage of the partnerships created by the organization.

MISSION STATEMENT
The mission of the Legal Information Preservation Alliance (LIPA) is to provide the leadership, the organizational framework, and the professional commitment necessary to preserve vital legal information by defining objectives, endorsing and promoting the use of appropriate standards and models, creating networks, and fostering financial and political support for long term stability. LEAVE A REPLY
The mission of the Legal Information Preservation Alliance (LIPA) is to provide the leadership, the organizational framework, and the professional commitment necessary to preserve vital legal information by defining objectives, endorsing and promoting the use of appropriate standards and models, creating networks, and fostering financial and political support for long term stability.

Systems of government and justice throughout the world are dependent on the preservation of the written records of their activity and on the ability of citizens to access and use that information. Not only government officials, legislators, and judges, but also lawyers, legal scholars, historians, and individual citizens have the need and the right to their written legal heritage. In the broadest sense, these "records" comprise both the primary documents emanating from all branches of government as well as secondary legal compilations and writings that organize, explain, and evaluate them.

Collectively the entire body of legal information constitutes an essential element in the foundation of human society. Throughout history mankind has created progressively more sophisticated methods and often fragile materials for keeping its records. Librarians, archivists, and scholars remain steadfast in their commitment to assure the survival of the written chronicle. Legal texts are among the most important examples of what needs to be preserved.

Mission Statement

The evolution of publishing into the electronic environment, while offering significant advantages for textual research, compact storage, and instant wide dissemination of information, has added complexity to age-old concerns with the preservation of information. At this relatively early stage in the electronic era, the digital medium is unstable and still unproven as a long-term means of preserving the written record. Ironically, the relatively unrestricted freedom and technological capability to disseminate text electronically has resulted in unfathomable quantities of digital text issued not only by proven institutions and publishers, but also by anyone who chooses to send it forth via the Internet. Both government and private businesses and institutions have eagerly adopted digital publishing and record-keeping both as ways to save money, time, and space and to promote efficiency and control. In their haste to abandon what they perceive as cumbersome paper records and methods of dissemination, they have too often failed to take into account the long-term preservation of their electronic publications and archives. Neither administrative commitments nor technical solutions have been sufficiently important in their political and business agendas to result in widespread efforts to save what they have produced nor to assure its authenticity. Consequently, without an initiative to preserve it, important electronic could be lost or rendered unreliable.

A number of respected universities and scholarly organizations have launched efforts to bring about national consistency in the preservation of print and electronic legal information. Their endeavors show the need for defining objectives, developing standards, exploring models, creating networks, and fostering financial and political support for long-term sustainability. Up to this point, none of the efforts has concentrated specifically on the preservation of legal information. The goal of LIPIA is to provide the necessary organizational framework and professional commitment to coordinate this effort and carry it forward. Nothing less than transmission of the permanent, accurate record of legal knowledge to future generations is at stake.
Welcome

The Maine Shared Collections Cooperative (MSCC) was founded by eight of Maine’s largest libraries, plus the state’s consortium, Maine InfoNet, together they have implemented a shared approach to the management of print collections in the state. MSCC are currently in the process of recruiting new member libraries.

MSCC builds upon the work of the Maine Shared Collections Strategy which was a four-year project, funded in part by the Institute of Museum and Library Services (IMLS), the partner libraries collaborated to make decisions about the storage, retention, and preservation of print materials (both books and journals), as well as implementing on-demand delivery services in the state-wide catalog. This helped alleviate space concerns while ensuring that users continue to have equal or greater access to the information.

Summary of final MSCS Project Team meeting now available Aug 22
About the Project

The Maine Shared Collections Strategy (MSCS) brings together eight of Maine’s largest libraries, plus the state’s consortium, Maine InfoNet, in an effort to create a strategy for the shared management of print collections in the state.

Under this three-year project, funded in part by the Institute of Museum and Library Services (IMLS), libraries will collaborate to make decisions about the storage, retention, and preservation of print materials (both books and journals) as well as look for ways to integrate digital editions into a state-wide catalog. This will help alleviate space concerns while ensuring that users continue to have equal or greater access to the information.

The project’s goals are:

1. To develop a strategy for a statewide, multi-type library program for managing, storing and preserving print collections among public and private institutions to achieve greater efficiencies and extend the power of every dollar invested in collections and library facilities.
2. To expand access to existing digital book collections by developing print-on-demand (POD) and e-book-on-demand (EOD) services to support long-term management of a shared print collection, and the integration of digital resources with print collections.
3. To formalize organizational agreements, establish a budget, and develop policies essential for the maintenance of shared print and digital collections, access to them, and responsibility for sharing them.

Activities that will aid in achieving these goals include:

- Perform an analysis of the “collective collection” to identify unique items, items owned by multiple libraries, institutional strengths, etc.;
- Implementation of a Print-on-Demand service;
- Development of a retention policy for the number of copies for each title, and for identical print and digital titles;
- Development and implementation of a policy for preservation of unique and rare print materials.
Overview

The libraries at Michigan's publicly supported universities sought to devise a collaborative approach to shared print collections among themselves, as facilitator and fiscal agent, MCLS, brought together a subset of the group in a pilot project to identify titles that are commonly held by all or most of them. Participating Libraries used services and tools developed by Sustainable Collection Services (SCS) to identify such titles in their respective individual collections, and to compare results across the group. This pilot project concluded in April 2013. Because of its success, five more libraries have joined the project.

About Minnesota Library Storage (MLAC)

The Minnesota Library Access Center is our high-density storage facility for Minnesota libraries that stores and makes available important but little used books. Unlike a library which shelves items either by subject or alphabetically by title, MLAC shelves items by size. The goal is to shelf at the highest density possible to maximize space usage.

**Capacity**

- Predicted capacity: 1.4 million volumes.
- Current holdings: over 1,357,000 volumes (August 2009).

**Space Allocation**

- 60% is reserved for the University of Minnesota, Twin Cities Campus Libraries.
- 40% is for Minnesota's academic, public and governmental libraries.

**Accessing the Collection**

- Because the facility's shelves are 17 feet tall, books are retrieved by trained staff on forklifts.
- The collection is closed to the public. All items in MLAC are listed in MnCAT, the University of Minnesota's online catalog along with links to request retrieval.

**Learn More**

**MedPrint – Medical Serials Print Preservation Program**

The National Network of Libraries of Medicine (NN/​LM) and the National Library of Medicine (NLM) are working together to ensure the preservation of and continued access to the literature through a national cooperative medical serials print retention program (MedPrint).

- **MedPrint Overview**
- **MedPrint Title List** - the serials initially selected as the primary set of materials to preserve in print format
  - Arranged alphabetically by current title (grouped with preceding titles)
  - Arranged alphabetically by title
  - Download title list (You may need to download the Microsoft Excel Viewer in order to open, view and print this file)
  - Title reports (updated monthly)
    - Titles with commitments
    - Titles with no commitments
- **MedPrint Agreement** - formal agreement between NLM and participating libraries, including instructions for participation
- **DOCLINE** - Record commitment to titles in NLM's ILL requesting and serial holdings system

For background information about the print retention program, see the Technical Bulletin article.

"... let us save what remains: not by vaults and locks which fence them from the public eye and use, in consigning them to the waste of time, but by such a multiplication of copies, as shall place them beyond the reach of accident." - Thomas Jefferson

February 18, 1791 in a letter to Ebenezer Hazard, commending his efforts to collect and preserve "valuable historical and state-papers"

The National Network of Libraries of Medicine (NN/LM) and the National Library of Medicine (NLM) are working to ensure the preservation of and continued access to the literature through a national cooperative medical serials print retention program (MedPrint).

Since 2000, U.S. medical libraries increasingly have shifted their journal subscriptions from traditional print to the electronic journal version to meet user expectations of immediate access to material 24 hours a day. While this shift has freed limited physical space in libraries, libraries also have come under pressure to give up physical space to other areas of their parent organizations, and thus have had to discard print holdings of some, many, or all of their journal titles - limiting access to the years/volumes available online.

Although some publishers have been converting earlier print issues to electronic format, not every digitization project has taken care to ensure that each article is complete, that the graphics are readable, colors are in proper tones, and that all parts of the journal are in place -- including advertisements and administrative matter, which can provide context for the article and the time period in which it was published. It is important to note that not all journal titles and volumes have been digitized, and for some volumes and some titles, the print copy in libraries may be the only record. Furthermore, future access to backfiles at publisher sites cannot be guaranteed. The potential loss of the archival record is a serious concern for libraries and the research community.

In consultation with the Regional Medical Libraries (RML), NLM has initially identified approximately 250 [Abridged Index Medicus® (AIM)/PubMed Central® (PMC)] journals as the primary set of materials to preserve in print. Libraries can commit to retain titles beyond this initial list; however they would not be part of this program. The official print retention title list may be expanded at a future time.

The retention model is distributed. Ideally, all titles will be held across all of the eight regions of the NN/LM. The minimum number of copies to retain in the NN/LM is 12. The NLM copy will be the 13th copy. NLM will work with OCLC on exchanging print retention information between WorldCat and DOCLINE. This is a voluntary national cooperative program. Funding will not be provided to help libraries maintain or store the titles they commit to retain.

Library guidelines for MedPrint program participation are:

1. U.S. libraries must be DOCLINE participants to be eligible to serve as participating partners.
2. The period of commitment is 25 years.
3. Libraries must hold the titles they agree to retain from the first published volume until the title ceased in print or, if still published in print, at least until the year 2000. Libraries are not required to commit to the preceding or succeeding titles. For example, a library may retain American journal of obstetrics and gynecology (1920- ), but not American journal of obstetrics and diseases of women and children (1868-1919).
4. Library holdings must be 95% complete at the volume level. Complete holdings are preferred.
5. Journals must have all of their parts in place including covers, tables of contents, advertisements and administrative matter. If your holdings are in offsite storage, you do not need to visit the facility to verify that all parts are intact. If your holdings are reported as 95% complete in DOCLINE, and you think the collection is in fair to good condition, you may make a commitment to retain a title for MedPrint.
6. Libraries will record their commitment to the national retention program in DOCLINE.
7. Libraries will maintain accurate level 3 (volume/year) holdings in DOCLINE.
PALCI Distributed Print Archive (PDPA)

Project description

PALCI is developing an archive of print serials for titles published by scholarly societies, which may be commonly available in electronic format but for which it is felt it may be helpful to continue to maintain holdings of print volumes, at least for the near future. When complete, this archive will be distributed among various PALCI institutions. Volumes will be available for borrowing and research use among PALCI member institutions.

Who We Are

The Statewide California Electronic Library Consortium (SCELC) was established in 1986 to develop resource-sharing relationships among the libraries of private academic institutions in California. See a map of all the SCELC libraries.

What We Do

The consortium seeks to explore issues related to electronic and digital information and to promote the creation, access, use, management and maintenance of this information for the benefit of faculty and students in the member institutions. It further seeks to improve related library staff skills through development and training activities. While regional in its membership focus, SCELC is committed to cooperative relationships with other library consortia and professional organizations and welcomes opportunities for joint projects and programs that contribute to enhancement of information resources in the region.
The Single Copy Operations Committee became the Collaborative Print Retention Committee in 2011, and will provide updates and reports to the Collections Council.

**Charge:** to coordinate the processing of titles into the TRLN Collaborative Print Retention Program—an ongoing service for TRLN libraries. Working under the direction of the TRLN Collections Council, the Retention Committee is comprised of technical and physical processing staff. The Committee coordinates the following workflow:

- Conducts inventory of contributing library's holdings for each title and reports gaps
- Updates holdings records of contributing library to indicate commitment to Collaborative Print Retention
- Determines if and which partner libraries can fill gaps and indicates on holdings inventory—updates holdings records to indicate commitment to Collaborative Print Retention
- Processes volumes by updating bib and item records according to campus procedures
- Moves volumes to new location (if appropriate)
- Reports completed titles and new holdings locations

**Members:**

- Angela Bardeen, UNC
- Kurt Blythe, UNC
- Sean Chen, Duke Law
- Emma Cryer, Duke MCL
- Christie Degener, UNC HSL
- Linda McCormick, Duke Ford
- Terri Saye, UNC Law
- Bob Sotak, NCSU
- Cheryl Thomas (Chair), Duke
- Staff to the Committee: Lisa Croucher
Shared Print

The University of California Libraries' Shared Print collections consist of information resources jointly purchased or electively contributed by the libraries. Such resources are collectively governed and managed by the University Librarians for the purpose of maximizing access to the widest audience of current and future members of the UC community.

Strategic Direction

"The overall aim of [shared print collections] is to further optimize the management of information resources for students and faculty by reducing unnecessary duplication, leveraging shared assets (such as regional library facilities), and expanding the information resources available systemwide, while meeting the information needs of library users at each campus."

Systemwide Strategic Directions for Libraries and Scholarly Information at the University of California [PDF] University of California University Librarians. April 2004 Section 4.1, p.12.

Goals & Objectives

The overarching goals for Shared Print collections are:

- To facilitate the development of more comprehensive and diverse research collections available to UC library users throughout the system through efficient collaborative methods for the prospective acquisition of research resources.
- To accelerate the development of shared collections to provide substantial opportunities for campuses to avoid costs or to reallocate RLF and campus library space for other uses.
- To integrate UC Shared Print collections with broader regional, national and international shared collections.
- To preserve the scholarly printed record, where print remains the archival medium of choice, at the lowest possible unit cost.
- To ensure UC library users can readily discover and access shared print collections held within UC or by other libraries.
- To facilitate collaborative, holistic collection planning for physical resources in conjunction with broader collection planning among UC Libraries.

In addition, specific goals for the development of shared print monograph collections are:

- To develop and maintain a significant print collection of record to support the UC mission of teaching, research and patient care.
- To provide robust, efficient access to UC users to the formats (print and electronic) that best support research and teaching.
- To create an ecosystem of monograph collections and cooperative partnerships within which users can readily access shared, retained print monographs, and library staff can make local collection management decisions in a UC systemwide, regional or network-level context.

About FLARE

The Florida Academic Repository (FLARE) is a collaborative venture among the members of the Florida State University System (SUS) Libraries and the University of Miami. A Statewide Storage Task Force (SSTF) was established with membership from all eleven SUS Libraries, as well as representatives from the Independent College and Universities of Florida and the Florida College System, in anticipation of future participation.

The goal of the Shared Collection is to provide participants with highly cooperative solutions for the storage of low use library materials. The SUSSC will be housed in an environmentally controlled, carefully inventoried and secure high density facility located in Gainesville and administratively hosted by the University of Florida. Materials from participating libraries will be voluntarily and permanently transferred to the Shared Collection and made available for retrieval by means of a Florida specific unmediated borrowing service, through traditional interlibrary loan, or by electronic delivery.

The Florida Virtual Campus (FLVC)

The Florida Virtual Campus (FLVC), in consultation with the University of Florida, has created the Florida Academic Repository (FLARE) library in both Aleph and Mango. This establishes FLARE as a distinct collection, separate from other State University System (SUS) library collections. FLARE holdings will display in the Mango union catalog as a separate institutional holding that is available to all patrons, regardless of the patron’s home library. They will display by default, not hidden under the “Show all Locations” option.

Requests for these items can be made through UBorrow. Items will be loaned for 60 days with a 30 day renewal available. To search for FLARE materials in Mango, users can limit the search by searching “Selected Libraries: Florida Academic Repository” or by using the “Subcollection: Florida Academic Repository” checkbox in the facets located on the left of the search screen.

SUS libraries will have the option to display FLARE in their local catalog. Please place a request via the RT HelpDesk Mango queue to request this option.

WASHINGTON RESEARCH LIBRARY CONSORTIUM
Creating Coordinated Collections
http://www.wrlc.org/collections

Creating Coordinated Collections

The combined collections of the Washington Research Library Consortium total more than 12 million items (Academic Library Survey, 2010). This extraordinary resource, and its ready access, is essential to enabling the success of learning and scholarship.

The Consortium Loan Service (CLS) makes print materials easily available to the students, faculty and staff across the Consortium. Users may request the delivery of needed books or articles online with delivery within one or two days. In FY2011 and FY2012, over 20% of the books that have circulated have been borrowed from one of the partner universities.

Collection development selectors and bibliographers are familiar with the collection strengths of their partners and make acquisition and retention decisions based on this knowledge. We have recently embarked on an effort to create new synergies among the partner universities by building interlaced collections that maximize the number, depth and breadth of titles than would otherwise be physically and fiscally impossible. Since 2011, we have jointly acquired a number of e-book collections that are available to everyone across the consortium.

WRLC operates a Shared Collections Facility designed to free valuable space in the campus libraries by providing a cost-effective sharing alternative. The facility provides high-density, environmentally-controlled, retrievable storage for books, audiovisual or microform media, and archival boxes. Individual items are sorted by size in order to store the maximum number of items in the minimum floor area. These materials, totaling over 1.8 million volumes and over 60,000 archival boxes, are readily available to students and faculty using the Consortium Loan Service. Materials requested by 3 pm are delivered to the library the next business day. Individual journal articles are transmitted directly to the requester at a password-controlled website.

In 2005, we implemented a policy of retaining only one copy of any serial in the Shared Collections Facility at the WRLC Center. By 2013, this has saved space for an additional 100,000 volumes. Similarly, the Consortium approved a policy stating that we would retain only two copies of any edition of a monograph, though duplication within the shared collections is, on the whole, relatively low. In January 2013, WRLC and the Association of Southeast Research Libraries (ASERL) signed a partnership to jointly identify and retain print journal titles until at least 2035. By working together with ASERL, the WRLC libraries will be able to reduce the total number of volumes they need to retain.
The Western Regional Storage Trust (WEST) is a distributed retrospective print journal repository program serving research libraries, college and university libraries, and library consortia in the Western Region of the United States. Under the WEST program, participating libraries consolidate and validate print journal backfiles at major library storage facilities and at selected campus locations. The resulting shared print archives ensure access to the scholarly print record and allow member institutions to optimize campus library space. This collaborative regional approach to managing library collections represents an important step, when joined with other initiatives, toward development of a network-level shared print archive.
WESTERN REGIONAL STORAGE TRUST
About WEST
http://www.cdlib.org/services/west/about/

About WEST

WEST is a collaborative and sustainable journal archiving program that will transform the manner in which legacy print journal collections are housed and managed.

In 2009-2010, research libraries, college and university libraries, and library consortia in the western region of the United States joined together, with support from the Andrew W. Mellon Foundation, to plan for a shared print archiving program known as the "Western Regional Storage Trust". The goals established for WEST were to:

- Preserve and provide access to the scholarly print record
- Facilitate space reclamation in WEST libraries and storage facilities

The twenty-two WEST planning partners developed an operating and business model including

1) selection priorities and validation standards based on risk management principles
2) agreements governing retention, holdings disclosure, and access
3) a business plan that includes governance and cost-sharing proposals.

In December 2010, the Mellon Foundation awarded a three year grant to the University of California Libraries to support implementation of WEST. More than 60 additional academic libraries expressed intention to join the program as it moved into implementation. During the initial three-year project (2011-2013), WEST partners will establish the administrative and operational infrastructure to support the distributed journal archive. Selected WEST Archive Builders will actively ingest and validate approximately 150,000 volumes from 8,000 journal runs (current and past titles), to allow recovery of the space occupied by potentially millions of corresponding volumes now held in partner libraries. WEST archiving libraries agree to maintain WEST archives for a period of 25 years (through 2035), with a review of the agreement every 5 years. WEST plans to submit a subsequent proposal for funding to support an additional two year archiving project in 2014-2015 (Phase 2).

The outcome of the WEST project will be a robust framework developed and adopted by a variety of regional partners to support a long-term, distributed print repository. The program will preserve the scholarly record through a coordinated system of persistent archives and will make visible those archives and retention commitments at the national/international level.

MOUs and Member Agreements
Approved April 2011, Revised March 2014

ASERL Collaborative Journal Retention Program Agreement

Introduction
ASERL libraries seek new options for sharing the costs and effort of long-term retention of print journals. The policies contained in this document have been reviewed and approved by the ASERL Board of Directors and all participating ASERL libraries. The following agreement provides assurance that the journals designated under this agreement will be retained and available for research purposes as long as the need reasonably exists, thereby allowing participating ASERL libraries to consider withdrawing duplicates of said items from their campus collections, and to rely with confidence on access to the retained copies.

1. Governance
1.1. The program will be governed by a Steering Committee consisting of one representative of each participating library and a liaison from the ASERL Board of Directors. Each participating library director will designate the Steering Committee member. The ASERL Executive Director shall be an ex officio member of the committee and shall be non-voting except to decide any tie votes.

2. Duration of Agreement, Discontinuance of Participation
2.1. This agreement shall be in effect through December 31, 2035, upon which time this agreement may be renewed as desired by participating libraries. This agreement will be reviewed in 2020 and 2030 to ensure it continues to provide value to participants.
2.2. Any modification, amendments or other changes to this agreement must be approved by a 2/3 majority vote of the Steering Committee and a review of the ASERL Board.
2.3. A participating library may opt to discontinue their participation in this agreement at any time without penalty, but must provide written notice to the Steering Committee a minimum of 24 months prior to withdrawing from the agreement.

3. Selection and Identification of Retained Materials
3.1. This agreement is designed primarily for storing low use print journals.
3.2. Materials will be selected for retention based on the completeness of the journal set and their quality/condition.
3.3. Participating libraries shall note the retention status of designated items within their local catalogs and/or other collection management systems, as deemed appropriate by the Steering Committee.
3.4. ASERL shall maintain a free and publicly accessible list describing the journals retained under this agreement, as deemed appropriate by the Steering Committee.
3.5. The participating library shall maintain all of the designated journals in their original, artifactual form whenever possible. If necessary because of damage to or loss of the original of any of the materials, a hard copy facsimile may be used to fill in gaps.
4. **Retention Facilities**
   4.1. Items that are to be retained under this agreement will be housed in one of the following types of facilities:

<table>
<thead>
<tr>
<th>Remote Storage Facility</th>
<th>Locked / Secured Stacks</th>
<th>Open Stacks</th>
</tr>
</thead>
<tbody>
<tr>
<td>An environmentally controlled, secured facility that is not open for public browsing</td>
<td>On-site access that is not open for public browsing</td>
<td>Open for public browsing</td>
</tr>
</tbody>
</table>

5. **Ownership and Maintenance of Retained Materials**
   5.1. The ownership of materials designated for retention under this agreement shall remain the property of the library that originally purchased the item(s). The library that agrees to retain a set of journals will verify the degree of completeness of the set to the volume level.
   5.2. The retaining library accepts responsibility for ensuring the serviceable condition of journals designated as part of this agreement. Serviceable condition will be defined as physically usable. Materials infested by mold or otherwise in a state of obvious deterioration will not be accepted for retention. The library shall document the method of review in the journal holdings confirmation statement as either "physical" or "bibliographic".
   5.3. Should a participating library be unwilling or unable to retain a set of journals that were designated as part of this agreement, that library must provide 12 months written notice to ASERL and offer to transfer ownership of said journals to another ASERL library for retention under this agreement.

6. **Operational Costs**
   6.1. All costs and workload for staffing and maintaining the facilities and retained materials will be borne by the library that undertakes the agreement.

7. **Duplicate Materials**
   7.1. Any ASERL library may at its discretion retain duplicates of items retained under this agreement by other members of ASERL. No ASERL library will be required to discard any materials.

8. **Circulation**
   8.1. Access to the contents of retained journals will be through electronic or paper duplication, or on-site access to specified items at the contributing library's discretion.
   8.2. The current circulation status of contributed titles must be accurately reported to indicate levels of risk. Levels of potential risk are defined in the table below:

<table>
<thead>
<tr>
<th>Non-Circulating</th>
<th>Remote Storage Facility</th>
<th>Locked / Secured Stacks</th>
<th>Open Stacks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Building Use Only</td>
<td>Low Risk</td>
<td>Low - Moderate Risk</td>
<td>Moderate - High Risk</td>
</tr>
<tr>
<td>Circulating</td>
<td>Moderate Risk</td>
<td>Moderate - High Risk</td>
<td>Highest Risk</td>
</tr>
</tbody>
</table>

9. **Lost or Damaged Materials**
   In the event of loss, damage or deterioration, the participating library shall use reasonable efforts to promptly obtain replacement copies of any of the retained items. Original artifactual copies are always preferred, but facsimiles are acceptable when necessary.
Central Iowa Collaborative Collections Initiative (CI-CCI) Memorandum of Understanding (MOU)

Mission Statement
The purpose of the CI-CCI is to enhance and sustain the availability of scholarly information for the combined user community of the group. The collaboration will strive to model effective best practice for cooperative collections and resource sharing.

Project Goals

The project has four immediate goals:

First, to responsibly reduce the size of local print collections by reducing duplication among the participating libraries so that library space may be freed up for other uses.

Second, to create and maintain a distributed, shared collection of these identified monograph titles to ensure that circulating copies of them are retained within the group, readily accessible to group participants as well as other libraries.

Third, to coordinate acquisitions with the goal of developing a “shared collection” among the participants to reduce duplication, leverage acquisition funds, and to reduce the frequency for the necessity to do data refresh.

Fourth, establish an environment where exploration and development of additional areas of collaboration can flourish (e.g., technology, etc.).

Guiding Principles

Participant libraries are committed to work together collaboratively to meet the Project Goals above for a minimum of 10 years (with options for review, renewal and dissolution as outlined below). We recognize that some of the specifics of this collaboration including the number of print titles covered, the participating libraries involved and details of responsibilities are likely to change over time and that adjustments will be desirable.

The MOU commitment is to work in consultation with each other for 10 years to responsibly, collaboratively and transparently manage the shared print collection that is a result of our joint withdrawal and retention actions.

Duration of agreement

Libraries agree to work together collaboratively to meet the Project Goals of the project for a minimum of 10 years from the start of the original agreement unless this agreement is dissolved or superseded by the mutual agreement of a simple majority of the participants. The length of this agreement may be extended at the end of the original period by mutual agreement of the group. Review of the agreement, its terms and implications will occur at no less than three (3) year intervals, or when a request is supported by a simple majority of full participant libraries.

Release from or renegotiation of agreement terms

An individual institution may be released from the agreement or modify its’ retention list for reasons beyond the library’s control such as a disaster, financial exigency, or a university mandate.
Should an institution need to withdraw from the group, that library is expected to work in good faith with the remaining participants to address the resultant implications. This is expected to include providing ample written notice of withdrawal (six months where possible), supplying the library’s retention list and identifying redistribution options among the remaining group members.

**Governance and Administration**

The collaboration shall be governed by a Directors Committee composed of each Library’s senior administrator. Each institution has one vote on issues concerning the collaboration. The Directors will meet at least once per year and may elect to meet more often. The annual Directors meeting will be at a mutually agreed upon date and location.

The Directors Committee may appoint task forces to investigate specific issues. The task force members will be appointed by the Directors Committee. Each Director will appoint a member or members from his or her own institution to these task forces. Task forces will meet as needed. Task force meetings will be led by representatives appointed by Directors Committee.

**Current participants**

Central College  
Drake University  
Grand View University  
Grinnell College  
Simpson College

**Addition of new participant libraries**

New participant libraries will agree to the mission and goals of the collaboration spelled out in the MOU. Generally new participant libraries will be added at a data refresh. Libraries that match their holdings against the shared collection prior to a refresh are required to contribute their library holdings at the next data refresh. When those libraries receive their retention lists and assume responsibility for retention titles in the shared collection, they become full participants in the shared collection. Full participant libraries may vote on issues relating to the MOU and the shared collection. Prior to that, representatives may attend meetings as nonvoting delegates.

**Description and Maintenance of the Shared Print Collection**

This agreement covers the set of retention titles to be identified by criteria that will be developed in the 2013 Sustainable Collection Services (SCS) deselection project. The group data analysis of collective holdings and individual title circulation will result in the identification of potential “withdrawal” titles and “retention” titles. The goal is to have a proportional distribution of titles as well as maintaining two copies of every item. These titles will be assigned by mutual agreement. The list of the titles a school is responsible for maintaining is called the “retention list.” This agreement excludes library materials not specifically contained on retention lists or allocated withdrawal lists developed during the project.

1. **Ownership and location of resources**

Where possible, two print copies of each withdrawn title will be retained in a shared print collection distributed among the participant libraries. The two copies will be maintained at two separate
designated participant libraries that already own and have recorded holdings of the title. Libraries will maintain ownership of their designated retention titles. Retention titles will be housed in facilities operated or shared by the owning library at the expense of that library.

2. Maintenance of the shared collection

Each library will use their best effort to maintain, house, preserve, and make available the titles on its respective retention list for the duration of this agreement. Libraries will not be held accountable for regular inventorying of their retention titles but are encouraged to do this when possible as a best practice.

3. Protection of retention list titles

Each library is expected to take appropriate local steps to protect their retention titles from discard as outlined in the Acquisitions Addendum. The aim is to facilitate data refresh and also to create the potential for all participants to identify retention items in OCLC or alternative shared discovery system.

4. Retention facilities, maintenance requirements, physical handling

Libraries are expected to treat retention titles with the same or better care as other materials in their collections as regards physical handling, circulation, repairs and restoration.

5. Circulation

Both of the retention copies are expected to circulate. No effort will be made to identify and monitor a preservation copy. All titles will be searchable in OCLC and available as outlined in the Interlibrary Loan Addendum.

6. Damaged, lost, missing and replacement copies

Libraries are expected to follow their usual workflows and procedures for identifying, repairing and replacing retention list titles. They will make a good faith effort to respond to badly damaged (unloanable) or lost titles in a way that displays sound judgment in the context of the particular title and its availability to other libraries in the state.

7. Notification about non-replacement or discard of retention titles

If a participating library knowingly elects not to replace a lost or badly damaged retention list title or if it replaces a retention title with a later edition it must notify the other participant libraries annually through an agreed standard notification mechanism. This will allow other participants, or the group as a whole to determine if they want to take further replacement actions. It also provides a mechanism by which the group can monitor and assess losses to the shared collection.

8. Data refresh

Libraries may choose to take part in a data refresh with updated circulation data and additional libraries' holdings at regular intervals. It may also provide opportunities to redistribute retention loads. Participant libraries will not be required to refresh their data. If a library elects not to refresh they will not be held responsible for retaining additional titles. They will remain responsible for their
CENTRAL IOWA COLLABORATIVE COLLECTIONS INITIATIVE
Memorandum of Understanding (MOU)
https://ci-cci.org/documents/

existing retention titles unless notified that the refresh has resulted in the removal of titles from their retention list.

By signature below, the following official representatives acknowledge having read and understood the agreement and document and agree to be bound by its terms and conditions.

Statement of Purpose:
The Library Directors of the Committee on Institutional Cooperation (CIC) are committed to effective stewardship of library and university resources. That commitment extends to effective use of library space, maintaining convenient user access to scholarly works, and to assuring the long-term preservation of legacy print collections. The following MOU among CIC libraries is intended to support a sustainable program for the retention and servicing of the appropriate number of print copies required to meet the research and instructional needs of our universities. These goals will be achieved through the development of CIC SHARED PRINT REPOSITORY (REPOSITORY), collectively owned, governed and maintained by PARTICIPATING CIC LIBRARIES.

By executing this Memorandum of Understanding (MOU), PARTICIPATING CIC LIBRARIES are making a commitment to each other--and conveying to their campus communities--that they will support long-term retention of CIC legacy print resources, and that specified best-practices will be adhered to in managing and providing ongoing access to these resources. Indiana University has committed to develop the initial print collection in conjunction with the PARTICIPATING CIC LIBRARIES. As the storage initiative progresses, it is anticipated that print holdings from CIC libraries will be ingested and managed by several different institutional HOST SITES. The terms of these hosting arrangements will be 1) specified in separate contractual agreements with the CIC; 2) unanimously endorsed by the Governing Board; and 3) reflective of the principles and practices codified herein.

The <name of institution> commits to join the CIC SHARED PRINT REPOSITORY, a collaborative effort of the Committee on Institutional Cooperation and PARTICIPATING CIC LIBRARIES to support the effective management of print assets held by CIC Universities. The <name of institution> will join the REPOSITORY initiative as a FOUNDING PARTNER, and support the principles, policies and procedures proposed herein.

1. Governance
The CIC SHARED PRINT REPOSITORY will be guided by a GOVERNING BOARD composed of the Library Directors of PARTICIPATING CIC LIBRARIES and the Director of the Center for Library Initiatives (ex officio). This BOARD will administer the overall directions of the project, including approving policies, budgets, membership fees, standards, system development, and service strategies.

The GOVERNING BOARD will appoint a CIC SHARED PRINT REPOSITORY STEERING COMMITTEE, drawn from a subset of Library Directors from PARTICIPATING CIC LIBRARIES (including at least one Director from a HOST SITE), the Director or Deputy Director of the CIC Center for Library Initiatives, and the chairs of various working groups. The Steering Committee will maintain oversight responsibility
for selection of material, development of operational processes, disbursement of funds, and program evaluation. The terms of appointment and succession for members of the STEERING COMMITTEE, and the scope of the COMMITTEE’S remit, will be specified by the GOVERNING BOARD. The STEERING COMMITTEE, in turn, may appoint and oversee functional WORKING GROUPS (e.g., Collections, Technical Services, Public Services) as needed to accomplish the project’s goals.

2. Administration
The Committee on Institutional Cooperation, in conjunction with the University of Illinois acting as its fiscal agent, will provide administrative support for the initiative in the form of:

- Executing and monitoring agreements with HOST SITES
- Managing project finances, including billing PARTICIPATING CIC LIBRARIES and dispensing project funds to meet obligations to HOST SITES, vendors and other service providers
- Supporting communication about the project and interacting with other regional and national storage initiatives
- Assisting the GOVERNING BOARD and STEERING COMMITTEE with project assessment, data gathering, and facilitating communication among the various governance and working groups
- Arranging and/or hosting project related meetings

3. Duration/Withdrawal/Termination
This MOU among PARTICIPATING CIC LIBRARIES and the CIC shall be in effect for five (5) years from the date of first execution, and will be subject to renewal in five (5) year increments beyond this initial MOU with the written consent of each PARTICIPATING CIC LIBRARY.

A PARTICIPATING CIC LIBRARY considering withdrawal from the program at the end of a five-year term should provide notice to the GOVERNING BOARD twelve (12) months prior to the expiration of this or subsequent MOUs. CIC SHARED PRINT REPOSITORY materials deposited by a withdrawing library cannot be removed from the shared collection without the unanimous consent of the GOVERNING BOARD. A PARTICIPATING LIBRARY that withdraws from the program will have continued access to its own and other materials deposited during its term of participation. Fees and terms governing access to REPOSITORY materials by a withdrawing library will be determined by the GOVERNING BOARD.

The CIC SHARED PRINT REPOSITORY collaboration, and this MOU, can terminate at any time that all PARTICIPATING CIC LIBRARIES agree mutually to terminate the program. The Governing Board at the time of termination will develop a dissolution strategy that fulfills all contractual obligations (e.g., HOST SITES, vendors, the CIC, other library storage partners, etc.), and supports continued access to the stored resources in a manner that reasonably satisfies the needs of CIC libraries and users.

4. Ownership
DEPOSITING LIBRARIES will retain ownership of materials designated for the CIC SHARED PRINT REPOSITORY, but will cede ongoing administrative control of the content to the one or more HOST SITE(S) storing materials on its behalf.
DEPOSITING LIBRARIES will carry out volume level validation of materials being prepared for transfer, including updating the bibliographic record if needed, and providing accurate holdings records. The transfer of records to a HOST SITE will be carried out under protocols approved by the STEERING COMMITTEE. Preparation of materials and records for transfer will not be a reimbursed expense under the REPOSITORY program, but shipping costs can be submitted for reimbursement.

Libraries that withdraw volumes because a shared copy is already on deposit may continue to count ownership of that material for statistical and accreditation purposes, unless specifically precluded by an accrediting body.

5. Fees and Financial Obligations
Participating CIC libraries agree to provide financial support to the REPOSITORY as specified in a financial plan approved by the CIC SHARED PRINT REPOSITORY GOVERNING BOARD. Signatories are committing to provide funding for the full five-year term of this MOU.

All participating libraries will share the costs of shipping, ingest and ongoing storage in a formula to be approved by the GOVERNING BOARD. Onetime costs include: shipping and handling, ingest routines and validation. Ongoing costs include: depreciation, insurance, and other operational and service costs that accrue to the HOST SITE(S). Each PARTICIPATING CIC LIBRARY is responsible for an equal share of the costs and expenses incurred at a HOST SITE related to: the selection of materials for shared print storage; representing holdings in appropriate catalogs or discovery tools; providing metadata as needed by the host facility; and the shipping costs to transfer materials from a contributing library to the HOST SITE.

CIC LIBRARIES joining the project after the first year of operation (NON-FOUNDING PARTNERS), will be assessed all fees and charges that accrued to FOUNDING PARTNERS dating back to the initial year of the project.

CIC libraries that are not participating in the SHARED PRINT REPOSITORY program, or member libraries that have withdrawn from participation or allowed their participation to expire, may request to borrow material from the REPOSITORY for a fee, and under terms and procedures determined by the GOVERNING BOARD.

Partnership fees for the five-year TERM of this Agreement will be recommended by the STEERING COMMITTEE and approved by unanimous consent of the GOVERNING BOARD. An initial financial plan for the project can be modified as circumstances require by a majority vote of the GOVERNING BOARD, provided that contractual commitments to HOSTING LIBRARIES, vendors and contractors are honored. Following the first year of the project, the annual partnership fee will be reviewed and approved in MAY of each year to determine payments for the subsequent project fiscal year commencing in July 2011.

A PARTICIPATING CIC LIBRARY facing exceptional fiscal exigencies should bring that to the attention of the GOVERNING BOARD as far in advance as possible of a missed or reduced payment. The GOVERNING BOARD, working with the Library Director and Provost of an institution in default, should review and pursue options for sustaining participation in the archiving program.
6. Eligible Materials
Eligible materials will be designated or approved by a WORKING GROUP of CIC collection development specialists working under the direction of the GOVERNING BOARD and/or STEERING COMMITTEE. While the initial phases of the project will focus upon aggregating and securing journal backfiles, reference materials and monographs will likely be included as the project develops over time.

No print serial volumes will be duplicated in the CIC SHARED PRINT REPOSITORY program without the explicit consent of the STEERING COMMITTEE acting on behalf of the GOVERNING BOARD.

7. Service
Materials designated for the CIC SHARED PRINT REPOSITORY will be made available to users at the request of PARTICIPATING CIC LIBRARIES, and will be delivered to designated offices of the requesting library (e.g., ILL, Circulation, Reference). As appropriate, requests for articles or volumes should be made through traditional ILL channels. Fulfillment of requests will most commonly involve delivery of a scanned digital surrogate, unless it is specified that the user requires access to the original print copy of an article or work. Unless otherwise agreed to by the HOST LIBRARY and the STEERING COMMITTEE, REPOSITORY materials will be made available to readers for onsite reading at the borrowing library. Borrowing libraries will assume responsibility for any losses of content in shipping or circulation, and will work with the HOST SITE to expedite replacement.

PARTICIPATING CIC LIBRARIES will provide a list of library units, campus libraries, or branch campuses to be covered by this Agreement. Non-contiguous branch or system libraries can request materials through the central PARTICIPATING CIC LIBRARY, provided that they agree to restrict circulation to on-site use, and the central CIC Library agrees to assume responsibility for loss or damage to REPOSITORY materials as stipulated in the above paragraph.

8. Host Site Obligations
Each CIC SHARED PRINT REPOSITORY HOST SITE will execute an agreement with the CIC that specifies required conditions, procedures and services to be in compliance with the expectations of PARTICIPATING CIC LIBRARIES as addressed herein. These HOSTING AGREEMENTS might vary one from another to take account of the nature of the material being stored, the nature of the facilities being used, the term of the commitment, the partnering libraries being served, or the evolving needs and expectations of PARTICIPATING CIC LIBRARIES over time. In general, however, the HOSTING AGREEMENTS will reinforce the following expectations for institutions providing these archiving services:

a) HOST SITES agree to house CIC SHARED PRINT REPOSITORY materials in an environmentally controlled, insured, and secured facility.

b) HOST SITES for REPOSITORY holdings commit to retention and stewardship of deposited materials for an initial period of twenty-five years, assuming that one or more PARTICIPATING CIC LIBRARIES can provide adequate support to defray the costs of retention. Under exceptional circumstances, a HOST SITE can petition the GOVERNING BOARD for permission to discard or transfer holdings.

c) HOST SITES will validate REPOSITORY serial holdings at the volume level for completeness, and will develop routines for attempting to fill gaps-- or replace
noticeably incomplete, damaged or otherwise compromised items— from PARTICIPATING CIC LIBRARIES or other sources as efficient operations permit. For content ingested from other source libraries, HOST SITES will perform secondary validation to ensure that the content received matches updated and supplied holding records, and will likewise attempt to fill-in gaps or replace incomplete or seriously damaged volumes.

d) While volume level validation is recommended for the broadly distributed journal backfiles being addressed in the initial phases of this project (Sect. 8c above), the STEERING COMMITTEE (with input from the WORKING GROUP on Collections) might recommend or mandate more vigilant review and validation protocols for some other categories of content likely to be treated in the future, provided that the added costs for this level of review are accommodated in the project budget.

e) All content stored on behalf of the CIC will be represented by standard bibliographic records, and all physical volumes will be represented by an item record.

f) HOST SITES will carry out standard preservation review, and treatments will be applied at ingest to maximize the shelf-life of stored content and avoid any contamination of proximate resources.

g) HOST SITES will develop routines to disclose REPOSITORY holdings to PARTICIPATING CIC LIBRARIES and others within or beyond the CIC who might benefit from knowing what content has been secured.

h) HOST SITES will assure that duplicate serial volumes are not ingested unless explicitly directed to do so by the GOVERNING BOARD, or the STEERING COMMITTEE acting on behalf of the GOVERNING BOARD.

i) HOST SITES will develop the capability to make print content—or suitable surrogates— available to constituents of PARTICIPATING CIC LIBRARIES in accord with policies and principles developed by the STEERING COMMITTEE and/or GOVERNING BOARD.

9. Assessment

PARTICIPATING CIC LIBRARIES, with administrative direction provided by the STEERING COMMITTEE, will review the SHARED PRINT REPOSITORY initiative in the fourth year of the project, and then every five years subsequent to that to monitor the ongoing value and efficacy of the program to member libraries.

10. Amendment

This MOU may be amended at any time by a two-thirds vote of the GOVERNING BOARD, provided that such amendments are consistent with the obligations the PARTICIPATING LIBRARIES, CIC, and the University of Illinois (as fiscal agent) have incurred as a result of this MOU.

11. No Partnership or Agency

This MOU is not intended, and shall not be deemed, to create a partnership or otherwise authorize joint action for any purpose except as specified herein. No party shall act as agent or representative of any other party except as authorized in accordance with this MOU.
The terms of this MOU are agreed to as confirmed by the signatures below:

Library Director/University Librarian

 University Signature Authority  Title

___________________________________  Date
Barbara Allen, CIC Director
The Council of Prairie and Pacific Libraries’ Shared Print Archive Network (SPAN) is a distributed retrospective print repository program. Participating libraries consolidate and validate print journal backfiles and monographs at major library storage facilities and selected campus locations. The Network and archiving program may be expanded to include prospective (i.e. current) collections in the future. Initial phases of the Network will proactively focus on journal backfiles, with a much less managed, optional process for retention and preservation of scarcely held monographs in member library collections.

Terms and Conditions
1. Participation and Governance
1.1. Participation: COPPUL member libraries (not including affiliate members) will be eligible to join the SPAN in its initial phase. In future phases of expansion, affiliate members of COPPUL, other academic libraries, research libraries, and library consortia serving the Western region of Canada may also be eligible to participate.

1.2. Term of commitment: In order to promote stability of the Network, participants agree to join for an initial five (5) year term. The initial term will be April 1, 2012 – March 31, 2017. The agreement renews automatically for another five year term.

1.3. Archive Holders: Participants that commit to retain materials under the SPAN program are known as Archive Holders. Once a participating library’s holdings have been analyzed through the SPAN program, the library is eligible to serve as an Archive Holder beginning in the following year.

1.4. Archive Builders: Participants that agree to proactively build archives by calling for, receiving, validating and ingesting holdings according to standards developed by SPAN are known as Archive Builders. Once an archive is built, the Archive Builder becomes an Archive Holder for the title.

1.5. Archive Supporters: Participants that support the stewardship of the scholarly record in the region but do not retain physical archives locally under the SPAN program are known as Archive Supporters.

1.6. Management Committee: The SPAN is a program of COPPUL. It is run by a Management Committee that oversees operation and development of the Network, works to integrate the Network with related archiving programs nationally and internationally, recommends solutions related to holdings disclosure and access/delivery, and develops and monitors a process to select titles for inclusion in the COPPUL SPAN archive. The Management Committee is composed of representatives...
from four (4) libraries participating in the Network, including representation from various sizes of libraries, more than one province, various areas of expertise (e.g. Library Director, Technical Services, Collections Management, etc.), and of Archive Holders, Builders, and Supporters. The COPPUL Executive Director will provide support to the Management Committee. At least one COPPUL Director will serve on the Committee in order to liaise with the COPPUL Directors. Management Committee members are appointed by the COPPUL Board of Directors and serve for staggered two year terms.

1.7. Administrative Host: Administrative Hosting, such as program management, member support, and fiscal agency, will be provided by COPPUL, through the COPPUL office. The COPPUL SPAN will function as a program of COPPUL, subject to approval by the COPPUL Board of Directors.

2. Archiving

2.1. Selection process: Decisions about which titles will be incorporated into the COPPUL SPAN and where they will be preserved are made via a periodic Collection Model administered by the SPAN Management Committee with support from the COPPUL office. Title sets will be routinely identified and prioritized by ongoing collection analysis. Titles may also be nominated for archiving by SPAN libraries. Journals will be categorized as Low-, Moderate-, or Higher-Risk based on their availability electronically, rarity, and relevance to the region (Western Canada).

2.2. Retention period: Archive Holders agree to maintain SPAN archives for retention periods specific to the archive type: Low-Risk, until December 31, 2022, Moderate-Risk, until December 31, 2036, and Higher-Risk, until December 31, 2036. These dates are known as the SPAN Retention Date and represent a period of 10 or 25 years from the beginning of the SPAN program. The Management Committee will review and may modify the SPAN Retention Date every five years if agreed upon by unanimous vote within the Committee. Retention commitments survive membership in SPAN.

2.3. Ownership: Participants will retain ownership of the materials for which they are the Archive Holder. Materials which are relocated to an Archive Holder will become property of the Archive Holder (preferably through a gift process). Archive Holders agree not to sell, discard, donate, or otherwise relinquish ownership or control of any of the archived materials prior to the Retention Date, except to transfer materials to another COPPUL SPAN Archive Holder or with permission of the Management Committee.

2.4. Withdrawn materials: Libraries that withdraw their own material (books or journals) to contribute to SPAN may wish to track those items as “withdrawn in lieu of storage” for their own reporting purposes. It is possible that these copies “withdrawn in lieu” may still be counted by some organizations (ARL, CARL, etc.) as part of their extended collection – even though they will be owned by the Archive Holder, they will be subject to shared management as a result of the SPAN agreement.

2.5. Contributing holdings: Participants agree to use their best efforts to contribute holdings in a timely manner via physical transfer of materials from local collections to complete the archived backfile held by any Archive Holder.

2.6. Archiving Facilities: Archive Holders agree to maintain SPAN materials in archival locations suitable for the archive type, as established by the Management Committee. Archiving facilities are defined to include 1) campus library shelving (for lower-risk items); 2) library locations with controlled access and appropriate environmental conditions; and 3) separate high-density library storage facilities (for rare and higher-risk items).
2.7. **Original Form.** Archive Holders agree to maintain all of the archived materials in their original, artifactual form whenever possible.

2.8. **Review of Materials (Validation):** Archive Builders agree to examine all newly-archived materials according to the requirements for the level of validation specified by the Management Committee for the archive type.

2.9. **Holdings disclosure:** Archive Holders agree to take all steps reasonably necessary to cause all of the archived materials, and information about their accessibility to potential users, to be registered in union catalogs and other applicable system(s) as established by SPAN disclosure policy.

2.10. **Access to the Materials:** Archive Holders agree to make the materials available to SPAN libraries and other institutions to which the Archive Holder lends materials in accordance with the applicable Interlibrary Loan policies and procedures of the Archive Holder as follows

2.10.1. **Reproductions:** Archive Holders agree to fulfill requests for photocopies/electronic delivery of any of the archived materials.

2.10.2. **Building Use Only:** Original materials may only be provided for onsite use at the Archive Holder library or at the requesting library.

3. **Financial Obligations**

3.1. **Financial Support to the COPPUL SPAN Program:** SPAN members agree to provide financial support to SPAN through payments to the Administrative Host as specified in an annual budget and cost-sharing formula developed by the SPAN Management Committee and approved by the COPPUL Directors.

3.2. **Financial Support to Archive Builders:** Archive Builders receive funding from the SPAN program to help support their services as Archive Builders if approved and budgeted by SPAN.

3.3. **Absorbed Costs:** SPAN libraries agree to be responsible for all of the costs and expenses associated with maintaining the materials, contributing holdings to other Archive Holders (including transportation costs), and deselecting materials from local collections.

4. **Withdrawal**

4.1. **Withdrawal of a COPPUL SPAN Member:** At any time after completion of its first five years of participation, a SPAN member may withdraw by providing written notice to the Management Committee at least twelve (12) months prior to its intended withdrawal date. The SPAN member must continue to pay any required participation fees during the 12-month notice period.

4.2. **Archive Holder Withdrawal:** If an Archive Holder withdraws from the COPPUL SPAN or can no longer maintain the materials, the Archive Holder agrees to offer the materials to another Archive Holder and to transfer any accepted materials to the Archive Holder at the initial Archive Holder’s expense. The Management Committee may waive this requirement if it determines that the materials no longer need to be archived.
Memorandum of Understanding
Distributed Print Repository
August 1, 2011

This Memorandum of Understanding (hereafter, “Agreement”) is entered into this 1st day of August in
the year 2011 (“Effective Date”), by the libraries at Iowa State University, the University of Iowa, and
the University of Wisconsin-Madison (“Partner Libraries”).

1. Scope

1.1. The Partner Libraries establish by this Agreement a distributed print repository (“DPR” or
“the Repository”) wherein each Partner Library commits to retaining in its collections a
single copy (“Repository Copy”) of specific printed research materials such as books and
journals (“Materials”), enabling the other Partner Libraries to withdraw their copies and rely
collectively on the shared Repository Copy.

1.2. Research Materials covered by this Agreement, and the specific retention responsibilities of
Partner Libraries, are documented in appendices to this Agreement. The initial focus of the
Repository is on printed backfiles of journals that are also available electronically, beginning
with titles from the following three publishers:

• American Chemical Society (Appendix A)
• Annual Reviews (Appendix B)
• Institute of Physics (Appendix C)

1.3. Repository Copies of journals should extend, whenever possible, from the beginning of the
publication run (e.g., vol. 1, no. 1) through calendar year 2005, or, if the title is published on
a split-year cycle, through publication year 2004-2005.

1.4. Repository Copies will be maintained in print format, rather than microform, compact disc,
electronic data, or other format. However, in cases where supplementary materials associated
with the print volumes were created in another medium, the supplementary materials will
form part of the Repository and will be maintained and stored in their original format.

2.1. The Repository is overseen collaboratively by designated staff (DPR “Contacts”) in the
Partner Libraries (see section 6 of the Agreement).

2.2. For each title in the Repository, DPR Contacts collaboratively assign retention responsibility
to a single library (the “Holding Library”), taking into account:

• Subject strengths of the Partner Libraries;
• The completeness and condition of the title in each Partner Library; and
• The desire to maintain some parity (over time) in the volume of material retained by
each Partner Library.

2.3. The Holding Library agrees to maintain its Repository Copies for the term specified in
section 3 of this Agreement.
2.4. Repository Copies are considered to be part of the Holding Library’s working research collection, and are subject to the Holding Library’s policies regarding access and use. Repository Copies may be housed in open or closed stacks, may circulate to some or all members of the Holding Library’s clientele, and may be eligible for interlibrary loan (including to non-Partner Libraries). However, regardless of the policies governing all other uses of this material, Partner Libraries have the right to:

2.4.1. Obtain from the Holding Library, free of charge, digitized articles/excerpts from Repository Copies—handled, whenever possible, by the Holding Library’s existing interlibrary loan service; and

2.4.2. Borrow from the Holding Library, in their original format, Repository Copies for short-term use at the Partner Library, in those cases when digital copies are insufficient or infeasible. Some restrictions (such as in-house use) may apply, as determined by the Holding Library. Again, whenever possible, this access will be provided via the Holding Library’s existing interlibrary loan service.

2.5. For any given title, Partner Libraries may choose to transfer volumes among themselves to create a complete journal run in a single Holding Library.

2.5.1. If volumes are transferred from a Partner Library to a Holding Library, the latter’s local catalog holdings should be revised and volumes should be re-marked as needed, to minimize confusion.

2.5.2. The previous paragraph (2.5.1) notwithstanding, volumes transferred in this manner are considered permanent loans between Partner Libraries, as opposed to transfers of ownership.

2.6. The Holding Library agrees to store Repository Copies in the best environmental and physical conditions it can reasonably offer.

2.7. The Holding Library determines the need for ongoing repair and conservation of the items constituting any Repository Copy, based on its own collection management and preservation objectives.

2.8. The Holding Library will document its retention responsibility for any given title in a manner that is clear, consistent, and readily available to staff involved in collection management.

2.9. If the Holding Library wishes to withdraw some or all of a Repository Copy prior to the conclusion of the Term of this Agreement, it will do so only with the approval of all Partner Libraries.

2.10. The Holding Library will apprise Partner Libraries as quickly as possible if a Repository Copy undergoes significant damage or loss.

2.11. The Holding Library is responsible for all of the costs and expenses associated with maintaining and providing access to Repository Copies housed in its local collections.
3. **Term**

3.1. The initial term (“Initial Term”) for which this Agreement will be in effect is twenty-five (25) years, commencing on the Effective Date of this Agreement and concluding on August 1, 2036.

3.2. A formal review of this Agreement and the Distributed Print Repository shall be conducted near the midpoint of the Initial Term, by February 1, 2024.

3.3. Following the Initial Term, this Agreement shall be eligible for renewal (“Renewal Term”) in five-year increments. For the purposes of this Agreement, “Term” shall be deemed to include the Initial Term and any Renewal Term(s).

4. **Amendment**

4.1. This Agreement may be amended in whole or in part at any time by mutual agreement of the directors at the Partner Libraries (“Signatories;” see section 7 of the Agreement).

5. **Termination:** This Agreement is subject to termination as provided below.

5.1. Termination by mutual consent. This Agreement may be terminated at any time upon the mutual consent of the Partner Libraries.

5.2. Notice of termination. Notice of termination of this Agreement, by any Partner Library, shall be made in writing to the Signatories of this Agreement or their designated proxies.

5.3. Effect of termination. If a Partner Library terminates its participation in the Repository program, it will exercise, on a title-by-title basis, one of the following two options to ensure that the remaining Partner Libraries have ongoing access to all Repository Copies:

5.3.1. Either the terminating Partner Library will retain a Repository Copy in its local collections, and continue to provide the level of shared access described in section 2.4 of this Agreement; or

5.3.2. The terminating Partner Library will arrange for a Repository Copy to be transferred to one of the remaining Partner Libraries.

APPENDIX A: Journals in the American Chemical Society (ACS) backfile

Project finalized: August 1, 2011
Detailed project records maintained by: Iowa State University Library

This agreement covers the backfiles of the following journals published by the American Chemical Society (ACS), electronic versions of which are preserved in Portico. The list is arranged alphabetically by journal title. If the title has changed, earlier titles are shaded and precede the final version of the title, with a note (“Continued by,” etc.). See detailed project records for the specific years/volumes covered by this agreement.

Maine Shared Collections Cooperative (MSCC) Memorandum of Understanding

May 23, 2013

The Maine Shared Collections goal as set forth in this MOU is to provide new options for sharing the costs and effort of long term retention of low use library materials. The following MOU provides a mechanism by which the materials designated under this agreement will be retained and made available to participating institutions and the library users of Maine as long as the need for them exists, thereby allowing participating libraries to consider withdrawing duplicates of these items from their respective collections and to rely with confidence on access to the retained copies.

The agreement will use a distributed model, which may include local libraries and remote storage facilities.

1. Participation
   1.1 Founding participants: The original participants in Maine Shared Collections Cooperative (MSCC) are: Bangor Public Library, Bates College, Bowdoin College, Colby College, Maine InfoNet, Maine State Library, Portland Public Library, University of Maine, University of Southern Maine.

   1.2 Members: All libraries in Maine may apply to join the program beginning in 2015.

   1.3 Membership Term: Members agree to join the MSCC for an initial term of 3 years.

   1.4 Annual Membership Meeting: A membership meeting will be held each year, to update participants on the status of the program, solicit feedback on future developments, etc.

   1.5 Collection Holders: Collection Holders are those members who agree to retain materials as part of the MSCC.

   1.6 Collection Builders: Collection Builders are those Collection Holders who agree to ingest and validate retained materials.

   1.7 Supporting Members: Supporting members will pay membership fees in exchange for ensured access to retained materials.

2. Governance

   2.1 Memorandum of Understanding: The Cooperative shall be governed by a Memorandum of Understanding signed by all participating libraries.

   2.2 Executive Committee: The Board of Directors of the Cooperative is composed of 5 members of the Maine InfoNet Board who represent constituencies that are participants in the Cooperative. The Board of Directors shall be selected by the Maine InfoNet Board Executive Committee. Public universities, private non-profit colleges, the State Library, and public libraries must each be represented on the Executive Committee of the Cooperative. The remaining position can represent any participant constituency.
2.3 Collections and Operations Committee: The program's Collections and Operations Committee will oversee issues related to the selection of materials for retention, as well as issues related to holdings disclosure and access/delivery. Members are appointed by and serve for terms determined by the Executive Committee.

2.4 Administrative Host: Administrative hosting, such as program management and member support, will be provided under the auspices of the Maine InfoNet Collaborative.

2.5 Membership Fees: The Executive Committee is authorized to set membership fees.

3. Duration of agreement, retention period
3.1 Duration: Libraries agree to retain materials from 15 years of date of signing. The memorandum of understanding and the retention commitment will be reviewed at least once every five years.

3.2 Modification/Amendment: This agreement can be modified or amended with the approval of 2/3 of the Executive Committee.

4. Selection and identification of retained materials
4.1 Selection: During the initial three-year term, monographs and journals will be selected for retention. After the initial term, other materials may be selected for retention. The Collections and Operations Committee will identify materials to be retained based on a collection analysis.

4.2 Holdings disclosure: Collection Holders will take all steps to ensure that the retention commitment is displayed in local and union catalogs and other applicable systems as established in the MSCC disclosure policy.

5. Retention facilities
Collection Holders agree to maintain MSCC materials in locations suitable for the materials as established by the Collections and Operations Committee. Items to be retained under this agreement may be housed in remote storage facilities, closed/secured stacks, or open (public) stacks.

6. Ownership and Maintenance of Retained Materials
6.1 Ownership: Libraries will retain ownership of the titles for which they are a Collection Holder. A library may donate materials to another library for retention. Materials which are relocated to a Collection Builder will become property of the Collection Builder (if allowed by state laws and regulations). Collection Holders agree not to sell, discard, donate, or otherwise relinquish ownership or control of any of the archived materials prior to the Retention Date, except to transfer materials to a Collection Builder or with permission of the Collections and Operations Committee.

6.2 Duplicate materials: Members may retain or withdraw duplicate copies of titles retained by a Collection Holder. No library is required to discard any materials.

6.3 Lost or damaged materials: Libraries are expected to follow their usual workflows and procedures for identifying, repairing, and replacing retained materials. Original artifactual copies are always preferred, but facsimiles are acceptable when necessary.

7. Financial obligations
7.1 Financial Support to the MSCC: Members agree to provide financial support to MSCC through
payments to the Administrative Host as specified in an annual budget and cost-sharing formula developed by the MSCC Executive Committee and approved by the MSCC membership.

7.2 Financial Support to Collection Builders: Collection Builders may receive funding from the MSCC program to help support their activities as Collection Builders if approved and budgeted by the subgroup of the Maine InfoNet Board of Directors.

7.3 Absorbed Costs: Members agree to be responsible for all of the costs and expenses associated with maintaining the materials, contributing holdings to CollectionBuilders, and deselecting materials from local collections.

8. Access to the materials
Retained materials are subject to the circulation and Interlibrary Loan policies of the Collection Holder.

9. Withdrawal: If a participating library opts to withdraw from this agreement, it must provide written notice to the Executive Committee a minimum of one year prior to withdrawing. If a Collection Holder is no longer able to retain the materials, the library may offer the materials to another library for retention.

A waiver of the one-year term may be granted by the Executive Committee in certain instances, such as a disaster, financial exigency, or institutional mandate.

[Print Name]
MOU for Michigan Shared Print Initiative (MI-SPI) Participants

Project Goals
The project has two distinct goals:
First, to responsibly reduce the size of local print collections by reducing duplication of low circulating titles among the participating libraries so that library space may be freed up for other uses.
Second, to create and maintain a distributed, shared collection of these identified monograph titles to ensure that circulating copies of them are retained within the group, readily accessible to group participants and other Michigan libraries.

Guiding Principles
Participant libraries are committed to work together collaboratively to meet the Project Goals above for a minimum of 15 years (with options for review, renewal and dissolution as outlined below). We recognize that some of the specifics of this collaboration including the number of print titles covered, the participating libraries involved and details of responsibilities are likely to change over time and that adjustments will be desirable.

The MOU commitment is to work in consultation with each other for 15 years to responsibly, collaboratively and transparently manage the shared print collection that is a result of our joint withdrawal and retention actions.

Duration of agreement
Libraries agree to work together collaboratively to meet the two Project Goals of the Michigan Shared Print Initiative for a minimum of 15 years from the start of the original agreement unless this agreement is dissolved or superseded by the mutual agreement of a simple majority of the participants. The length of this agreement may be extended at the end of the original period by mutual agreement of the group.

Review of the agreement, its terms and implications will occur at no less than three (3) year intervals, or when a request is supported by a simple majority of full participant libraries.

Release from agreement terms
An individual institution may be released from the agreement for reasons beyond the library’s control such as a disaster, financial exigency, or a university mandate.

Should an institution need to withdraw from the group, that library is expected to work in good faith with the remaining participants to address the resultant implications. This is expected to include providing ample written notice of withdrawal (six months where possible), supplying the library’s retention list and identifying redistribution options among the remaining group members.
Michigan Shared Print Initiative
MOU Consideration
May 9, 2012

Role of MCLS
MCLS will act as the agent for this project in ways that facilitate its success such as monitoring the project, coordinating communication among participant libraries, communicating with Sustainable Collection Services LLC (SCS) on behalf of the project, communicating with potential new participant libraries, bringing the group together for annual meetings and at other times as needed.

Participant Libraries
Participation is open to Michigan state-supported academic libraries that are members of the Michigan Council of Library Directors (COLD) group. Any COLD member library that retains part of the shared print collection (designated by a recognized title retention list) is a full participant library with all the responsibilities and rights outlined in this MOU. The original participant libraries commit to the project for its full term; others will join the project in progress for the remainder of the agreement.

1. Current participants
   Central Michigan University\hspace{1em}Eastern Michigan University
   Grand Valley State University\hspace{1em}Michigan Technological University
   Saginaw Valley State University\hspace{1em}Wayne State University
   Western Michigan University

2. Addition of new participant libraries
   Generally new participant libraries will be added at a data refresh. Libraries that match their holdings against the shared collection prior to a refresh are required to contribute their library holdings at the next data refresh. When those libraries receive their retention lists and assume responsibility for retention titles in the shared collection they become full participants in the shared collection. Full participant libraries may vote on issues relating to the MOU and the shared collection. Prior to that, representatives may attend meetings as nonvoting delegates.

Description and Maintenance of the Shared Print Collection
This agreement covers a set of 736,236 retention titles identified by criteria developed in the 2011-12 Sustainable Collection Services LLC (SCS) deselection project.

This agreement excludes library materials not specifically contained on retention lists or allocated withdrawal lists developed during the project. Examples of library materials not covered by the agreement include but are not limited to: uniquely held items, items added to the collection after 2005, items published after 2005, items other than circulating monographs, items where circulation exceeds the minimum level (3) at participating libraries.

1. Ownership and location of resources
   Two print copies of each withdrawn title will be retained in a shared print collection distributed among the participant libraries. The two copies will be maintained at two separate designated participant libraries that already own and have recorded holdings of the title. Libraries will maintain ownership of their designated retention titles. Retention titles will be housed in facilities operated or shared by the owning library at the expense of that library.
Michigan Shared Print Initiative
MOU Consideration
May 9, 2012

2. Maintenance of the shared collection
Each library will use their best effort to maintain, house, preserve, and make available the titles on its respective retention list for the duration of this agreement.

Libraries will not be held accountable for regular inventorying of their retention titles but are encouraged to do this when possible as a best practice.

3. Protection of retention list titles
Each library is expected to take appropriate local steps to protect their retention titles from discard. Participant libraries will work toward adopting an agreed on standardized bibliographic identification (e.g. to MARC 583 http://www.loc.gov/marc/bibliographic/bd583.html) to retention items in their collections. The aim is to facilitate data refresh and also to create the potential for all participants to identify retention items in MeLCat or alternative shared discovery system.

4. Retention facilities, maintenance requirements, physical handling
Libraries are expected to treat retention titles with the same or better care as other materials in their collections as regards physical handling, circulation, repairs and restoration.

5. Circulation
Both of the retention copies are expected to circulate. No effort will be made to identify and monitor a preservation copy.

All titles will be searchable in MeLCat and able to be requested through RIDES delivery service.

The shared titles will circulate locally according to each library policy and will follow the standard ILL practices of each institution for lending to other libraries.

6. Damaged, lost, missing and replacement copies
Libraries are expected to follow their usual workflows and procedures for identifying, repairing and replacing retention list titles. They will make a good faith effort to respond to badly damaged (unloanable) or lost titles in a way that displays sound judgment in the context of the particular title and its availability to other libraries in the state.
For example where titles are available in other libraries in the state (or widely available nationally) it may not be necessary or prudent to replace them given the low circulating history of these titles.
Some suggested decision guidelines are provided in an Appendix to this document.

7. New editions
Libraries may follow their usual workflows and procedures with respect to new editions of retention list titles. Where it is general practice for a library to replace a title with the most recent edition this procedure may be followed even where the older edition is on a library’s retention list.
Michigan Shared Print Initiative
MOU Consideration
May 9, 2012

8. Notification about non-replacement or discard of retention titles
   If a participating library knowingly elects not to replace a lost or badly damaged retention list title or if it replaces a retention title with a later edition it must notify the other participant libraries through an agreed standard notification mechanism. This will allow other participants, or the group as a whole to determine if they want to take further replacement actions. It also provides a mechanism by which the group can monitor and assess losses to the shared collection.

9. Data refresh
   Libraries may choose to take part in a data refresh with updated circulation data and additional libraries’ holdings at regular intervals (anticipated every 3-5 years). Data refresh will provide additional withdrawal opportunities and extend the shared collection. It may also provide opportunities to redistribute retention loads.

   Participant libraries will not be required to refresh their data. If a library elects not to refresh they will not be held responsible for retaining additional titles. They will remain responsible for their existing retention titles unless notified that the refresh has resulted in the removal of titles from their retention list.

   Sustainable Collection Services LLC (SCS) proposal for MCLS dated August 4, 2011
   Suggested damaged/lost/missing decision guidelines.
MedPrint - Medical Serials Print Preservation Program

Instructions
The National Network of Libraries of Medicine (NN/LM) and the National Library of Medicine (NLM) are working to ensure the preservation of and continued access to the literature through a national cooperative medical serials print retention program, MedPrint.

Review
Review program details and agreement to determine if your institution will participate in the MedPrint Program.

Preparation
1. Identify titles which your organization will commit to retain under the MedPrint program agreement.
   a. Update holdings in DOCLINE for each title.
   b. Verify that holding statements are accurate.
2. Indicate commitment to retain for national print retention, MedPrint.
3. After editing all titles, run your library’s National Print Retention Titles report in DOCLINE (Serial Holdings/Reports/Create Report).

Participation
4. Sign the following agreement or obtain signature of authorizing party.
5. Attach a print-out of your library’s National Print Retention Titles report.
6. Mail original signed document and National Print Retention Titles report to:

   Martha Fishel
   National Library of Medicine
   Bldg 38 / Room 1533
   8600 Rockville Pike
   Bethesda, MD 20894
MedPrint - Medical Serials Print Preservation Program Agreement

This document establishes the terms of agreement to be entered into by the National Library of Medicine (NLM) and member libraries in the National Network of Libraries of Medicine (NN/LM) that opt to participate in MedPrint, the Medical Serials Print Preservation Program.

The purpose of the program is to preserve important biomedical journals published in print form and to ensure continued access to the literature, as space limitations and reduced budgets impact libraries’ ability to retain all of their materials. The goal is to retain a minimum of thirteen copies in libraries geographically distributed throughout the U.S, including the copy held by the National Library of Medicine. Initially, the program will include approximately 250 serial titles listed in Abridged Index Medicus and titles in PubMed Central that have been digitized by the National Library of Medicine. Additional titles may be selected for inclusion in the future. Participating libraries may select any titles from the MedPrint list available from NLM at the following location:

This is a voluntary national cooperative program. Funding will not be provided to help libraries maintain or store the titles they commit to retain.

Period of Agreement

Libraries agree to retain titles for a period up to twenty-five years, subject to renewal. This agreement goes into effect once signed by both parties and ends September 30, 2036.

Requirements for participation

1. U.S. libraries that are DOCLINE participants are eligible to serve as MedPrint Partners.
2. Libraries must hold the titles that they agree to retain from the first published volume until the title ceased in print or, if still published in print, at least until the year 2000. Libraries are not required to commit to the preceding or succeeding titles. For example, a library may elect to retain American Journal of Obstetrics and Gynecology (1920-), but not American Journal of Obstetrics and Diseases of Women and Children (1868-1919).
3. Complete holdings are preferred, but a title may be included in the program if the library’s holdings are 95% complete.

The National Library of Medicine agrees to:

1. Provide general oversight for the program.
2. Monitor MedPrint commitments recorded in DOCLINE and provide commitment status reports to participating libraries.
3. Permanently retain print copies of all MedPrint titles that NLM owns.
4. Collaborate with OCLC to develop the capability to exchange print retention information between WorldCat and DOCLINE.
NN/LM Regional Medical Libraries (RML) agree to:

1. Publicize the program and solicit participation from libraries in their regions.
2. Manage and monitor participation to ensure to the extent possible that all MedPrint titles are preserved in each region.
3. Attempt to find replacement libraries to assume responsibility in the event that a participating library can no longer keep its MedPrint retention commitments.

Participating MedPrint libraries agree to:

1. Retain their MedPrint titles in original print format until September 30, 2036.
2. Validate holdings
   a. Verify holdings of each MedPrint title are at least 95% complete at the volume level.
   b. Verify that in addition to the articles, their MedPrint volumes contain covers, tables of contents, administrative matter, advertisements and supplements.
   c. Verify that volumes are in usable condition.
3. Maintain records in DOCLINE
   a. Enter accurate holdings of MedPrint titles, showing gaps at the volume level for each bibliographic record.
   b. Indicate commitment to national retention program for each title.
   c. Review the holdings for accuracy annually.
4. Preserve MedPrint volumes
   a. House MedPrint volumes in facilities that maintain moderate and stable levels of temperature and relative humidity (ideally, 65°F-72°F and 30-50% RH).
   b. Protect MedPrint collections with fire suppression, smoke detection and building security systems. A written collection disaster response and recovery plan is recommended.
5. Allow its holdings information for MedPrint titles to be exported from DOCLINE for display in other print retention registries and databases.
6. Provide access to MedPrint titles to onsite patrons and interlibrary loan requestors.

Termination of Agreement

Participating libraries will notify NLM immediately in the event that they are no longer able to meet the terms of this agreement. The National Library of Medicine may terminate this agreement at any time if parties fail to meet requirements or if program goals change.
PALCI Distributed Print Archive

Archive Holder Agreement

This Agreement is entered into this _____ day of __________ in the year _____ (“Effective Date”), between PALCI: The Pennsylvania Academic Library Consortium, Inc., a not-for-profit corporation (“PALCI”), and ____________________, a member library of PALCI that wishes to act as archive holder of various print research materials (“Archive Holder”).

Scope

A. PALCI is an organization whose members are libraries. Among other endeavors, PALCI established a distributed print serials archive in 2009, in which certain members agreed to retain and keep available for use various print journals on behalf of PALCI and its member libraries. PALCI and its members now wish to extend the original endeavor to include additional print research materials (“Research Materials” or “Materials”).

B. Archive Holder is a member of PALCI and is willing to maintain and store the Materials for the benefit of PALCI and its members according to the terms and provisions contained in this Agreement. Archive Holder currently owns the Research Materials listed in Appendix A, “Titles of Record Holdings,” for which it is known as a Library of Record under this Agreement. PALCI has caused to be delivered to Archive Holder the research materials listed in Appendix B, “Transferred Materials.” The materials listed in Appendices A and B may be amended, from time to time, with the mutual agreement of PALCI and Archive Holder. The titles listed in Appendices A and B together comprises “the Materials.”

Terms and Provisions

The parties agree as follows:

1. Storage Obligations of Archive Holder

Archive Holder agrees to maintain, store, and make available the Materials during the Term as defined in Section 7 below.

1.1 Original Form. Archive Holder shall maintain all the Materials in their original, artifactual form whenever possible. If necessary, because of damage to or loss of any of the original Materials, a hard copy facsimile may be used to fill in gaps.

1.2 Facility. Archive Holder shall maintain all the materials in a facility located at __________________ (“Facility”), under the conditions indicated below (check all that apply):
1.3 Cost. Archive Holder will be responsible for costs and expenses associated with maintaining, preserving, and providing access to the Materials in accordance with this Agreement.

1.4 Cataloging record. Archive Holder will take the necessary steps to provide complete, accurate, and up-to-date cataloging about the Materials and their accessibility to patrons and users. This information will be included in the Archive Holder’s local catalog, maintained on the PALCI website with the Archive Holder keeping PALCI staff informed of changes to the information, and in OCLC WorldCat. Archive Holder acknowledges the Materials maintained under this Agreement may also be disclosed in external databases or catalogs, e.g. PAPR, by PALCI staff.

2. Environmental and physical conditions

Archive Holder shall store the Materials in the Facility in the best environmental and physical conditions the Archive Holder can reasonably offer, identical to the conditions maintained for other similar materials held by the Archive Holder.

3. Maintenance and physical handling

3.1 Review of materials. For materials already held in the Archive Holder’s collection, Archive Holder acknowledges it has performed a review of the Materials and validates their completeness and the accuracy of holdings information in the Archive Holder’s catalog and on record with PALCI. For materials transferred to Archive Holder, Archive Holder will document the actual holdings received, add those holdings to their catalog, and confirm the records with PALCI are accurate.

3.2 Physical handling. Archive Holder agrees physical handling of the Materials is limited to in-library use.

3.3 Repairs and restorations. Archive Holder shall perform such repairs and/or restorations to the Materials as are possible and necessary to maintain the integrity of the original artifacts.
3.4 **Damage or loss.** Archive Holder shall notify PALCI promptly upon its becoming aware of any irreparable damage, deterioration, or loss to any of the Materials. Cataloging information regarding holdings and access to the Materials shall be updated promptly as necessary.

3.5 **Replacement copies.** Archive Holder shall use reasonable efforts to obtain, either independently or in cooperation with PALCI, replacement copies of any Materials lost or damaged. Original artifactual copies are always preferred, but facsimiles are acceptable when necessary.

3.6 **Physical markings and bibliographic identifiers**

- **Transferred materials.** As soon as possible after the Archive Holder obtains possession of the Transferred Materials, it shall eradicate, remove, or cover over markings of previous owners, e.g., bookplates, ownership stamps, call numbers, and barcodes, for clear recognition of the new owner of the Materials and in a manner not damaging to the Materials.

4. **Access and use**

**Access to originals.** The Materials may be made available for on-site use or on-site photocopying according to Archive Holder’s applicable policies. The Materials may be available via interlibrary loan (as noted in paragraph 1.2 above), with the requirement the Materials must be used on-site at borrowing library’s facility.

**Access to reproductions.** Requests for photocopies/electronic delivery of any of the Material will be filled in accordance with the applicable policies of Archive Holder, PALCI, and borrowing library.

5. **Ownership**

Archive Holder acknowledges and agrees

- **Transferred Materials shall become property of the Archive Holder upon transfer.**

Archive Holder shall retain ownership and title to the Materials. Archive Holder shall not sell, discard, donate, or otherwise relinquish ownership or control of any of the Materials without written permission from PALCI.

**Future restrictions**

When and if PALCI notifies Archive Holder the originals of any of the Materials merit greater restrictions, PALCI and Archive Holder agree to negotiate in good faith what those restrictions shall be including, but not limited to, restrictions to access and use, environmental and physical conditions, and maintenance and handling.
7. **Term**

This Agreement shall be for a term of twenty-five (25) years (the “Initial Term”) commencing on the Effective Date of this Agreement. This Agreement is subject to earlier termination as provided below. During the Initial Term, a periodic review of this Agreement and the PALCI Distributed Print Archive shall be conducted at five (5) year intervals.

Following the Initial Term, this Agreement shall automatically renew for additional five (5) year periods (“Renewal Terms”) unless either party provides written notice to the other party at least one (1) year prior to the conclusion of the then-current Term.

7.1 **Termination by agreement.** This Agreement may be terminated in whole or in part at any time upon the mutual agreement of Archive Holder and PALCI.

7.2 **Effect of termination.** If Archive Holder withdraws from PALCI or can no longer perform the requirements of this Agreement, a good faith effort will be made to place the Materials with another Archive Holder.

8. **Amendment**

This Agreement may be amended in whole or in part at any time by mutual agreement of PALCI and Archive Holder.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the date first written above.

**PALCI: The Pennsylvania Academic Library Consortium, Inc.**

NAME
APPENDIX A: The Titles of Record Holdings

Appendix A titles are those that PALCI Archive Holder has agreed to preserve in accordance with this Agreement on behalf of PALCI and its members. For each title listed, this Archive Holder has been assigned as a Library of Record and in the case of serials will retain a complete print run of the Material as possible.

TRLN Single Copy Program
Memorandum of Understanding

This Single Copy Memorandum of Understanding (“MOU”) is entered into by and among the four member institutions of the Triangle Research Libraries Network (TRLN): Duke University, North Carolina Central University, North Carolina State University and the University of North Carolina at Chapel Hill (“Participating Institutions”), and shall be effective from September 1, 2008 until terminated in writing by the Participating Institutions.

Whereas, the Participating Institutions seek to enter into an agreement to conserve valuable library resources and support service to all patrons of the Participating Institutions by reducing unwanted duplication of, and the duplicative effort and long-term costs to shelve and care for, print materials that are not often used but have enduring value;

Whereas, the Participating Institutions seek to create a shared collection of selected print materials (“Single Copy Program”) that may be more complete than any of our separate collections,

Whereas, the Participating Institutions seek to ensure long term access to a shared collection by designating selected print materials for permanent retention.

NOW, THEREFORE, in order to enact these goals by creating a Single Copy Program, the Participating Institutions enter into the following agreement that outlines the rights and obligations of the Participating Institutions and provides a framework to guide development of procedures:

A. Any of the libraries of the Participating Institutions may identify and offer their materials for inclusion in the Single Copy Program (“the Materials”). Processing of materials offered by a library for the Single Copy Program shall be carried out by the TRLN Single Copy Operations Committee (with a representative from each separately administered TRLN library for communication purposes) under the direction of the TRLN Collections Council. Materials included in the Single Copy Program shall remain the property of the library that deposits the actual copy of the work into the Single Copy Program.

B. Libraries of the Participating Institutions hereby agree to the following service standard: To the extent practicable, access to Materials shall be reciprocal, perpetual (subject to paragraph H below) and equal for all faculty, staff and students of the Participating Institutions. Patrons of each participating institution will be treated as patrons of the owning institution, consistent with TRLN practice, for purposes of access to the materials subject to this agreement. When Materials enter the Single Copy Program, they retain their existing circulation and loan status as defined by the contributing library.

Within TRLN, borrowing and lending of the Materials will be in accordance with the “Memorandum of Understanding Concerning TRLN Interlibrary and Document Delivery Services.”
C. Libraries of the Participating Institutions shall cooperate in selecting the storage facilities for the Materials, and may agree to store the Materials in more than one location. Accessible campus library shelving is an acceptable storage location. Regarding processing and providing access to the Materials, this MOU does not supersede any existing or future storage agreement between Participating Institutions. The mere fact that materials are moved to a storage facility shall not enter them into the program. Materials in the Single Copy Program will be only those that are identified as Single Copy by the contributing library and documented by the Single Copy Operations Committee according to its established procedures.

D. Volumes designated for the Single Copy Program are not subject to page-by-page collation and the Single Copy Program is not creating a print archive of last resort. However, libraries contributing volumes should review them for completeness of content and easily observed damage before contributing them.

E. Libraries will cooperate on cataloging procedures for the Single Copy Program to ensure uniformity in documenting the status of titles and presentation in the TRLN union catalog or other registries.

F. Each library shall be responsible for all costs and expenses it incurs in selecting Materials for the Single Copy Program and shall be responsible for all costs incurred in storing, preserving and servicing the Materials it deposits into the Single Copy Program.

G. The Single Copy Operations Committee, under the direction of the Collections Council, will cooperatively agree upon assessment methods for the Single Copy Program, and collect and store statistics about titles entering the Program.

H. To the extent permitted by North Carolina Law, a library may withdraw any item from the Materials only if an authorized representative from each Participating Institution, consulting with appropriate campus entities, approves of the withdrawal in writing. Such approval shall not be unreasonably withheld.

I. Each library shall retain the right to withdraw from its collection, any work(s) that is duplicative of Materials in the Single Copy Program or any work(s) that has not been designated for inclusion in the Single Copy Program. Similarly, each library retains the right to keep or store in its collection any work(s) that is duplicative of Materials in the Single Copy Program, subject to independent campus or facility-based non-duplication policies which this MOU does not interfere with or supersede.

J. Risk of Loss -- In the event that material deposited in the Single Copy program in accordance with this agreement is damaged or lost, the depositing library shall use reasonable efforts to repair or replace the damaged or lost material. The depositing library may secure agreement from partner libraries not to replace damaged or lost material in the event that replacement copies are either unavailable or electronic archiving solutions are deemed sufficient for those volumes.

---

1 See Appendix A for a listing of existing cooperative storage agreements within TRLN.
K. Dispute Resolution: In the event any dispute or controversy arising out of or relating to this agreement, the parties agree to exercise reasonable efforts to resolve the dispute as soon as possible. The parties shall, without delay, continue to perform their respective obligations under this agreement that are not affected by the dispute.
Appendix A: Cooperative Storage Agreements within TRLN

Storage Agreement executed by Duke University and the University of North Carolina at Chapel Hill, December 22, 2006 for space in Module 2 of the Library Services Center (LSC).
Memorandum of Understanding (MOU)
Concerning the FLorida Academic REpository (FLARE)

[DRAFT - August 22, 2012]

This Memorandum of Understanding is by and between the members of the Council of State University Libraries (CSUL). The CSUL goal as set forth in this MOU is to provide new options for sharing the costs and effort of long term retention of low use library materials. The following MOU provides a mechanism by which the materials designated under this agreement will be retained and made available as long as the need for them exists, thereby allowing participants to consider withdrawing duplicates of these items from their campus collections and to rely with confidence on access to the retained copies. The collective name for materials designated in this MOU shall be the FLorida Academic REpository (FLARE). The FLARE will be housed in an upcoming environmentally controlled, carefully inventoried and secure high density facility (HDF) located in Gainesville, operated by the George A. Smathers Libraries at the University of Florida (UF). Policies for the operation of the FLARE are available at http://csul.net/node/774. The parties to this MOU agree to these policies.

1. PARTICIPATION
   a. The Original Participants in the FLARE are the 11 institutions in the State University System (SUS) in Florida on behalf of the CSUL.
   b. The Designated Representatives of the Original Participants shall be the CSUL Deans and Directors who are listed on Exhibit A to this MOU. Exhibit A, which is incorporated into this MOU and made a part hereof, also includes the notice provisions to this MOU.
   c. When this MOU indicates that approval of the CSUL Deans and Directors is required, it shall mean the approval of a two-thirds (2/3) majority of the CSUL Deans and Directors.
   d. With the approval of the CSUL Deans and Directors, libraries outside the SUS may participate in the FLARE by agreeing to the terms of this MOU and the policies for the operation of the FLARE. Such agreement shall be memorialized by signing a copy of this MOU.
   e. The institutional signatories to this MOU shall be known as the Participating Libraries. The term Participating Library shall mean all libraries at each institution that signs this MOU. For the members of the CSUL, the Designated Representatives of the Participating Libraries shall be the CSUL Deans and Directors. A library outside of the SUS that is a Participating Library shall identify a Designated Representative when signing a copy of this MOU.
   f. When this MOU indicates that approval of the Participating Libraries is required, it shall mean the approval of a two-thirds (2/3) majority of the Designated Representatives of the Participating Libraries.

2. GOVERNANCE
   a. The Statewide Storage Task Force (SSTF), charged and in operation since 2008, will continue to serve as a policy drafting body. One representative from each Participating Library shall serve on the SSTF.
b. All policies drafted by the SSTF are subject to approval by the Deans and Directors of the Participating Libraries. This process may include an intermediate review by the relevant CSUL committees.

c. The HDF will be owned and managed by UF. The FLARE program will be managed by UF on behalf of the Participating Libraries as set forth in this MOU.

3. ANNUAL ASSESSMENT

a. Operational costs for the FLARE will be borne by the Participating Libraries via an annual assessment payable to UF on behalf of FLARE. The assessment will be apportioned based on the prior year student FTE for all Participating Libraries as calculated and reported to the United States National Center for Education Statistics Academic Libraries Survey. Payment shall be made within 30 calendar days of the date of the assessment by UF.

b. This formula may be changed or alternative funding models established with the approval of the Participating Libraries, in consultation with the SSTF and in concurrence with UF.

c. The annual assessments will commence with receipt of a certificate of occupancy for the HDF.

4. OWNERSHIP OF DEPOSITED MATERIALS

a. Ownership of deposited materials is irrevocably transferred to UF on behalf of the FLARE. Deposited materials will become part of the FLARE collection.

b. Materials sent for deposit in the FLARE by any Participating Library are considered permanent transfers.

c. All risk of transfer of the materials from the originating library rests with the originating library until receipt by UF on behalf of the FLARE. The originating library acknowledges that it has title to the transferred materials and is authorized to transfer title to the FLARE.

5. DUPLICATE MATERIALS

a. Only one copy of a periodical, serial, edition of a monograph or title as a microform will be accepted into the FLARE, unless an exception is recommended by the SSTF and approved by the Participating Libraries.

6. SELECTION OF MATERIALS FOR THE FLARE

a. The FLARE may contain print materials, such as monographs, journals, maps and photographs, as well as microforms, manuscript and archival materials, and video and audio recordings.

b. Each Participating Library selects the materials it contributes to the FLARE, provided such materials comply with this MOU and the related policies.

c. Titles and holdings information about FLARE materials shall be made freely and easily available via the online public access catalogs of the SUS libraries, including the union catalog, as well as by entry in OCLC.

7. ACCESS TO MATERIALS IN THE FLARE

a. Requests for FLARE materials may be made via the CSUL Unmediated Borrowing (UBorrow) system or traditional Interlibrary Loan (ILL). UBorrow shall be the preferred mechanism for requesting loans.

b. FLARE items may be loaned to any Participating Library and that library has responsibility for the item from the time it leaves the HDF until it has been returned to and received by the HDF. If damage or loss occurs, the Participating
Library shall provide compensation or replacement, in accordance with established FLARE policies and the judgment of UF as the manager of the collection on behalf of the Participating Libraries.

c. A limited-access on site reading room will be available by appointment at the HDF to allow for consultation of large quantities of FLARE materials. Notice of one business day is required to allow retrieval of requested material.

d. Recommended policies for ILL to Libraries that are not Participating Libraries will be developed by the SSTF. It is expected that these policies will support common ILL practices, but may restrict borrowing of bound journals and other parts of the FLARE collection to Participating Libraries.

8. WITHDRAWAL OF MATERIALS FROM THE FLARE
a. It is the intention of the Participating Libraries that this be a permanent collection.

b. In the long term, as other regional and national storage partners are identified, the possibility exists that materials may be withdrawn from the FLARE that are duplicated by these other consortial facilities with whom the Participating Libraries through the FLARE have a formal agreement. The Participating Libraries shall approve withdrawals for these or any other circumstances.

9. REVISIONS
a. This MOU may be revised by two-thirds (2/3) of the Participating Libraries in consultation with the SSTF and in concurrence with UF.

10. TERMINATION
a. HDF was authorized by the Board of Governors of the State University System (SUS) at the request of the SUS institutions for the benefit of the SUS Libraries. Therefore, the SUS Libraries are permanent participants in the FLARE and in the HDF by virtue of their status in the SUS.

b. Any Participating Library not part of an SUS institution desiring to terminate its involvement in this MOU may give written notice to the UF Designated Representative at least 6 months prior to the beginning of the next fiscal year. Any such termination shall be effective only if the party desiring termination has fulfilled all of its obligations under this MOU as of the effective date of termination. Ownership of materials deposited into the FLARE will survive termination as required by Sections 4.a and 4.b. Continued access to the collection and related metadata will survive termination and be governed by Sections 6.c and 7.d or by a separate agreement with UF on behalf of the Participating Libraries.

11. MISCELLANEOUS
a. This MOU shall be governed by and construed in accordance with the laws of the State of Florida exclusive of its conflict of laws provisions.

b. The originating library releases UF and the FLARE for any liability with regard to possession, use or loan of the materials.

Approved and agreed to by:

[Acknowledged by each Library Dean/Director: Approved by each Provost:]

Western Regional Storage Trust
Member Agreement

This agreement, entered into between the University of California Regents on behalf of the California Digital Library ("CDL") and ____________________________________________ ("Member") will become effective upon execution by both parties, and remain in full force and effect until December 31, 2013. Thereafter, this Agreement shall automatically renew on an annual basis, unless either party provides 365 days advance notice in writing. The parties agree that scanned versions of this originally executed agreement are acceptable in lieu of originally signed copies and are to be given full force and effect under law.

The Western Regional Storage Trust ("WEST") is a distributed print repository program. This agreement describes CDL and Member responsibilities arising from the WEST Program:

1) CDL will make all commercially reasonable efforts to execute the responsibilities of the Administrative Host as described in the WEST Program Statement as amended from time to time by the WEST Executive Committee, the current version of which is incorporated herein as Attachment 1.

2) Member, and its consortial constituents as enumerated in Attachment 3 if Member represents a consortium, will make all commercially reasonable efforts to comply with the responsibilities of a WEST Member as described in the WEST Program Statement as amended from time to time by the WEST Executive Committee, the current version of which is incorporated herein as Attachment 1.

3) Member will pay such fees that may be required under said WEST Program Statement to CDL. Member will pay CDL in full within 30 days of Membership invoice, unless other payment arrangements are agreed to by both parties.

4) If Member elects to be a WEST Archive Holder or Archive Builder, Member will:
   a) Sign a WEST Archive Holder and/or Builder Amendment;
   b) Make all commercially reasonable efforts to comply with the WEST Archive Holder/Builder Responsibilities, attached hereto and incorporated herein as Attachment 2, as amended from time to time by the WEST Executive Committee;
   c) Execute one or more WEST Archive Builder Exhibits, as applicable, which shall be attached hereto and incorporated herein.

5) Should Administrative Host responsibility be transferred to another organization by authority of the WEST Executive Committee as provided for in the WEST Program Statement, CDL shall assign all of its rights and obligations under this Agreement to the new Administrative Host effective with the date of transfer, and this Agreement shall remain in full force and effect.

☐ If selected, this agreement is for a consortial membership. The consortium is authorized to represent its consortial constituent members, as enumerated in Attachment 3, in the Western Regional Storage Trust.

WEST Program Statement

The Western Regional Storage Trust (WEST) is a distributed print repository program. Under the WEST program, participating libraries consolidate and validate print holdings at major library storage facilities and at selected campus locations. As of this time, the WEST Program focuses on archives of retrospective print journals.

Terms and Conditions

1. Membership and Governance

1.1. Members: Academic libraries, research libraries, and library consortia serving the Western region of the United States are eligible to join WEST as members.

1.2. Membership term: In order to promote stability of the WEST program, members agree to join WEST for an initial 3-year term.

1.3. Archive Holders: Members that commit to retain materials under the WEST program are known as Archive Holders. Once a WEST library’s holdings have been analyzed through the WEST program (typically during the first year of WEST participation), the library is eligible to serve as an Archive Holder beginning in the following year.

1.4. Archive Builders: Those Archive Holders that agree to ingest and validate newly-archived materials according to standards developed by WEST are known as Archive Builders.

1.5. Executive Committee: WEST is governed by an Executive Committee—co-chaired by the Co-PIs—that oversees operation and development of WEST, prepares operating budgets for approval by members, and works to integrate WEST with related archiving programs nationally and internationally. The Executive Committee is composed of representatives from nine (9) WEST members (with representatives for Archive Holders, Archive Builders and Non-Archive Holders), elected by the full WEST membership.

1.6. Operations and Collections Council: The Operations and Collections Council oversees issues related to holdings disclosure and access/delivery, and develops and monitors a process to select titles for inclusion in the WEST archive. Members of the Operations and Collections Council are appointed by and serve for terms determined by the Executive Committee.

1.7. Administrative Host: The Administrative Host is an organization that provides program management, member support, and fiscal agency for WEST. The WEST Executive Committee is responsible for administering the contract or other relationship with the Administrative Host. The Administrative Host serves an initial term of 3 years, which may be extended annually or for additional multiple-year terms by mutual agreement. After the initial term, Administrative Host responsibility may be terminated by either party with a minimum of 12 months’ notice. The California Digital Library serves as the Administrative Host for WEST for the initial 3-year term January 1, 2011 – December 31, 2013.

2. Archiving

2.1. Selection process: Decisions about which titles will be incorporated into WEST and where they will be preserved are made via a periodic Collection Voting Model administered by the Operations and Collections Council with support from WEST staff. Title sets will be routinely identified and prioritized by ongoing collection analysis. Titles may also be nominated for archiving by WEST member institutions.

2.2. Retention period: Archive Holders agree to maintain WEST archives through December 31, 2035. This date is known as the WEST Retention Date and represents a period of 25 years from the beginning of the WEST
program. The Executive Committee will review and may modify the WEST Retention Date at least once every five years. WEST retention commitments survive membership in WEST.

2.3. **Ownership:** Members will retain ownership and title to the materials for which they are the Archive Holder. Materials which are relocated to an Archive Holder will be property of the Archive Holder (if allowed by state laws and regulations). Archive Holders agree not to sell, discard, donate, or otherwise relinquish ownership or control of any of the archived materials prior to the Retention Date, except to transfer materials to another WEST Archive Holder or with permission of the Executive Committee.

2.4. **Contributing holdings:** Members agree to use their best efforts to contribute holdings via physical transfer of materials from local collections to complete the archived backfile held by any Archive Holder as recommended by the WEST Operations and Collections Council.

2.5. **Archiving Facilities:** Archive Holders agree to maintain WEST materials in archival locations suitable for the materials as established by the Operations and Collections Council. Archiving facilities are defined to include 1) separate high-density library storage facilities; 2) library locations with controlled access and appropriate environmental conditions, and 3) campus library shelving (for least-risk items).

2.6. **Original Form.** Archive Holders agree to maintain all of the archived materials in their original, artifactual form whenever possible.

2.7. **Review of Materials (Validation):** Archive Builders agree to examine all newly-archived materials according to the requirements for the level of validation specified by the Operations and Collections Council for those materials.

2.8. **Holdings disclosure:** Archive Holders agree to take all steps reasonably necessary to cause all of the archived materials, and information about their accessibility to potential users, to be registered in union catalogs and other applicable system(s) as established by WEST disclosure policy.

2.9. **Access to the Materials:** Archive Holders agree to make the materials available to other WEST members in accordance with the applicable Interlibrary Loan policies and procedures of the Archive Holder as follows

   2.9.1. **Reproductions:** Archive Holders agree to fulfill requests for photocopies/electronic delivery of any of the archived materials.

   2.9.2. **Building Use Only:** Original materials may only be provided for onsite use at the Archive Holder library or at the requesting WEST Member library.

3. **Financial Obligations**

3.1 **Financial Support to the WEST Program:** WEST Members agree to provide financial support to WEST through payments to the Administrative Host as specified in an annual budget and cost-sharing formula developed by the WEST Executive Committee and approved by the WEST membership, which formula is incorporated by reference herein.

3.2. **Financial Support to Archive Builders:** Archive Holders that also serve as Archive Builders may receive funding from the WEST program to help support their services as Archive Builders if approved and budgeted by WEST.

3.3. **Absorbed Costs:** WEST members agree to be responsible for all of the costs and expenses associated with maintaining the materials, contributing holdings to other Archive Holders (including transportation costs), and deselecting materials from local collections.
4. Withdrawal

4.1. **Withdrawal of WEST Member**: At any time after completion of its first three years of membership, a WEST member may withdraw by providing written notice to the WEST Executive Committee at least twelve (12) months prior to its intended withdrawal date. The WEST member must continue to pay any required participation fees during the 12-month notice period.

4.2. **Archive Holder Withdrawal**: If an Archive Holder withdraws from WEST or can no longer maintain the materials, the Archive Holder agrees to offer the materials to another Archive Holder and to transfer any accepted materials to the Archive Holder at the initial Archive Holder’s expense. The WEST Executive Committee may waive this requirement if it determines that the materials no longer need to be archived.
Western Regional Storage Trust
Member Agreement
Attachment 2
WEST Archive Holder/Builder Responsibilities

WEST Archive Holders and Builders are responsible for archiving print backfiles on behalf of the membership. Archive Holders and Builders assume the responsibilities described below.

Becoming a WEST Archive Holder/Builder
WEST Archive Holder/Builders and title lists are identified and agreed upon by WEST members once a year. Most Archive Holders and Builders are identified during the collection analysis process based on certain semi-automated algorithms; library-storage facility affiliations are taken into account in the algorithms. Institutions also have an opportunity each year to nominate backfiles and to volunteer as Archive Holders/Builders.

Archive Holder Definition
An Archive Holder is an institution (library and/or storage facility) that retains the print backfile for a journal family.

Example 1 (Bronze Archive):
A library holds 2001-2005 for a journal family; its affiliated storage facility holds v.1-2000. The storage facility is declared the Archive Holder for v.1-2000 and the library is declared the Archive Holder for 2001-2005.

Archive Builder Definition
An Archive Builder proactively assembles print holdings from various libraries, validates them and discloses them. Once the backfile for a journal family is built, the Archive Builder becomes an Archive Holder for that family.

Archive Builders handle Silver, Gold and Platinum Archive types and receive special compensation to provide archive creation services, described below. The Archive Builder agrees to retain the backfile in environmental conditions stipulated for the Archive Type.

Archive Builders are usually storage facilities. When an institution does not have a storage facility, the Archive Builder can be a library.

Example 2 (Silver, Gold, or Platinum Archive):
Two libraries share a storage facility. Library A holds 1986-2005 of a journal family, Library B holds 1955-1985, and the storage facility holds v.1 to 1950. The storage facility is declared the Archive Builder for the journal family and is responsible for archiving the complete run; the facility calls for, receives and validates the libraries’ holdings and stored holdings according to validation standards for the archive type. The storage facility also calls for holdings from the broader membership to complete gaps found during validation (e.g. 1951-1954 and other gaps).

Example 3 (Silver, Gold, or Platinum Archive):
One library (B) has a storage facility and another library (C) in the area that is not formally affiliated with the facility agrees to contribute holdings, when needed. The storage facility is declared the Archive Builder, and calls for and validates both libraries’ holdings and calls for additional holdings from the broader membership to fill gaps.
Example 4 (Silver, Gold, or Platinum Archive):

One library (D) does not have a storage facility, but through the collection analysis process, is proposed as the Archive Builder for a journal family. The library is able to house the backfile in appropriate environmental conditions. The library is declared the Archive Builder and calls for, receives and validates holdings from the broader membership to complete the backfile.

**Archive Holder Responsibilities**

An Archive Holder is responsible for

- Retaining print backfiles for an agreed upon preservation horizon as defined in the WEST Program Statement
- Providing access to WEST backfiles according to the WEST Access Policy
- For Bronze Archives, responsibilities include:
  - disclosing holdings according to the WEST Disclosure Standards. This also includes re-disclosing holdings that are moved to storage later.
  - Preparing progress reports and other ad hoc reports
  - Receiving gifts from WEST libraries to fill in gaps
  - Responding to WEST member inquiries and offers for holdings contributions
- Communicating and coordinating with the Administrative Host and other Archive Holders
- Participating in WEST consortial activities, particularly inter-Archive Holder activities (e.g. training, developing and sharing best practices, coordinating deselections)
- Providing a single point of contact for project management

**Archive Builder Responsibilities (Silver, Gold, Platinum Archive Types)**

In addition to the Archive Holder responsibilities, the Archive Builder is also responsible for

- Creating archives within a validation cycle for a predefined set of journal families and budgeted number of volumes determined by WEST partners.
  - Conducting two “calls for holdings” within the validation cycle as described in the “Call for Holdings and Gap Filling process.” This includes initial pre-validation holdings verification.
  - Validating holdings according to the ”Standards for Issue and Volume Level Validation.”
  - Using reasonable efforts to complete validation within the designated validation cycle.
  - Preparing “wish lists” or “gap” reports at the end of the validation cycle
  - Preparing progress reports and other ad hoc reports for each validation cycle
  - Receiving gifts from WEST libraries to fill in gaps, after the validation cycle is complete
  - Responding to WEST member inquiries and offers for holdings contributions
- Disclosing print backfile holdings in OCLC according to WEST Disclosure Standards, which are informed by WEST validation standards
- Receiving and managing funds intended for archive creation services
- Hiring or otherwise allocating appropriately skilled staff to carry out archive creation services. Special training for project management and validation is required; previous serials management experience is very important. Sample position descriptions are made available by the Administrative Host.
- Preparing reports using standard templates or on an ad hoc basis. Reports may be used by WEST member libraries, the Administrative Host, WEST Governing bodies, the Mellon Foundation and non-WEST libraries.
Ensuring compliance with the “Standards for Issue and Volume Level Validation.” An Archive Builder’s activities are expected to conform to these standards. If an Archive Builder does not conform to the standards, the Archive Builder is expected to align its activities and bring the archives up to standards within the archiving cycle. If the Archive Builder does not meet quality assurance and productivity standards during an archiving cycle, WEST reserves the right not to engage the Archive Builder in future archive creation services. The Archive Builder’s retention commitment for archived holdings survives termination and the Builder may continue as a member.
