IRs and Data Archives
Academic Commons is Columbia University's digital repository where faculty, students, and staff of Columbia and its affiliate institutions can deposit the results of their scholarly work and research. Content in Academic Commons is freely available to the public.

New in Academic Commons:

- **Do Politics Matter to this Watchdog? The Effects of Ideology on Civil Enforcement at the U.S. Securities and Exchange Commission**
  - Kallmer, Jonathan S.
- **Citizen-Subjectivity, Experiential Evaluation, and Activist Strategies: Explaining Algerian Violence and Polish Peace under Authoritarian Rule**
  - Elia, Anthony J.
- **Cosmology with Weak Lensing Peaks**
  - Rudy, Sayres Steven
- **Imagining a New Belfast: Municipal Parades in Urban Regeneration**
  - Yang, Xiuyuan
- **Leveraging Human-environment Systems in Residential Buildings for Aggregate Energy Efficiency and Sustainability**
  - Sivolella, John Joseph
- **Divided Loyalties and Shifting Perceptions: The Jokyu Disturbance and Courtier-Warrior Relations in Medieval Japan**
  - Keenan, Katharine
- **Essays in Financial Economics**
  - McGuire, Leah Anne
- **A Comparative Analysis of the Revised Children's Manifest Anxiety Scale Scores of Traumatized Youth With and Without PTSD Relative to Non-Traumatized Controls**
  - Shtauber, Assaf Aharon
The Institutional Repository at the University of Florida is the digital archive for the intellectual output of the University of Florida community, and includes research, news, outreach, and educational materials.

Submit your research (FAQ and video of the process)

The University of Florida Libraries established and supports the IR@UF in order to offer a central location for the collection, preservation, and dissemination of scholarly, research, and creative production alongside historical materials from the University of Florida. The historical materials provide context for research and researchers, enabling insight into the history, nature, and culture of the University. The IR@UF includes the following open access materials from UF authors and UF colleges:

- Journal Articles
- Conference Papers and Proceedings
- Monographs and Monograph Series
- Technical Reports
- Theses and Dissertations
- White Papers
- Data and data sets (standalone or with publications)
- Journals and Other Publications of UF Colleges
- Grant Proposals
- Materials from the University Archives, such as graduation programs, photographs, audio and video of recent and historic campus events and people, campus directories and some yearbooks

The IR@UF encourages university units to contribute their open access research, reports and other materials to the IR@UF for archiving and dissemination free of commercial cost.

If you don’t have a GatorLink account yet, you can create an account from the sign on page of the myUFL Portal. Create a new account

An RSS feed from the IR@UF keeps subscribers up to date on all new submissions. To subscribe, click here.

The Harvard Dataverse Network is open to all scientific data from all disciplines worldwide. It includes the world’s largest collection of social science research data. If you would like to upload your research data, first create a dataverse and then create a study. If you already have a dataverse, log in to add new studies. Learn more about the Dataverse Network.

UNIVERSITY OF NEBRASKA–LINCOLN
UNL Data Repository
https://dataregistry.unl.edu/

UNL Libraries and Information Services created the UNL Data Repository to provide for the growing requirements by external funding agencies for data management and data sharing. This repository, designed to provide researchers with a secure site for storage of data collections that are no longer actively in use, allows the researcher to stably retain data for future use and/or sharing with other interested parties. The UNLDR exists to manage data in a manner that facilitates research and scholarly activities, and that simplifies access to vital and unique research data.

The data and project information deposited by researchers maintains its value over time with information (known as metadata) that outlines its importance, its long-term usability, and the dedicated efforts of those who were involved.

Questions about depositing data may be directed to DeeAnn Allison, Professor, University Libraries at dallison@unl.edu or 402-472-3944.

Costs

Proposers should include a line item in their project budget to cover the costs of data storage. This one-time charge should be requested during the final year of project support to ensure data storage and maintenance for a minimum of five years beyond the award period. Please use the following figures in your budget:

<table>
<thead>
<tr>
<th>Gigabytes</th>
<th>Storage Costs</th>
</tr>
</thead>
<tbody>
<tr>
<td>100*</td>
<td>$500</td>
</tr>
<tr>
<td>200</td>
<td>$1,250</td>
</tr>
<tr>
<td>500</td>
<td>$2,500</td>
</tr>
<tr>
<td>1000</td>
<td>$5,000</td>
</tr>
</tbody>
</table>

* This is the minimum amount of storage that can be requested.

For more information regarding data storage, contact Kevin Murphy, Information Services, at 402-472-6466 / kmurphy@unl.edu or DeeAnn Allison, Professor, University Libraries at 402-472-3944 / dallison@unl.edu.
This community is interdisciplinary in scope and contains research data sets produced by UNM faculty.

Scholars' Bank

Purpose/Scope: Scholars' Bank is the open access repository for the intellectual work of faculty, students and staff at the University of Oregon. Open access journals, student projects, theses, dissertations, pre and post-print articles, instructional resources and university archival material are all candidates for deposit.

To contribute: To start depositing to Scholars' Bank please send us a message.

ScholarSphere is a secure repository service enabling the Penn State community to share its research and scholarly work with a worldwide audience. Faculty, staff, and students can use ScholarSphere to collect their work in one location and create a durable and citeable record of their papers, presentations, publications, data sets, or other scholarly creations. Through this service, Penn State researchers can also comply with grant-funding-agency requirements for sharing and managing research data.
Publish Datasets with DOIs

Use PURR to publish datasets with Digital Object Identifiers (DOI) that make it easier for people to cite your data and give you credit. Purdue is a founding member of DataCite, the international agency that registers DOIs for data.

Start Your Research Project

Create a Data Management Plan
Learn about the detailed requirements for your data management plan (DMP). Funding agency requirements are very specific and our DMP resources can help you to clear up any confusion. Get Started.

Upload Research Data to Your Project
Create a project to upload and share your data with collaborators using our step-by-step form to guide you through the process. Invite collaborators from other institutions to join your project. Create a Project.

Publish your Dataset
Package, describe, and publish your dataset with a Datacite DOI. Publishing will ensure your dataset is citable, reusable, and archived for the long-term. See Published Datasets.

Featured Dataset

Evaluation of Function Predictions for Moonlighting Proteins
By Ishita K. Khan, Meghana Chitale, Catherine Rayon, Daisuke Kihara
Purdue University, Université de Picardie Jules Verne

Supplemental datasets used for evaluation of function predictions for moonlighting proteins.
