### Changes to Springer E-book Access through BISON

In an effort to provide better access to Springer e-books, we have ordered new records from OCLC, rather than continuing access through the MyiLibrary platform. As a result, there will no longer be access to Springer E-books through a MyiLibrary link.

Over the next couple of weeks, the old Springer e-book records will be globally deleted from the catalogue and new records will be loaded.

Business and Engineering Libraries  
Safari Books Online  
- Business and Tech

#### Safari Books Online

Access both collections at <http://proquestcombo.safaribooksonline.com.proxy1.cl.msu.edu/>.

#### Safari Business E-Books

The Gast Business Library subscribes to a number of Safari Business e-books. So whether you are a distance student or are studying in the middle of the night, you can do your research online. We have titles from today's top business publishers on various topics including current affairs, finance/accounting, management, professional skills, operations and product quality, sales/marketing, and technology like e-commerce. You can search across all books in the library simultaneously and pinpoint the exact chapter, sentence, or example you need. Then you can print or email pages that you need. It will also identify related titles for additional reading.

#### Safari Tech Books Online

Safari Tech Books Online is a collection of almost 100 IT books primarily published by O'Reilly Media. Each title contains a complete table of contents with chapter links. All titles include the complete full text, charts, graphs, and other images as included in the original print editions. Users can search the collection by keyword, phrase, author, publisher or category. Users can also browse the content individual titles by chapter.

# Springer - Verlag Electronic Books Now Available

## 03/31/08

### Springer - Verlag Electronic Books Now Available

The MSU Libraries recently entered into a consortial agreement that gives us online access to more than 10,000 e-books published by Springer-Verlag between 2005 and 2007. The 2008 Springer e-books will become accessible as they are published. Springer is one of the leading scholarly publishers in the areas of computer science, engineering, and technology.

Because all Springer book titles will now be available online, we will no longer purchase print copies of new Springer books. Records with links to the full text of these online books are now appearing in the library's catalog: <http://magic.msu.edu/> . The e-books are also searchable through SpringerLink: <http://springerlink.metapress.com/home/main.mpx> .

Below are examples of some of the Springer engineering and computer science e-books now accessible to MSU users.

Mechanical modelling and computational issues in civil engineering:

**Knovel University Challenge**

The online reference book website Knovel is putting on a contest, the [Knovel University Challenge](#).

The contest begins today and goes through November 7th. It's open to all UMN students. All you have to do is enter via the widget below and get three answers correct using Knovel Ebooks.

If you get three correct answers you will be eligible for Knovel's drawing. They plan to give away 2 Nintendo Wiis, 3 iPod Nanos, and 6 iTunes Gift Cards.

You'll be able to familiarize yourself with this great reference resource and may just win a prize. For more information about rules and regulations, click [here](#).

#### Creating Permanent links to Springer E-Books

[Home](#)   [About](#)   [E-Books](#)   [Kinesiology](#)   [Mathematics](#)   [Neuroscience](#)   [Sports](#)   [Statistics](#)

I have made a blogroll of some of the highly accessed e-books from Springer publications. In case you want to make a permanent link to the electronic book then you would have to find the DOI of that e-book from the blogroll or from the Springer E-Books page. Then add the DOI number at the end of this link <http://dx.doi.org.ezproxy.library.yorku.ca/>

Click image links below to see the steps involved in locating:

- DOI from Blogroll
- DOI from Springer Interface:

Step 1: Log-on to Springer Books and then find your book using the *Find* box. See Image

Step 2: After locating the DOI number of that book add it the end of this link: <http://dx.doi.org.ezproxy.library.yorku.ca/>
