DEPOSIT YOUR WORK IN
ACADEMIC COMMONS

Current faculty, staff, and students of Columbia and its affiliates are invited to deposit research materials in any digital format, including: articles, monographs, theses and dissertations, working papers, technical reports, conference papers and presentations, datasets, images, video and other multimedia creations, and software code.

To learn more about the benefits of depositing your work into Academic Commons, visit our FAQ or email our Digital Repository Manager.

The **Institutional Repository at the University of Florida** is the digital archive for the intellectual output of the University of Florida community, and includes research, news, outreach, and educational materials.

[Publish]   Submit your research (**FAQ** and video of the process)

The University of Florida Libraries established and supports the *IR@UF* in order to offer a central location for the collection, preservation, and dissemination of scholarly, research, and creative production alongside historical materials from the University of Florida. The historical materials provide context for research and researchers, enabling insight into the history, nature, and culture of the University. The *IR@UF* includes the following open access materials from UF authors and UF colleges:

- Journal Articles
- Conference Papers and Proceedings
- Monographs and Monograph Series
- Technical Reports
- Theses and Dissertations
- White Papers
- Data and data sets (standalone or with publications)
- Journals and Other Publications of UF Colleges
- Grant Proposals
- Materials from the University Archives, such as graduation programs, photographs, audio and video of recent and historic campus events and people, campus directories and some yearbooks

The *IR@UF* encourages university units to contribute their open access research, reports and other materials to the *IR@UF* for archiving and dissemination free of commercial cost.

If you don't have a GatorLink account yet, you can create an account from the sign on page of the myUFL Portal. *Create a new account >*

An RSS feed from the *IR@UF* keeps subscribers up to date on all new submissions. To subscribe, click here.

Home

UNL Libraries and Information Services created the UNL Data Repository to provide for the growing requirements by external funding agencies for data management and data sharing. This repository, designed to provide researchers with a secure site for storage of data collections that are no longer actively in use, allows the researcher to stably retain data for future use and/or sharing with other interested parties. The UNLDR exists to manage data in a manner that facilitates research and scholarly activities, and that simplifies access to vital and unique research data.

The data and project information deposited by researchers maintains its value over time with information (known as metadata) that outlines its importance, its long–term usability, and the dedicated efforts of those who were involved.

Questions about depositing data may be directed to DeeAnn Allison, Professor, University Libraries at dallison@unl.edu ✉ or 402–472–3944

Costs

Proposers should include a line item in their project budget to cover the costs of data storage. This one–time charge should be requested during the final year of project support to ensure data storage and maintenance for a minimum of five years beyond the award period. Please use the following figures in your budget:

Gigabytes	Storage Costs
100*	$500
200	$1,250
500	$2,500
1000	$5,000

* This is the minimum amount of storage that can be requested.

For more information regarding data storage, contact Kevin Murphy, Information Services, at 402–472–6466 / kmurphy@unl.edu ✉ or DeeAnn Allison, Professor, University Libraries at 402–472–3944 / dallison@unl.edu ✉

Begin depositing your data.   [Click Here]

What is ScholarSphere?

ScholarSphere is a secure repository service enabling the Penn State community to share its research and scholarly work with a worldwide audience. Faculty, staff, and students can use ScholarSphere to collect their work in one location and create a durable and citeable record of their papers, presentations, publications, data sets, or other scholarly creations. Through this service, Penn State researchers can also comply with grant-funding-agency requirements for sharing and managing research data.
