Capstone 2007 – Mugar Memorial Library

U.S. Foreign Policy in an Era of Danger: 2007 and Beyond

This year's Capstone syllabus has been written by faculty in the Division of Social Science, coordinated by Professor William Tilchin.

Social Science Bibliographers
- Anthropology, General Social Science, and Sociology Bibliographer: Chris Smith
- Geography, International Relations, and Political Science Bibliographer: Susan Wishinsky
- Gerontology, Psychology, and Social Work Bibliographer: Meredith Kirkpatrick

Head of Reference
- Reference Librarian: Tom Casserly
- Head Librarian: Barbara Maratos

Science & Engineering Library Coordinator (2 questions)
- Head, African Studies Library and African Studies Selector: Mary Foppiani
- Head, African Studies Library and African Studies Selector: Gretchen Walsh

Planning
- capstone-syllabus.doc
- Step One: Capstone Topics and Librarians' Covering
- Step Two: Procedures for Selecting Material to be Put on Reserve
  - Books requested to be put on Reserve
  - Send Susan titles of recent (2000+) titles that should be rushed for the collection.
- Step Three: Electronic resources - let Susan know about resources that should be considered for highlighting.
- Step Four: Prepare bookmarks to handout on Friday, March 30 using the rubber stamp.
- Step Five: Capstone Launch Day Schedule
  - What to Cover in five minutes at Capstone Launch
- Step Six: Schedule of Research Orientations
- Step Seven: Capstone Committee Meeting and Reference & Instructional Services (RIS) Staff Meeting
  - Agenda for Capstone Committee Meeting on Tuesday, March 27 at 1pm
  - Prepare for 5 minute launch presentations on Friday, March 30
  - Review Library schedule
  - Review Library Research Orientations schedule
  - Review Capstone Research Guide

UNIVERSITY OF CONNECTICUT: Welcome to the University of Connecticut Libraries’ Staff Wiki

http://wiki.lib.uconn.edu/index.php/Main_Page

Welcome to the University of Connecticut Libraries’ Staff Wiki

Main Page

The University of Connecticut Libraries’ Staff Wiki is a project to create a complete, up-to-date and reliable source for various ITS Documents. Check out the links below to see how you can edit any page right now. There are currently 1,153 documents in the database.

What is a Wiki?

A Wiki enables documents to be authored collectively using a web browser. This Wiki was created to help maintain the ITS area's large amount of documentation. The Wiki makes all of our documentation searchable, and allows easy access for anyone in the library to edit the information when necessary.

A few tips to get you started:

- Please register first if you haven't already. It's quick and easy.
- Most information in a Wiki is found via the search. For example, try to search for the word, 'password' (without quotes).
- Once you've found a document, if you see that it is missing information or has an error, you can edit it (as long as your logged in). Keep in mind that the Wiki doesn't have to use HTML. You can type things free form, or use the Guide to Markup Text to format.

Creating a new document is easy. Just type this address in your browser:

http://wiki.lib.uconn.edu/wiki/

and then add the title of your document at the end of the link. Please consult Page Naming Conventions before choosing a name for your article. So if I wanted to create a new document that contained ITS Staff Phone Numbers, I might type in this URL:

http://wiki.lib.uconn.edu/wiki/ITSKB:Staff_Phone_Numbers

When you visit the new page you created, you'll need to login and edit it, and then save it for the URL to be created.

You'll find the ITS's documents all start with ITSKB. This allows anyone to view an index of all ITS documents by searching for 'ITSKB' (without the quotes).

A good way to experiment with editing is to visit the Official Sandbox.

The McGill Library Global Health Resource Guide

The McGill Global Health Resource Guide was created as a wiki to promote collaboration between all McGill people working in the field of global health. All McGill faculty, clinicians, researchers and students are encouraged to use and add to these resources.

We hope this resource guide will attract a global audience, and promote collaboration between professionals within, and beyond, the McGill Community.

If you would like to contribute to this resource, but are not a member of the McGill community, we would like to hear from you.

For more information, comments, or suggestions for content, please contact Deborah Meet at the McGill Macdonald Campus Library (deborah.meet@mcgill.ca)

Sign up for the McGill Library Global Health Workshop

Where in the world... ? Online Sources for Global Health Information: A Hands-On Workshop

Date for next session is June 17, 2008. It will be from 11:00am in the Macdonald Campus Library eZone.

Registration: http://www.health-library.mcgill.ca/services/insttechshops/registration.cfm

In the News

- 15th Canadian Conference on International Health Call for Abstracts Deadline Extended to June 15, 2009
- The 15th Canadian Conference on International Health is fast approaching and is being held on October 26 - 29, 2008 at the Ottawa Marriott, 100 Kent St., Ottawa, ON, Canada. The theme this year, "Checking In: Health for All or Health for Someone?", promises to provide an opportunity to reflect the thirty years that have passed since the World Health Organization endorsed the vision of Alma Ata. "Health for All", and to collectively question whether and how Health for All remains our vision today. The deadline for the Call for Abstracts is June 15 and we encourage all those who would like to present a paper, poster, workshop or symposia to submit their abstract as soon as possible. Abstracts can be submitted in English, French or Spanish.
- Against the Odds: Making a Difference in Global Health: An exhibition opening at the US National Library of Medicine, Bethesda, MD, April 17, 2008

How to use this wiki

The McGill Global Health Resource Guide is an application of the widely used software, MediaWiki. Help on editing pages using this software is available here: MediaWiki help page on basic editing. More advanced capabilities are explained on pages linked from here: MediaWiki help contents page.

Please do not hesitate to contact the Editorial Board if you have questions or comments - contact information at Contact Us.

UMass Amherst Libraries
Focusing on Undergraduates: Library Collections, Services and Facilities

PDF of report incorporating staff feedback (May 23, 2007)
PDF of initial report (February 22, 2007)

Executive summary of report

Undergraduate students represent the largest user population for the UMass Amherst Libraries. Over 19,000 in number, undergraduate students are diverse in their discipline of study, their ethnic and social background, their understanding and use of information technologies, and their familiarity with the collections and services offered by a large research library. A dynamic relationship between the library, these students, and the faculty that teach them is essential for a successful undergraduate educational and social experience.

The library’s Focusing on Undergraduates Self-Study Team was asked to consider the following questions:

Where are we today?
- Document accomplishments, especially in the context of the Libraries’ Three Year Plan and Self-Study/External Review Process
- Analyze relevant statistics and assessment data
- Examine our impact on campus, faculty, and undergraduate students

What are other libraries doing now?
- Initiate an environmental scan of library activities at comparable institutions including benchmarks and best practices for undergraduate student services
- Investigate how other university libraries are evolving services to undergraduate students

How do we envision the future?
Undergraduate services and undergraduate education
Undergraduate collections
Undergraduate spaces and facilities
Staffing
Budget
Assessment
Outreach
- Define a realistic vision of collections, services, and facilities required to meet the demands of undergraduate education in the next five to seven years
- Suggest innovations in terms of staffing (organization, training, workflow), collections, facilities and technology
- Recommend areas where current efforts can be curtailed or eliminated
- Provide broad-based expectations regarding the cost of this vision in terms of staffing, collections, facilities and technology

Process

The Focusing on Undergraduates Self-Study Team:
- Discussed and organized a work plan addressing the questions asked above
- Solicited input from staff, faculty, students, and appropriate community members regarding these questions
- Drafted an initial five/seven page report addressing these questions
- Will provide a variety of opportunities for comment, discussion and input from staff, faculty, and students regarding initial draft
- Will draft an interim five/seven page report to include comments made on the initial report.
- Will provide a variety of opportunities for comment, discussion and input from staff, faculty, and students regarding interim draft
- Will draft a final report

Timeline

The initial draft report is due to be circulated for comment beginning February 16, 2007.

Welcome to the University of Minnesota Libraries Staff Website

Vision

The University Libraries are a strategic asset of the University, providing intellectual leadership and extraordinary information experiences toward the advancement of knowledge.

Mission

The University Libraries inspire learning and discovery through information resources, collaboration, and expertise.

Vision and Mission as stated in the Libraries’ Planning Framework document prepared as part of the University’s strategic planning process and submitted to the Provost on December 1, 2004.

Our Planning & Budget page has more details about our annual planning.

How we operate

The University Librarian’s Cabinet (Cabinet) and Libraries Leadership Council (LLC) work with the University Librarian to set priorities, analyze systems-wide issues, and review policies. Other important committees exist around the Libraries, including those related to our governance and oversight.

Our Councils include those for divisions and program areas of the Libraries:

- Access Services Council
- Information Technology Council
- Collections Council
- Undergraduate Initiatives Council

Project Charters
Welcome to RefWorks - Syracuse University

This wiki is a training and knowledge management tool created by Science and Technology Librarians at Syracuse University Library to promote the use of RefWorks among the Syracuse University (SU) community.

Why should I be interested in RefWorks?

RefWorks is a service that allows you to save and store citations, and generate bibliographies in different styles (e.g., APA, MLA, Chicago). Also when using Write-N-Cite utility program you may add references to a paper and format the reference list. References may be easily imported from many online databases, the SUMMIT catalog, the Internet and other bibliographic management tools, or you can manually enter the information into RefWorks.

Can I use RefWorks at home?

RefWorks is accessible from off-campus to members of the SU community. More information involving off-campus access and SU's policy on access to licensed web resources is available.

Do you offer training on using RefWorks?

Instructional Training sessions will be available during the Fall and Spring semesters. They will be located at Bird Library in the lower level, room 046. Registration is not required and all SU and SUNY ESF students, faculty and staff are welcome to take part. You may also request a training session for a group of students or class through the Instructional Services page. During the summer, take advantage of the free webinars.

Want to join our wiki?

You are invited to join this site and be part of the growing community of RefWorks users who share ideas as well as problems or solutions that they have encountered while navigating or using the software.

For optimal viewing, we recommend using the Mozilla Firefox browser.

Reflections on the HUT
Thursday, May 15, 2008 was an historic day at the HUT. After the next two academic years, the Library staff has
known from word of mouth how popular the HUT was and how fond of it students were (some of them even preferring it
to the "mother ship" of NELLI), but I thought I'd provide some hard evidence of that fondness with these numbers. Did
you know that the HUT monitors
mutually exclusive patron and waiting
lists at various times of day from the 2003-04 to 2007-08, "12927" patrons used the HUT for the same period of
time. 11,150 patrons were welcomed. If you find yourself missing the copies of People or Rolling Stone that you need to read at the HUT
don't despair! We're moving the popular newspaper collection down to the sixth floor along with our comfortable seating.
I was a special memory of the HUT (feel free to share it as a comment. And, for those who like to burn the midnight oil, HHSC will be open
24-7 following the academic calendar starting in Fall 2008.

Welcome, Research Experience for Undergraduates Students!
Monday June 2, 2008

The Sheridan Libraries welcome Research Experience for Undergraduates (REU) students to campus this summer. While on
campus this summer, REU students will be doing research in neurosurgical robotics, nanotechnology, and other fascinating areas of
engineering and science.

REU students, please call upon your librarians (wink, we have
librarians!) if you need help finding papers, DVDs, or anything else.
You can make individual appointments with librarians in advance of
libraries, or just come by the office in the library, HHSC, and ask a question.

I've got started with the best bet sources for engineering research, start with the LIBRARY
Resource Center.

Wishing when the OIE Library is open? See this summer's TUESDAY HOURS.

Wiley InterScience Downtime
Posted May 29, 2008 3:44 AM

Wiley InterScience, the web site that hosts online Wiley journals and books, will be down for
maintenance starting at 7 am Saturday morning, May 31st. This outage could last between 4
and 8 hours. Please schedule your work accordingly, hopefully, you'll be at a bookstore.

What are some of the services the library provides to faculty?

Here are just a few of the services the library provides to faculty:

- Angel Help: We'll help you troubleshoot, add content, create stable links, and more.
- Library Instruction: Have an assignment where students need to use the library. Work with a library subject specialist to do a session to help your students learn how to best use library resources.
- Copyright Advice
- EndNote Instruction
- Keeping up with the literature: A guide to help you search, set up alert searches, and more.

For more information on other services see the faculty services page or contact your subject specialist.

05/21/08

Proxy Server Changes Coming!

The end of the Spring semester will bring about changes when accessing libraries' electronic resources from off campus locations. As of May 29, 2008 the old proxy server will no longer be available. Off campus access to library electronic resources is now made easier through the EZ-Proxy which has been in place and working well for the last two years. For more information on using this service see the EZ-proxy website available from Distance Learning Services through the MSU Libraries - Off Campus Access.

Need Books?
Use the library catalog to find books. Try our new Keyword-Beta Catalog!
New Assoc. Director of William Rand Kenan, Jr. Library of Veterinary Medicine

The NCSU Libraries has reassigned Carol E. Vreeland to the position of Associate Director of the William Rand Kenan, Jr. Library of Veterinary Medicine. Vreeland has been serving on an interim basis as Reference Librarian for Veterinary Medicine for the past year.

Carol Vreeland joined the NCSU Libraries in 1999 as Life Sciences Reference Librarian. In addition to the Master of Library Science from the University of North Carolina at Chapel Hill, Vreeland holds the Doctor of Veterinary Medicine from the University of Illinois and the Bachelor of Arts in Biology from Knox College.

Last Day of Book Sale: Fill a Bag, Pay $5

Today is the last day of the Friends of the Library’s Book Sale on the Brickyard outside the D. H. Hill Library.

The bag sale has begun, and will continue until the Book Sale closes at 3pm. Fill an entire bag with books, and pay only $5!

Select from an impressive array of books ranging from best-selling novels and fiction classics to engineering, natural sciences, and social sciences texts -- all donated by friends, faculty, students, and other members of the community.

Driving directions to the D. H. Hill Library.

Parking options for visitors.
Poet Laureates

When questioned by a reporter, John McCain recently had to admit he didn’t know who the poet laureate of the United States or of Arizona is. It would be interesting to see how many members of the general public know that Charles Simic, an immigrant from Yugoslavia who didn’t speak English until he was 15, is the current U.S. Poet Laureate. While Arizona does not have a poet laureate, Larry D. Thomas of Houston is the 2008 Texas Poet Laureate. A list of Texas Poet Laureates from 1932 onward is available from The Handbook of Texas Online. Information about U.S. Poet Laureates from 1937 onward is available from the Library of Congress.

2008 Education Statistics

According to "The Condition of Education 2008," an annual report published by the National Center for Education Statistics, the nation’s student body is becoming more diverse while school enrollment is at an all-time high. At the college level, the largest growth area for enrollment was from women and minority students. However, Hispanic students were underrepresented among the minorities. The report indicates that only 34 percent of Hispanics aged 25 to 29 completed some college as of 2007 compared to 50 percent of black and 66 percent of white U.S. residents. Hispanics born outside the United States are three times more likely to lack a high-school diploma than those from families who have lived in the United States a generation or more.

More college and advanced degrees are being awarded as of 2005-2006 compared with ten years earlier including 28 percent more bachelor’s and associate degrees, 46 percent more master’s degrees, and 26 percent more doctorates. The most popular undergraduate majors included business, social sciences and history, and education. At the master’s level the greatest number of degrees were conferred for the fields of education and business while at the doctoral level education, engineering, health professions and related clinical sciences, biological and biomedical sciences, and psychology were the most popular.

Earnings of young adults with degrees are still greater than their peers.
Smithsonian Libraries

**General and Stamp Design Files of the 3rd. Assist. Postmaster General**

The National Postal Museum Library is one of the largest and most important research facilities for the study of philately and the history of postal services in the world. Supplementing the collection of publications on philately and postal history are major document collections including:

- General files of the Third Assistant Postmaster General - contain documentation on the stamp design and production process, covering issues such as paper, inks, engraving and printing methods, production numbers, and public reaction to the stamp designs.
- Stamp design files of the Third Assistant Postmaster General - especially strong from 1920 to 1970, the files are arranged by Scott number and type, including regular issue, commemorative, and airmail stamps.

Please take a look at the finding aids - [http://www.sil.si.edu/digitallibraries/NPM/](http://www.sil.si.edu/digitallibraries/NPM/) and let us know your reaction in the comment box below.

**Hard Hat Tour of Penney Drive facility**

Smithsonian Libraries' staff visited the new Penney Drive facility near Landover, Maryland on May 29.

The Penney Drive facility will house the Book Conservation Lab, the SIL Imaging Center, binding operations and also provide a reading room and shelf space for over 500,000 volumes.

The Libraries will begin moving into the new space sometime in the fall.

**Botanica Magnifica images at Smithsonian Libraries**

In his large-format images, photographer Jonathan Singer captures the essence of plant form, color, and texture, thereby enhancing the viewer's appreciation of the complexity of the botanical world. Collaborating with scientists in the Smithsonian's Department of Botany, the large-format photographs focus on the Smithsonian's living plant collections. Each photo was taken with a high-resolution digital camera and printed on hand-made paper with special inks. Jonathan Singer donated the first set of this monumental five-volume work to the Smithsonian Institution's Department of Botany and the Smithsonian Institution Libraries.

Images from Botanica Magnifica will be on display in the Smithsonian Libraries exhibition case located in the National Museum of Natural History (10th St. and Constitution Ave., NW, Washington, DC), ground floor lobby, thru October 2008.

Jakobsen Lecture Available on iTunes U

By Vickie Restaino on June 4, 2008 9:17 AM | Permalink | Comments (0)

Distinguished professor of women’s studies, Janet Jakobsen of Barnard College, lectured at Paley on April 7.

Dr. Jakobsen is the Director of the Center for Research on Women at Barnard. Her research interests include: feminist and queer ethics; religion, gender, and sexuality in American public life; social movements and feminist alliance politics; and global issues of economics.

Jakobsen’s research truly crosses disciplinary boundaries, and her engagement with a number of issues crosses the traditional lines established between the academy and activism.

This lecture was part of a series presented by the Libraries and the General Education Program, which aims to bring interdisciplinary scholars in a variety of fields to Temple. The departments of Religion and Jewish Studies also played a significant role in sponsoring Dr. Jakobsen’s visit.

Dr. Jakobsen’s lecture at Paley Library can be downloaded from iTunes U. When you see the Temple University page, click Paley Library at the bottom, then Janet Jakobsen, then click ‘Get’ and wait for the download to complete.

After the lecture, Dr. Jakobsen was interviewed by Professor of History, David Watt, and Professor of Religion, Women’s Studies, and Jewish Studies, Laura Levitt.

See the News with PressDisplay

By Beth Badman on June 3, 2008 12:01 PM | Permalink | Comments (0)

TU Libraries is pleased to announce the addition of Library PressDisplay to its suite of online resources!

Visually stunning, PressDisplay provides online access to today’s leading newspapers and magazines from around the world, presented in their traditional format and layout. With more than 650 print publications from 76 countries and in 38 languages, PressDisplay is an indispensable news source for anyone who wants not only multiple perspectives on the news, but also to see the original print layout/format, including color images, editorial content, classifieds, and advertisements.

Readers can browse or search for the last 60 days worth of newspapers by country, language, or title and also perform keyword searches for individual articles. Once inside a newspaper, readers can turn the pages as if holding the actual paper, zooming into individual images and articles.

Articles may be printed, saved, or emailed for later use. Some articles also have accompanying audio files which can be played in Windows Media Player. And, articles from many foreign language publications can be instantly translated into one of several major languages.

While ideal for scholars associated with international studies, media studies, and foreign language studies, PressDisplay promises to hold appeal for all interested in current events.

Please feel free to contact me directly for further information about the resource.

New History Databases
The Libraries has acquired two new history-related fulltext databases of primary sources:

- Burney Collection of Newspapers
  17th and 18th century English newspapers including colonial papers
- House of Commons Parliamentary Papers
  Now includes the fulltext of 19th and 20th century British Parliamentary Papers.

Links to these databases can be found on the History Subject Page under the Newspapers and Government Documents sections.

May New Books
The May new book list is available for browsing. More than 100 history-related books were acquired for Odegaard and Suzzallo Libraries this past month.

If you would like to suggest that the library purchase a history-related book, please email me at mudrock@uw.washington.edu. Provide as much of the following information as possible: author, title, publisher, year, ISBN and price.

Chat/Instant Messaging
Ask Us!

In the library? Ask for help at a service desk!

Options available to members of the Columbia community with a current University Network ID and password:

- **walk-in or telephone** - hours vary by library
- **email** - anytime
- **IM** - response guaranteed within two working days
- **IM** - no instant messaging account required
- **by appointment** - meet an expert for a consultation on your library research
- **workshops** - sign up for short classes on research tips and useful software

*We welcome questions relating to Columbia's collections and services from those not currently affiliated with Columbia: email reference@columbia.edu or contact the appropriate library.*

Help Yourself

- **subject guides** - tips for finding information by subject
- **library essentials** - tutorials to help you with your research
- **business 24/7 help** - answers to frequently asked business & economics questions
- **using the Libraries FAQ** - answers to frequently asked questions about library services

[http://www.columbia.edu/cu/lweb/services/reference/]
Ask a Librarian

Chat & Browse

AskRef Live! is a reference service that allows University of Delaware faculty, staff, and students to chat and search web pages with librarians.

The chat service is provided through your web browser and no account or special software is required. Following a session, you will receive a transcript of the online discussion via email.

Email

Please choose one of the following links, based on the content of your question:

- AskRef: get answers to brief, factual questions
- AskCirc: get information on the status of a library account, information on obtaining a library card, or the Library’s lost and found
- AskSMDC: get answers to your questions about the Student Multimedia Design Center
- AskSpec: get answers to brief factual questions concerning holdings in the Special Collections Department

Instant Messaging (IM)

University of Delaware faculty, staff, and students can send an instant message and ask a librarian for help with their questions.

Add a Library screen name to your buddy list:

- AIM AskRefIM
- Google AskRefIM@gmail.com (not monitored for email)
- MSN AskRefIM@hotmail.com (not monitored for email)
- Yahoo AskRefIM

In Person

Drop by the Reference Desk for immediate help from a librarian.

Phone

Call the Reference Desk with your research questions:
(302) 831-2965

Suggest a Purchase

To suggest the purchase of library materials contact a subject librarian.
Representative Documents: Chat/Instant Messaging

http://libweb.uoregon.edu/general/im.html

UNIVERSITY OF OREGON: Instant Messaging

For information and research assistance from the Knight Reference Desk, use the following screen names:
university reference (AOL)
university reference (Yahoo Messenger)
university reference@hotmail.com (MSN Messenger)

For information and research assistance from the Science Library, use the following screen names:
university science (AOL)
university science (Yahoo Messenger)
university science@hotmail.com (MSN Messenger)

For information and research assistance from the Law Library, use the following screen names:
university lawref (AIM)
university lawref (Yahoo Messenger)
university lawref@hotmail.com (MSN Messenger)

For hours of availability, see the Law Library’s Reference page.

The IM service of the UO Libraries is intended primarily for UO students, faculty, and staff. Non-UO patrons are encouraged to use L-net, an online reference service provided by Oregon’s libraries.

Hours of service: the IM service is typically offered at the Knight Reference Desk whenever a staff member is present at the desk. During the regular term, those hours are: Monday-Thursday 9 am-midnight; Friday 9am - 7 pm; Saturday 11 am - 7 pm; and Sunday 11 am - midnight. For service outside of these hours, try the L-net virtual reference service.

If you are using a shared computer in a library or lab, or do not wish to download and install instant Messenger software on your computer, you may use web-based chat services at AIM Express or MSN Web Messenger. These allow you to create a screen name and to chat, without downloading any software.

Ask-a-Librarian

Ask-A-Librarian via Email
Fill out our email reference form and we will answer within a few hours but no longer than 24 hours (except when the university is closed or between terms).

Ask-A-Librarian via IM
Send an Instant Message (IM) to the reference librarians. If you need to know how to establish an IM account, click here.

About Ask-a-Librarian via IM

Ask ImPITTlibrarian
You can send an instant message (IM) to one of our reference librarians by adding one of the IM addresses listed below to your buddy (or friends) list. We are still testing this service and cannot guarantee help at any specific hour, but please send a question if you see us online. Questions are taken on a first come first serve basis. If we are not available, try our other Ask-a-Librarian services listed here.

<table>

<tr>
<th>IM Client</th>
<th>IM Address</th>
<th>Web Version</th>
</tr>
</thead>
<tbody>
<tr>
<td>AOL Messenger</td>
<td>IM:PITTlibrarian</td>
<td>IM Express</td>
</tr>
</tbody>
</table>

1. Open the AOL instant link and click the start button.
2. Enter your AOL screen name and password and click sign on.
3. Use "send an Instant Message" option write "PITT Ask-A-Librarian"

<table>
<thead>
<tr>
<th>MSN Messenger</th>
<th><a href="mailto:ImPITTlibrarian@hotmail.com">ImPITTlibrarian@hotmail.com</a></th>
<th>MSN Web Messenger</th>
</tr>
</thead>
</table>

1. Open the MSN link and click on "Start MSN Web Messenger".
2. Enter your MSN email address and password to sign on.
3. Once connected, add "PITT Ask-A-Librarian" to your contact list.
4. You can send a message after the librarian accepts you as a contact.

<table>
<thead>
<tr>
<th>Yahoo Messenger</th>
<th><a href="mailto:ImPITTlibrarian@yahoo.com">ImPITTlibrarian@yahoo.com</a></th>
<th>Yahoo Web Messenger</th>
</tr>
</thead>
</table>

1. Open the Yahoo Messenger link.
2. Enter your Yahoo ID and password and sign on.

Privacy policy
Use of this service is your agreement to our Privacy Policy Statement. The Library respects the privacy of our users. This policy is intended to let users know how information collected by the Ask-a-Librarian service is used. At the completion of an IM all identifying information is saved to a folder on the reference librarian's desktop, but it is removed on a periodic basis. Transcripts, questions, or information gathered during reference sessions may be used by authorized library staff for training and research purposes—and used for research purposes—all identifying information will be removed.
VANDERBILT UNIVERSITY: Introducing Ask George!

http://www.library.vanderbilt.edu/peabody/research/askgeorge.html

Introducing Ask George!

Now you can send Instant Messages to Peabody Library's librarians and staff!

Look for the Ask George boxes on our Web site pages. If a librarian or staff member is available, the chat window will indicate that she is online. Simply type your question in the "Type here..." section and hit Enter to chat. If the librarian or staff member is not available, you can send an offline message, but messages sent this way are only stored for 12 hours. It would be better to send an e-mail during weekend and evening hours.

Availability

Our staff are generally in their offices between 8:00 am and 5:00 pm Monday through Friday. When they are available between these hours, they will be logged in. Please be aware that if a librarian or staff member is assisting a student in her office, or on the phone, she may not be able to respond to your IM immediately. Feel free to send an e-mail if the person you are trying to reach is offline, or unable to respond immediately.

Where do I find the Ask George boxes? And who can I chat with?
The Ask George boxes are located on Web pages where questions might come up.

Leslie Fouch is available at:
- the Human & Organizational Development resources page
- the Psychology and Human Development resources page

Lee Ann Lannom is available at:
- the Leadership, Policy, & Organizations resources page
- the Special Education resources page
- the Teaching and Learning resources page

Karen Swopes is available from the Room Reservations page.
Stacy Owens is available from the About the Library page.
Joell is available from the Learning Commons page.

More Ask George boxes and staffers will be added in the weeks to come—keep an eye out for George!

If you have questions about Ask George, or about other technical issues such as library computers, printers, or laptops, or about software such as Microsoft Office applications or EndNote, Ask Joell!!

Ask George FAQ

1. Who can use the Ask George service?
Ask George is intended for Peabody College students, faculty, and staff. Questions from other users will be responded to if resources permit.

2. What type of questions can I submit using Ask George?
IM chat is best for quick reference questions. We will attempt to answer any questions, but some requests might require direct email communication with a librarian or a scheduled research consultation.

3. Will I need to wait to chat with the person I need?
Patrons in the librarians' or staffers' offices have priority over IM patrons. IM patrons are taken on a first-come-first-served basis. Alternatively, you may always send an e-mail or visit the reference desk for assistance.

Think of IMing as similar to phoning—when someone is available, she will respond quickly, but if she is busy or out of the office, you'll need to leave a message, and she will respond as soon as she is available.

4. I'm having trouble getting through!
Here are a few things to try if the chat box doesn't seem to be working for you:
- Disable the chat box by clicking the green button in the top right corner, then re-connect by clicking anywhere in the box.
- Refresh the Web page.
- Try opening the page in a different browser. The application seems to work best in Firefox.
Virtual Worlds
SECOND LIFE

Second Life is a virtual environment where its over 7.5 million residents can build, share, play, and interact with each other. UCI Libraries has purchased an island in Second Life which we named Anteater Island found at the url http://slurl.com/secondlife/Anteater%20Island/162/188/26/.

The purpose of this investment is to foster and support creative design through course-related instruction and faculty research. In previous quarters courses such as Computer Games as Art, Culture and Technology (US 12) and Reasoning and Modeling with Graphical Models (CE 298) made using Anteater Island an integral part of the syllabus. Student teams in these classes not only used Second Life as a platform to build computer games, they also used it as a collaborative work environment. UCI Libraries wants to partner with creative faculty who are interested in this new technology. Participation could be limited to holding a single class session in Second Life to using a parcel of the island for an entire quarter.

Games & the Libraries

Bioactive
Games in the Libraries

Search

This site :

The University of Florida's George A. Smathers Libraries are currently investigating games for outreach, instruction, research, and professional communication. See upcoming events on the Games in the Libraries page.

This investigation includes both in person and virtual gaming:

- **Games in the Library**: events, including playing Guitar Hero in Library West.
- **Bioactive**: Bioactive is an interactive fiction game about bioterrorism. Players must use key UF library resources in order to save themselves and the school.
- **Second Life**: The Libraries are currently investigating and testing Second Life, an internet-based virtual world for social and professional interaction, for internal use and for patron services. To visit the virtual UF Library in Second Life, go to Cybrary City, coordinates: 97,15,24, or use the Second Life URL: http://slurl.com/secondlife/cybrary%20city/97/15/24/. Please contact Laura Jordan with any questions or suggestions.
Are you interested in Second Life or other virtual worlds and how experiences in virtual worlds can transform teaching and learning? The opening celebration was held on March 21. Visit University of KY Island for more details.

Check back on this page for more information as the island develops, but for now here are some links for exploring:

- Visit the UK island blog at http://ukisland.wordpress.com/
- Second Life - http://secondlife.com/
- University of KY - http://slurl.com/secondlife/University of KY/177/148/30
- UK SLED (Second Life Education) SharePoint site - https://sharepoint.uky.edu/UserGroups/SLED

Need help? In Second Life, instant message the island administrator, Wildcat Thursday. In real life, Wildcat Thursday masquerades as Patsy Carruthers in the Teaching & Academic Support Center. You can email her for more information at pcarr3@email.uky.edu.

---

UNIVERSITY OF MICHIGAN: Second Life @ the University of Michigan
http://mblog.lib.umich.edu/slum/
Lady Pipsqueak Fiddlesticks will be our guide to Tintern Abbey, one of the most carefully researched & crafted literary immersion experiences in Second Life. The Tintern Abbey build carefully researched not only the original literary work but also writings and letters from Wordsworth about the experiences which lead to the writing of the poem. The build is multimedia (make sure you have audio enabled!), with a variety of embedded student learning & enrichment activities.

Wordsworth, William. Lines Composed a Few Miles Above Tintern Abbey, On Revisiting the Banks of the Wye During a Tour, July 13, 1798:

2008 Horizon Report - Emerging technologies and higher ed

Recently, EDUCAUSE and the New Media Consortium published the 2008 version of The Horizon Report. The 2008 report focuses on six areas of emerging technologies that will have an impact on higher education including grassroots video, collaboration webs, mobile broadband, data mashups, collective intelligence, and social operating systems. Examples are given of institutions and organizations that are using these tools as well as links to further reading. This is an excellent summer read as we all consider ways to use these fabulous tools in learning.

www.educause.edu/ir/library/pdf/EL108197.pdf

Enjoy the summer!

Advertising Age Supplements of possible interest

The following two publications were recently brought to my attention. These are particularly useful (and free) supplements from Advertising Age that contain advertising information that would be difficult to find elsewhere. For example, the Digital Marketing & Media Fact Pack contains consumer internet usage, blog user stats, search engine market share, mobile device user stats, and social networking demographics amongst other stats and info. The Search Marketing Fact Pack has info on topics such as “driving traffic to Wikipedia and YouTube” and search site statistics.

Digital Marketing & Media Fact Pack

Search Marketing Fact Pack

APRIL 15, 2008

UNdata - single entry point for UN statistics

The UN Statistical division has recently launched a new database, UNdata, that searches across all their statistical databases, over 55 million records, making it obviously much easier to search for global statistics. The interface is fairly intuitive and results pages provide information as to what database the statistics are pulled from. The database is available at:

Instant Message with GU Library Staff

When is IM available?
Monday-Thursday: 1pm-7pm
Friday: 1pm-5pm

Who can use IM?
This service is intended primarily for Georgetown University students, faculty, and staff, but questions from other users will be addressed as appropriate.

What kinds of questions can I ask?
We will attempt to answer all of your questions. In order to answer your questions fully, you may be asked to contact our Reference Staff for further assistance.

How long will I have to wait to get a response from library staff?
Staff will respond as soon as possible, but users at the Reference Desk have priority over IM users. IM users are taken in a first-come-first-served order. Remember at any time you may contact our Reference Staff or visit the Reference Desk on the third floor of Lauinger Library for assistance.

Do I need any special programs or software to use chat reference?
No special software is required. Just start typing in the "IM at GU Libraries" box on the right side of this page. If, however, you use AIM, Yahoo Instant Messenger, Google Chat, or MSN Messenger you can also IM by sending an IM to the screen name "royalibchat".

Please do not close this window once you have started an IM session.

Library Developed Widgets
New Google and Facebook gadgets bring the MIT Libraries to you!

Posted September 7th, 2007 by Ronnie Green

Two new beta gadgets make searching resources of the MIT Libraries even easier! A new Facebook application and Google gadget will allow you to search the Libraries directly from your personal pages.

Facebook Application:
The Facebook application contains search boxes for the Barton web catalog and for Vera, the collection of online journals and databases, along with links to Your Account and Ask Us for research help.

If you already have a Facebook account, you’re only a few clicks away from adding the MIT Libraries application.

Google Gadget:
Did you know that you can personalize your Google homepage? Now, you can add a gadget to your Google page to search the collections of the MIT Libraries!

To add this gadget to your Google homepage, click this button: 

You can also embed the gadget on any other webpage that you’ve created.

Thanks to Amy Slaut, Nicole Hennig, Rob Wolfe, and Todd Raustenberg for developing these applications.

News Home:
MIT Libraries News is powered by WordPress.
RSS Feed: Subscribe to our RSS feed.
Tools and Widgets

The University of Minnesota Libraries offers many different tools and widgets that may be used directly or incorporated into other applications such as Google, Amazon, or your browser. We hope to develop more so stay tuned!

Direct use tools
- Refworks: Citation manager – Manage your bibliography online
- UThink: Blogs at the University of Minnesota – Create a University of Minnesota blog
- CitationLinker: Find full text – Find out if the libraries has the full text of a known article citation
- Assignment Calculator – Easily map out the steps needed to complete an assignment
- RSS URL Converter – Have licensed RSS content that you can't get to from off campus? Convert the RSS URL to a U of M recognized RSS feed and get access from both on campus and off!

Incorporate these widgets and feeds into existing applications
- Libraries News Feed (RSS, XML, Atom) – The library offers many different feeds to add to an aggregator or another website
- Install the U of M Libraries browser toolbar – Search library resources from this handy browser toolbar
- Install MNCAT search in Firefox and Internet Explorer 7 – Search MNCAT from your browsers built in search box
- Add MNCAT Lookup to Amazon Searches – Determine if a book found in Amazon is at the U of M Libraries
- Add the Libraries Search tool to MyU and Google – The search box on the home page can be added to MyU and Google
- Add MNCAT (Catalog only) to Google – Add a MNCAT search box to Google that stays within the Google interface

LIBwidgets

This section of the University of Texas Libraries Web site lists a variety of widgets that you may find useful while conducting research.

What is a widget?
Widgets bring the libraries that services to you. They include Web applications, simple add-ons for your Web browser, and other shortcuts that make researching a little easier. If you would like to learn more about widgets, watch our video demonstration or read this Newsweek article on the topic.

How do I get started?
Each of the widgets we have listed on our site includes a description and installation instructions. Click on a widget below to learn more.

searchwidgets

CD/DVD Search Plug-in for the University of Texas Libraries
A Web browser add-on that allows you to search for CDs and DVDs at the University of Texas Libraries.

Facebook App for the University of Texas Libraries
An application you add to your Facebook account that allows you to search the University of Texas Libraries resources from within Facebook.

Google Gadget for the University of Texas Libraries
An application you can add to your standard Google home page, blog, or any other Web page.

Google Toolbar Button for the University of Texas Libraries
Add a button to your Google Toolbar for an easy way to search the University of Texas Libraries catalog.

Law Library Search Plug-in
A Web browser add-on that allows you to search the University of Texas Law Library’s catalog.

Library Catalog Search Plug-in
A Web browser add-on that allows you to search the University at Large.

recommend widgets

LIB Firefox Add-on for the University of Texas Libraries
A Web browser add-on that allows you to search the University of Texas Libraries resources with tools, right-click menus, advanced search, and more.

OpenURL Referrer
If you are searching for resources on Google News Reform or Google Scholar, this browser add-on will automatically create a "link is at" link that will take you straight to the resource in our catalog.

information organizing widgets

Del.icio.us Web Browser Add-ons
Bookmark any organized Web page with http://del.icio.us using these Web browser add-ons.

Flicker Uploadr
Clicking photos from the Web for a research project, use the Flicker Uploadr to keep your photos organized on the Web.

Google Notebook
A tool that will let you copy text, images and links from Web pages into your notebook.

Google Send to Phone
Are you in the library and want to send something to your phone? This add-on will allow you to send whatever text from the browser to your cell phone as a text message.

NoodleBib
An application that helps you create MLA or APA-formatted citations online. Save as a Word document to turn in with your paper.

TextMarker
A Firefox extension add-on that highlights text online within your browser window. Even sticky notes and notes as you write.

Zoho Notebook
A tool that helps you aggregate content from multiple sources or publications.

Zotero
A Firefox browser add-on that "helps you collect, manage, and cite your research sources."

recommend widgets

ClipMarks
A free browser add-on that lets you do fast, image and note captures from Web pages then save, edit, email and print to share your "clips" with others.

PSWiki
A free web tool that is useful for everyone (even computer beginners).

UNIVERSITY OF FLORIDA: Library 2.0 Working Group

http://uflibrary.pbwiki.com/

Library 2.0 Working Group, August 2007-8

Next Meeting, after ALA on:
- Fall LiTech Expo (will be the first week of school, coordinated with HSC Library and Law, on first and third floor, guitar hero, fliers, books, speakers perhaps, geewow, MRaM for food)
- Working on getting the Libraries’ work added to pages like this one so that we can better serve patrons.
- LibGuides policy discussion, a potential draft policy is on the LibGuides wiki page.
- Survey (Elizabeth, Marilyn, and Jason have notes from the expo and are planning; Matt and Jason have other notes from the expo that they’ll compile and share.
- Other:
  - Laurie will have sent another blog announcement (on June 3), and Stephen or Amy may have held trainings to report on
  - Wikis
  - Val, Sara, and Winston go to Ithaca June 1-4th for a VIVO training session, and will present at the July 10th Cross-divisional meeting (and maybe others after that as needed)

Past Meetings, Agendas, Activities, and notes:

User Interface Group

Charge

The User Interface Group serves as the decision-making team for design of the Libraries' public user interfaces. This includes the following:

- libraries public web site
- libraries staff web site (for staff communication, but also is viewed by the public)
- Barton catalog
- Vera
- SFX
- Illiad web pages
- any new system we implement that has an interface for use by our public users that can be modified

The group works in an advisory role with the DSpace Product Manager on interface design issues of DSpace at MIT.

The group also looks for opportunities to make our information accessible via web services for use in other interfaces at MIT (such as RSS feeds, xml web services, etc.) This means that the writing style of our content needs to be considered for contexts other than the web site that it originally appeared in. This group will be positioned to consider how our content might best be presented for those various contexts.

Chaired by the Web Manager/Usability Specialist, the group is responsible for initiating and coordinating user interface design of our web-based services. Its members may lead subgroups, act in a liaison role, or coordinate discussions among groups and individuals responsible for various systems we implement for our public.

The User Interface Group will replace the Web Advisory Group beginning in July 2006.

- July 2006
PSUL Social Networking Group

The Penn State Libraries Social Networking Group explores various new technologies (some that may even fall outside of the social networking designation) and how best to implement them at the Libraries. Because of the ubiquitous nature of technology, our efforts often involve various departments in the Libraries and outside.

Members:
- Ellysa Cahoy
- Andrew "Richard" Calvin
- Mike Halm
- Jim Leous - Current Moderator
- Binky Lush
- John "Radio Voice" Meier
- Sylvia Mackinnon
- Emily Rimland
- Kevin Clair
- Anne Behler

Agenda for Podcast Recording: Friday, Feb. 29, 2008
