MARK YOUNG
MARTHA KYRILLIDOU

ARL Academic Law Library Statistics is published annually by

Association of Research Libraries
21 Dupont Circle, NW, Suite 800
Washington, D.C. 20036
Telephone: (202) 296-2296
FAX: (202) 872-0884
email: pubs@arl.org

The *ARL Academic Law Library Statistics* datafiles,
with accompanying documentation, are available at
<http://www.arl.org/stats/annualsurveys/law/index.shtml>

The tables presented in this publication are not indicative of performance and outcomes and should not be used as measures of library quality. In comparing any individual library to ARL medians or to other ARL members, one must be careful to make such comparisons within the context of differing institutional and local goals and characteristics.

HIGHLIGHTS
ARL ACADEMIC LAW LIBRARY STATISTICS, 2005-06

- Out of 113 ARL university libraries, 75 responded to this survey.¹
- Law libraries reported median values of 322,284 volumes held and 7,446 gross volumes added. Also, these libraries employed the full-time equivalent of 2,238 staff members in the fiscal year 2004-05.
- Responding libraries reported total expenditures of \$206,514,082.² As seen in the graph below, materials expenditures made up the largest portion of the total, with 46.74% of aggregated expenses falling under a materials-related category.
- Law libraries reported a total of \$14,893,320 on electronic materials, or a median of 15.27% of their total materials budgets. This includes a total of \$13,167,729 on electronic serials.

Expenditures in ARL Law Libraries, 2005-06

¹ 79 ARL university libraries included data for a Law library in the 2005-06 *ARL Statistics*; among them, Alberta, British Columbia, Laval, Manitoba, and Wayne State did not complete this survey. Alberta completed this survey in the past, but chose not to complete this survey in 2005-06. Colorado completed this survey but did not include a Law library on the *ARL Statistics*. Rutgers has two administratively independent Law libraries, which respond separately to this survey; they are aggregated together in the *ARL Statistics*.

² This figure includes Canadian universities, whose expenditures were converted to U.S. dollars at the rate of 1.16289 Can\$ = 1 US\$, the average monthly noon exchange rate published in the *Bank of Canada Review* for the period July 2005-June 2006.

* Did not include a Law Library in the ARL Statistics 2005-06

ARL STATISTICS 2005-06 LAW LIBRARY WORKSHEET

This worksheet is designed to help you plan your submission for the 2005-06 *ARL Statistics*. Include here ONLY those libraries which would appear in the *ARL Academic Law Library Statistics* publication.

Please respond to all questions. If an exact figure is unavailable, use "NA/UA". If the appropriate answer is zero or none, use "0."

ENROLLMENT – FALL 2005

(Line numbers refer to IPEDS survey form.)

39. Full-time students, undergraduate and graduate (39) _____
(Add line 8, columns 15 & 16, and line 14, columns 15 & 16.)

40. Part-time students, undergraduate and graduate (40) _____
(Add line 22, columns 15 & 16, and line 28, columns 15 & 16.)

41. Full-time graduate students *(Line 14, columns 15 & 16.)* (41) _____

42. Part-time graduate students *(Line 28, columns 15 & 16.)* (42) _____

FOOTNOTES

On the web form, you will be able to add footnotes to individual questions, as well as footnotes that apply to your entire institution. Please provide any information which would clarify the figures submitted, e.g., the inclusion of branch campus libraries or any special projects which might cause radical increases or decreases from the 2004-05 data. **The form will not be able to provide your institution's 2004-05 footnotes.** Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire by **January 30, 2007**

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Mark Young (stats-ra@arl.org)
Tel. (202) 296-2296.

ARL STATISTICS QUESTIONNAIRE, 2005-06

INSTRUCTIONS FOR COMPLETING THE QUESTIONNAIRE

General Instructions

Definitions of statistical categories can be found in NISO Z39.7-2004, *Information Services and Use: Metrics & statistics for libraries and information providers--Data Dictionary* (<http://www.niso.org/emetrics/current/index.html>). ARL has been modifying the interpretation of the standard definitions to address questions posed by the library staff at various member institutions that complete the survey and with feedback from the ARL Statistics and Assessment Committee (<http://www.arl.org/stats/program/meeting.html>).

Please do not use decimals. All figures should be rounded to the nearest whole number.

Please respond to every question. If an exact figure cannot be provided, use NA/UA to indicate that the figure is either unavailable or not applicable. If the appropriate answer is zero or none, use **0**.

Although the form allows for data to be entered from both main and branch campuses, an effort should be made to report figures for the main campus only. (The U.S. National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS) defines a **branch institution** as “a campus or site of an educational institution that is not temporary, is located in a community beyond a reasonable commuting distance from its parent institution, and offers organized programs of study, not just courses.”) If figures for libraries located at branch campuses are reported, please specify which branch libraries are included and which ones are excluded in the notes below.

A **branch library** is defined as an auxiliary library service outlet with quarters separate from the central library of an institution, which has a basic collection of books and other materials, a regular staffing level, and an established schedule. A branch library is administered either by the central library or (as in the case of some law and medical libraries) through the administrative structure of other units within the university. Departmental study/reading rooms are not included.

The questionnaire assumes a fiscal year ending **June 30, 2006**. If your fiscal year is different, please indicate this in the notes below by adjusting the reporting period.

Footnotes. Explanatory footnotes will be included with the published statistics. Provide any notes you may have in the footnotes area at the end of the survey. Reporting libraries are urged to record there any information that would clarify the figures submitted in that line, e.g., the inclusion and exclusion of branch campus libraries. Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Specific Instructions

Question 1. Volumes in Library. Use the ANSI/NISO Z39.7-2004 definition for **volume** as follows:

a single physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, distinguished from other units by a separate binding, encasement, portfolio, or other clear distinction, which has been cataloged, classified, and made ready for use, and which is typically the unit used to charge circulation transactions. Either a serial volume is bound, or it comprises the serial issues that would be bound together if the library bound all serials.

Include duplicates and bound volumes of periodicals. For purposes of this questionnaire, unclassified bound serials arranged in alphabetical order are considered classified. Exclude microforms, maps, nonprint materials, and uncataloged items. If any of these items cannot be excluded, please provide an explanatory footnote

Include government document volumes that are accessible through the library's catalogs regardless of whether they are separately shelved. "Classified" includes documents arranged by Superintendent of Documents, CODOC, or similar numbers. "Cataloged" includes documents for which records are provided by the library or downloaded from other sources into the library's card or online catalogs. Documents should, to the extent possible, be counted as they would if they were in bound volumes (e.g., 12 issues of an annual serial would be one or two volumes). Title and piece counts should not be considered the same as volume counts. If a volume count has not been kept, it may be estimated through sampling a representative group of title records and determining the corresponding number of volumes, then extrapolating to the rest of the collection. As an alternative, an estimate may be made using the following formulae:

52 documents pieces per foot
10 "traditional" volumes per foot
5.2 documents pieces per volume

Include e-book units, as long as these e-books have been purchased and are owned by your library. If you have access to netLibrary titles as a result of participating in various consortia, **do not** report these e-books as your library's property unless the e-books actually belong to your library. If the books were purchased by a consortium, they may belong to the consortium itself and not to the participating libraries. Report only the number of e-books that belong to your library and are cataloged, classified and made ready for use. Provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles in a note.

For information on how to count items housed in remote storage, see the Interim Guidelines for Counting Materials Housed in Library Storage Centers, at <http://www.arl.org/stats/arlstat/storage.html> .

If either formulas or sampling are used for deriving your count, please indicate in a footnote.

Question 1b. Volumes Added. Include only volumes cataloged, classified, and made ready for use. Include government documents if they have been included in the count of volumes on line 1a. Do not include as part of Volumes Added Gross any government documents or other collections (such as large gift collections or e-book packages) that were added to the collection as the result of a one time download or addition to the OPAC. Include these items in Volumes Held of the previous year (Line 1a) and provide a footnote explaining the revision of Line 1a.

Include e-book units, as long as these e-books have been purchased and are owned by your library. If you have access to netLibrary titles as a result of participating in various consortia, **do not** report these e-books as your library's property unless the e-books actually belong to your library. If the books were purchased by a consortium, they may belong to the consortium itself and not to the participating libraries. Report only the number of e-books that belong to your library and are cataloged, classified and made ready for use. Provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles in a note.

Question 2. Monographic Volumes Purchased. Report number of volumes purchased; do not include volumes received or cataloged. Include all volumes for which an expenditure was made during 2005-06, including volumes paid for in advance but not received during the fiscal year. Include monographs in series and continuations. Include e-books that fit the netLibrary model, i.e., electronic manifestations of physical entities and/or units; provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles. If only number of titles purchased can be reported, please report the data and provide an explanatory footnote.

Question 3: Basis of Volume Count. A physical count is a piece count; a bibliographic count is a catalog record count.

Questions 4-5. Serials. Report the total number of subscriptions, not titles. Include duplicate subscriptions and, to the extent possible, all government document serials even if housed in a separate documents collection. Verify the inclusion or exclusion of document serials in Question 5. Exclude unnumbered monographic and publishers' series.

Electronic serials acquired as part of an aggregated package (e.g., Project MUSE, BioOne, ScienceDirect) should be counted by title. A **serial** is

a publication in any medium issued in successive parts bearing numerical or chronological designations and intended to be continued indefinitely. This definition includes periodicals, newspapers, and annuals (reports, yearbooks, etc.); the journals, memoirs, proceedings, transactions, etc. of societies; and numbered monographic series.

In the case of consortial agreements, count under Q4a only those subscriptions to titles for which the library pays directly from its budgeted expenditures reported under Q15b (expenditures for serials). Count under Q4a only those titles and subscriptions for which your library pays. Report other subscriptions that your library receives and does not pay for directly under Q4b (serials received and not purchased). If a purchased subscription includes electronic access to the title, count that subscription twice: once for the print version and once for the electronic version. If serials have been purchased through a consortium whose budget is centrally funded and independent from the library's budget, these serials should be reported under Q4b.

Do not include the full-text serials from such indexing/abstracting products as Wilson Social Sciences Abstracts Full Text, Lexis-Nexis, ABI/INFORM, and other indexes with access to the full text of articles. These full-text titles are counted in in the ARL Supplementary Statistics.

Question 4b. Serials: Not Purchased. Record those serials whose subscriptions were received without purchase for whatever reason. If separate counts of nonpurchased and purchased serials are not available, report only the total number of current serials received on line 4, and report U/A for lines 4a and 4b.

Question 6. Microforms. Report the total number of physical units: reels of microfilm, microcards, and microprint and microfiche sheets. Include all government documents in microform; provide a footnote if documents are excluded.

Question 7. Government documents. Report the total number of physical units (pieces) of government documents in paper format that have not been counted elsewhere. Include local, state, national, and international documents; include documents purchased from a commercial source if shelved with separate documents collections and not counted above. Include serials and monographs. To estimate pieces from a measurement of linear feet, use the formula $1 \text{ foot} = 52 \text{ pieces}$ and indicate in a footnote that the count is based on this estimate. Exclude microforms and nonprint formats such as maps or CD-ROMs. Adjust line 1a, i.e., last year's Volumes Held, and provide a footnote if you are adding records to the OPAC for government documents previously held but not counted as part of Volumes Held (line 1a).

Question 8. Computer files. Include the number of pieces of computer-readable disks, tapes, CD-ROMs, and similar machine-readable files comprising data or programs that are locally held as part of the library's collections available to library clients. Examples are U.S. Census data tapes, sample research software, locally-mounted databases, and reference tools on CD-ROM, tape or disk. Exclude bibliographic records used to manage the collection (i.e., the library's own catalog in machine-readable form), library system software, and microcomputer software used only by the library staff.

Question 9. Manuscripts and archives. Include both manuscripts and archives measured in linear feet.

Question 10. Cartographic materials. Include the numbers of pieces of two- and three-dimensional maps and globes. Include satellite and aerial photographs and images.

Question 11. Graphic materials. Include the number of pieces of prints, pictures, photographs, postcards, slides, transparencies, film strips, and the like.

Question 12. Audio materials. Include the number of pieces of audiocassettes, phonodiscs, audio compact discs, reel-to-reel tapes, and other sound recordings.

Question 13. Film and video materials. Include the number of pieces of motion pictures, videocassettes, video laser discs, and similar visual materials.

Questions 14-20. Expenditures. Report all expenditures of funds that come to the library from the regular institutional budget, and from sources such as research grants, special projects, gifts and endowments, and fees for service. (For question 17, include non-library funds; see instruction Q17.) Do not report encumbrances of funds that have not yet been expended. **Canadian libraries should report expenditures in Canadian dollars.** (For your information, if interested in determining figures in U.S. dollars, divide Canadian dollar amounts by 1.16289, the average monthly noon exchange rate published in the Bank of Canada *Review* for the period July 2005-June 2006.) **Please round figures to the nearest dollar.**

Question 15a. Monographs. Report expenditures for volumes counted on line 2.

Question 15b. Current Serials. Report expenditures for serials counted on line 4a. Exclude unnumbered monographic and publishers' series, and encumbrances.

Question 15c. Other library materials. Include expenditures for all materials not reported in Questions 15a and 15b, e.g., backfiles of serials, charts and maps, audiovisual materials, manuscripts, etc. If expenditures for these materials are included in lines 15a and/or 15b and cannot be disaggregated, please report U/A and provide a footnote. Do not include encumbrances.

Question 15d. Miscellaneous expenditures. Include any other **materials funds expenditures** not included in questions 15a-c, e.g., expenditures for bibliographic utilities, literature searching, security devices, memberships for the purposes of publications, etc. Please list categories, with amounts, in a footnote. **Note:** If your library does not use materials funds for non-materials expenditures—i.e., such expenditures are included in “Other Operating Expenditures”—**report 0, not U/A**, on line 15d.

Question 16. Contract Binding. Include only contract expenditures for binding done outside the library. If all binding is done in-house, state this fact and give in-house expenditures in a footnote; do not include personnel expenditures. (This figure should also be reported in the 2005-06 ARL Preservation Survey, question 7b.)

Questions 17. Salaries and wages. Exclude fringe benefits. If professional and support staff salaries cannot be separated, enter U/A, on lines 17a and 17b and enter total staff on line 17.

Question 17c. Salaries and wages: Student Assistants. Report 100% of student wages regardless of budgetary source of funds. Include federal and local funds for work study students.

Question 19. Other operating expenditures. Exclude expenditures for buildings, maintenance, and fringe benefits.

*Questions 21-25. Electronic materials expenditures. These items are intended to indicate what portion of your institution's total library expenditures are dedicated to electronic resources and services. Please use the Footnotes to indicate any electronic materials expenditures you believe not to be covered by these questions. **Many expenditures recorded in these questions should have been included in Question 20, total library expenditures.***

Question 21. Computer files. Report expenditures that are not current serials (i.e. are non-subscription, one-time, or monographic in nature) for software and machine-readable materials considered part of the collections. Examples include periodical backfiles, literature collections, one-time costs for JSTOR membership, etc. Expenditures reported here may be derived from any of the following categories: Monographs (Q15a), Other Library Materials (Q15c), Miscellaneous (Q15d), or Other Operating Expenditures (Q19).

Question 22. Electronic Serials. Report subscription expenditures (or those which are expected to be ongoing commitments) for serial publications whose primary format is electronic and for online searches of remote databases such as OCLC FirstSearch, DIALOG, Lexis-Nexis, etc. Examples include paid subscriptions for electronic journals and indexes/abstracts available via the Internet, CD-ROM serials, and annual access fees for resources purchased on a “one-time” basis, such as literature collections, JSTOR membership, etc. Not all items whose expenditures are counted here will be included in Total Current Serials (Question 4) or Current Serial Expenditures (Question 15b).

Q23. Bibliographic Utilities, Networks, and Consortia. Because it is increasingly common for ARL Libraries to enter into consortial arrangements to purchase access to electronic resources, both “Library” and “External” expenditure blanks and instructions are provided. Please use a footnote to describe expenditures that you believe are not covered by the question, or situations that do not seem to fit the instructions.

Q23a. From internal library sources. Report expenditures paid by the Library for services provided by national, regional, and local bibliographic utilities, networks, and consortia, such as OCLC and RLG, unless for user database access and subscriptions, which should be reported in Questions 21 or 22. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q23b. From external sources. If your library receives access to computer files, electronic serials or search services through one or more centrally-funded system or consortial arrangements for which it does not pay fully and/or directly (for example, funding is provided by the state on behalf of all members), enter the amount paid by external bodies on its behalf. If the specific dollar amount is not known, but the total student FTE for the consortium and amount spent for the academic members are known, divide the overall amount spent by your institution’s share of the total student FTE.

Q24. Computer hardware and software. Report expenditures from the library budget for computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer, and whether for staff or public use. Include expenditures for: maintenance; equipment used to run information service products when those expenditures can be separated from the price of the product; telecommunications infrastructure costs, such as wiring, hubs, routers, etc. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q25. Document Delivery/Interlibrary Loan. Report expenditures for document delivery and interlibrary loan services (both borrowing and lending). Include fees paid for photocopies, costs of telefacsimile transmission, royalties and access fees paid to provide document delivery or interlibrary loan. Include fees paid to bibliographic utilities if the portion paid for interlibrary loan can be separately counted. Include only expenditures that are part of Miscellaneous Materials Expenditures (Q15d) or Other Operating Expenditures (Q19), and only for those ILL/DD programs with data recorded in Questions 34-35.

Questions 26. Personnel. Report the number of staff in filled positions, or positions that are only temporarily vacant. ARL defines temporarily vacant positions as positions that were vacated during the fiscal year for which ARL data were submitted, for which there is a firm intent to refill, and for which there are expenditures for salaries reported on line 17.

Include cost recovery positions and staff hired for special projects and grants, but provide an explanatory footnote indicating the number of such staff. If such staff cannot be included, provide a footnote. To compute full-time equivalents of part-time employees and student assistants, take the total number of hours per week (or year) worked by part-time employees in each category and divide it by the number of hours considered by the reporting library to be a full-time work week (or year). **Round figures to the nearest whole numbers.**

Question 26a. Professional Staff. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term “professional.” Each library should report those staff members it considers professional, including, when appropriate, staff who are not librarians in the strict sense of the term, for example computer experts, systems analysts, or budget officers.

Question 26c. Student Assistants. Report the total FTE (see instruction Q26) of student assistants employed on an hourly basis whose wages are paid from funds under library control or from a budget other than the library’s, including federal work-study programs. Exclude maintenance and custodial staff.

Question 27. Number of staffed library service points. Count the number of staffed public service points in the main library and in all branch libraries reported in this inventory, including reference desks, information desks, circulation, current periodicals, reserve rooms, reprographic services (if staffed as a public facility), etc. Report the number of designated locations, not the number of staff.

Question 28. Number of weekly public service hours. Report an unduplicated count of the total public service hours per typical full-service week (i.e., no holidays or other special accommodations) across both main library and branches using the following method (corresponds to IPEDS): If a library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 40 hours per week. If several of its branches are also open during these hours, the figure remains 40 hours per week. Should Branch A also be open one evening from 7:00 p.m. to 9:00 p.m., the total hours during which users can find service somewhere within the system becomes 42 hours per week. If Branch B is open the same hours on the same evening, the count is still 42, but if Branch B is open two hours on another evening, or remains open two hours later, the total is then 44 hours per week. **Exclude 24-hour unstaffed reserve or similar reading rooms.** The maximum total is 168 (i.e., a staffed reading room open 7 days per week, 24 hours per day).

Questions 29-30. Instruction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Questions 29 and 30. Please indicate if responses are based on sampling.

Question 29. Presentations to Groups. Report the total number of sessions during the year of presentations made as part of formal bibliographic instruction programs and through other planned class presentations, orientation sessions, and tours. If the library sponsors multi-session or credit courses that meet several times over the course of a semester, each session should be counted. Presentations to groups may be for either bibliographic instruction, cultural, recreational, or educational purposes. Presentations both on and off the premises should be included as long as they are sponsored by the library. Do not include meetings sponsored by other groups using library meeting rooms. Do not include training for library staff; the purpose of this question is to capture information about the services the library provides for its clientele. Please indicate if the figure is based on sampling.

Question 30. Participants in Group Presentations. Report the total number of participants in the presentations reported on line 29. For multi-session classes with a constant enrollment, count each person only once. Personal, one-to-one instruction in the use of sources should be counted as reference transactions on line 31. Please indicate if the figure is based on sampling. Use a footnote to describe any special situations.

Question 31. Reference Transactions. Report the total number of reference transactions. A **reference transaction** is

an information contact that involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include (a) printed and nonprinted material; (b) machine-readable databases (including computer-assisted instruction); (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library. When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.

If a contact includes both reference and directional services, it should be reported as one reference transaction. Duration should not be an element in determining whether a transaction is a reference transaction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Question 31. Please indicate if the figure is based on sampling.

EXCLUDE SIMPLE DIRECTIONAL QUESTIONS. A directional transaction is an information contact that facilitates the logistical use of the library and that does not involve the knowledge, use, recommendations, interpretation, or instruction in the use of any information sources other than those that describe the library, such as schedules, floor plans, and handbooks.

Questions 32-33. Circulation. For Question 32, count the number of initial circulations during the fiscal year from the general collection for use usually (although not always) outside the library. Do not count renewals. Include circulations to and from remote storage facilities for library users (i.e., do not include transactions reflecting transfers or stages of technical processing). Count the total number of items lent, not the number of borrowers. For

Question 33, report total circulation for the fiscal year including initial transactions reported on line 32 and renewal transactions. Exclude reserve circulations; these are no longer reported.

Questions 34-35. Interlibrary Loans. Report the number of requests for material (both returnables and non-returnables) provided to other libraries on line 34 and the number of filled requests received from other libraries or providers on line 35. On both lines, include originals, photocopies, and materials sent by telefacsimile or other forms of electronic transmission. Include patron-initiated transactions. Exclude requests for materials locally owned and available on the shelves or electronically. Do not include transactions between libraries covered by this questionnaire.

Questions 36. Ph.D. Degrees. Report the number awarded during the 2004-05 fiscal year. Please note that only the number of Ph.D. degrees are to be counted. Statistics on all other advanced degrees (e.g., D.Ed., D.P.A., M.D., J.D.) should not be reported in this survey. If you are unable to provide a figure for Ph.D.s only, please add a footnote.

Question 37. Ph.D. Fields. For the purposes of this report, Ph.D. fields are defined as the specific discipline specialties enumerated in the U.S. Department of Education's Integrated Postsecondary Education Data System (IPEDS) "Completions" Survey. Although the IPEDS form requests figures for all doctoral degrees, only fields in which Ph.D.s are awarded should be reported on the ARL questionnaire. Any exceptions should be footnoted.

Question 38. Instructional Faculty. Instructional faculty are defined by the U.S. Dept. of Education as

members of the instruction/research staff who are employed full-time as defined by the institution, including faculty with released time for research and faculty on sabbatical leave.

Full-time counts generally exclude faculty who are employed to teach fewer than two semesters, three quarters, two trimesters, or two four-month sessions; replacements for faculty on sabbatical leave or leave without pay; faculty for preclinical and clinical medicine; faculty who are donating their services; faculty who are members of military organizations and paid on a different pay scale from civilian employees; academic officers, whose primary duties are administrative; and graduate students who assist in the instruction of courses. Please be sure the number reported, and the basis for counting, are consistent with those for 2004-05 (unless in previous years faculty were counted who should have been excluded according to the above definition). Please footnote any discrepancies.

Questions 39-42. Enrollment. U.S. libraries should use the Fall 2005 enrollment figures reported to the Department of Education on the Integrated Postsecondary Education Data System survey. Please check these figures against the enrollment figures reported to ARL last year to ensure consistency and accuracy. **Note:** In the past, the number of part-time students reported was FTE; the number now reported to IPEDS is a head count of part-time students. Canadian libraries should note that the category "graduate students" as reported here includes all post-baccalaureate students.

FOOTNOTES

Please consult the printed copy of the *ARL Statistics 2004-05* for a copy of last year's footnotes. A pdf version is available at: <http://www.arl.org/stats/arlstat/>. Explanatory footnotes will be included with the published statistics. Reporting libraries are urged to record in the footnote section any information that would clarify the figures submitted, e.g., the inclusion and exclusion of branch campus libraries (see the "General Instructions" for definition of branch campus libraries). Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire
by **January 30, 2006.**

For assistance, please e-mail Martha Kyriallidou (martha@arl.org) or Mark Young (stats-ra@arl.org)
Tel. (202) 296-2296.

FOOTNOTES TO THE ARL ACADEMIC LAW LIBRARY STATISTICS, 2005-06

Footnotes may also include errata and corrections to data not previously reported from prior years. Numbers in parentheses refer to columns in Library Data Tables and to Questionnaire numbers.

QUESTION

NUMBER

FOOTNOTE

ALABAMA

- 19 Includes bibliographic utilities, memberships, and literature searching.

BOSTON COLLEGE

- 15.d Includes NELLCO Legal scholarship Repository e-mail notification service for items newly deposited in scholarly repository (\$296), MARC records purchased for MOML (\$15,000), and membership fees for LOCKSS and Portico (\$3,082).
- 22 2004-05 figure was erroneous, inadvertently double-counting resource expenditures. Current figure reflects actual expenditures in this category.

BRIGHAM YOUNG

All figures are for the calendar year ending December 31, 2005.

- 12 This figure includes both audio and film/video items and cannot be separated.
- 39 All Law enrollment numbers are embedded in the Main Library figures.

CALIFORNIA, DAVIS

- 1.b Figure reflects additional volumes purchased; volumes withdrawn decreased due to less weeding of the collection.
- 2 Cancellation of added copies, little used sets last year allowed increased purchase of new titles.
- 4 Figure reflects additional volumes purchased; volumes withdrawn decreased due to less weeding of the collection.
- 15.a Figure reflects funds from cancelled titles allocated to monographs.
- 17.c Figure reflects fewer vacancies and less temporary help needed.
- 22 Figure reflects increased electronic resources purchased.
- 24 Figure reflects a new server for online catalog.
- 25 Figure reflects greater use of intercampus free delivery services, Tricor.
- 34 Figure reflects more items requested this reporting period.
- 35 Figure reflects fewer items borrowed from others for this reporting period.

CHICAGO

- 1.b Withdrew 77,494 volumes that were duplicative or available in electronic form and in the university library.
- 2, 15a Committed more money in 2005-06 than 2004-05, but did not receive the books before June 30 because the project work delayed book selection and orders.
- 12 Claimed outstanding orders.
- 17.c Figure reflects expenses related to Project, to select and process books for storage and to withdraw duplicative and out-of-scope volumes.
- 23.a Increase is the result of the Law Library's ability to now accurately reflect its expenditures.
- 24 Increase is the result of an overall upgrade in hardware.
- 26.b Figure reflects personnel related to Project to select and process books for storage and to withdraw duplicative and out-of-scope volumes.
- 26.c Figures reflect personnel related to Project to select and process books for storage and to withdraw duplicative and

FOOTNOTE

out-of-scope volumes.

34, 35 Figures represent items, not requests.

COLORADO

Volumes held June 30, 2004-05 revised to 289,494.

COLUMBIA

34 Includes 5,372 requests from fee-based service.

CONNECTICUT

Volumes held June 30, 2005 revised to 335,621 to include 21,700 from Making of Modern Law purchase.

CORNELL

Volumes held June 30, 2005 revised to 540,156 to reflect additional e-book counts (Making of Modern Law; and items in earlier years from LLMC Digital and Manas Media).

1.b.i Includes a small number of e-books (LLMC Digital and Manas Media).

17.a Includes professional staff and exempt staff.

17.b Excludes exempt staff. Includes hourly staff and non-student staff.

26.a Includes professional staff and exempt staff.

EMORY

Volumes held June 30, 2005 revised to 216,056.

15.d Includes: Legal research and other online resources (\$210,558), and bibliographic utilities (\$14,200).

19 Includes: Fringe benefits (\$226,579), contract staff (\$74,422), and miscellaneous (\$32,108).

FLORIDA

Volumes held June 30, 2005 revised to 319,955.

FLORIDA STATE

28 Figure is included in the main library data.

GEORGE WASHINGTON

15.b Increase due to year-end funds used to pay for some 2006-07 subscriptions at the end of the 2005-06 fiscal year. Also, inflation was a factor.

15.c Decrease due to a one-time purchase of some large microform sets in 2004-05, which were included here.

21 In 2005-06, the Law Library made one-time purchases of two large databases (Making of Modern Law, and Supreme Court Records) for \$180,000.

HARVARD UNIVERSITY

Volumes held June 30, 2005 revised to 1,723,645.

35 Decrease is a result of access to digital resources.

HAWAII

Volumes held June 30, 2005 revised to 126,674 to reflect gift volumes inadvertently omitted in 2003-04.

HOUSTON

When compiling statistics for this report, law library staff noted a discrepancy between the current volume count and figures reported previously. After extensive study, they determined that a mistake had been made several years ago. That error is corrected; volumes held June 30, 2005 has been revised to 220,639 because of different

QUESTION

NUMBER

FOOTNOTE

reporting requirements for the American Bar Association statistics.

- 2 Both UH Law Library and the Main Library had a significant increase in number of monographic volumes purchased.
- 6 The increase in the number of microform units held by the UH Libraries is due to a change in the way the Law Library reported its statistics. Previously, Law had used the definition required for the American Bar Association (fiche = number of units divided by 6, microfilm = number of reels x 5). The number reported this year reflects the definition used by ARL and was calculated by reverse-engineering the figures reported to ABA.

HOWARD

Volumes held June 30, 2005 revised to 207,653.

- 24 Figure reflects fewer computer hardware purchases.

IOWA

- 2 Figure is estimated; titles are not separated by monograph/serials, only by dollar amount.
- 17.a Does not include salary of Associate Dean for Research.
- 17.c Law library does not include 2 RAs and 5 LOF students paid by law school Dean's account.
- 19 Law Library includes postage, phones, supplies, equipment.
- 31 Law Library bases on two weekly surveys taken each year and then multiplied.

KANSAS

- 1.b.i Library monograph expenditures were significantly cut in 2005-06.
- 4.a Includes the number of serials received in PDF format from Hein Online.
- 15.a Library monograph expenditures were significantly cut in 2005-06.

LOUISIANA STATE

- 10 Change due to maps being recounted in 2006.

MIAMI

Volumes held June 30, 2005 revised to 423,750 to include 21,811 e-books not included in prior years.

- 17.a Excludes law library director's salary.

MICHIGAN

Volumes held June 30, 2005 revised to 699,148 to include 21,811 e-books.

- 1.b.i Includes 2,684 e-books.
- 15.d Includes: ILL (\$480) and Preservation (\$56,091)
- 32, 33 Includes reserves.

MICHIGAN STATE

- 12 Counts based on item (or copy), not on number of units within each copy.

MONTREAL

Volumes held May 31, 2005 revised to 177,354 in order to correct past miscalculations.

NEBRASKA

- 7-9 Figures unavailable for Law Library.

OHIO STATE

Volumes held June 30, 2005 revised to 560,969.

QUESTION

NUMBER

FOOTNOTE

- 23.b OhioLINK funds are provided for the entire university and are not broken down by individual library.

OREGON

Volumes held June 30, 2005 revised to 193,629 to include 21,811 titles from MOML.

- 2 Includes 21,811 titles loaded from MOML.
21 Figure reflects the 1st of 4 payments for MOML.
25 Most ILL expenses for Law are not separate from the Main Library.
34, 35 Cannot be separated from the main library figure.

QUEEN'S

All statistics unless otherwise stated are as of April 30, 2006.

- 26a, 26b Figures are as of November 2005.

RUTGERS, CAMDEN

- 10-13 Audiovisual Materials figures cannot be disaggregated. Total audiovisual is 122.

RUTGERS, NEWARK

- 10-13 Audiovisual Materials figures cannot be disaggregated. Total audiovisual is 1,164.
17a, 26a Reduction of 2 professionals due to Law School reorganization.
17b, 26b Reduction of 6 support staff from 2004-05, as those data were incorrectly reported; 2004-05 figure revised to 15. 3 positions removed due to Law School reorganization, and 2 hourly support staff removed.
17c, 26c Reduced by 4 student employees due to lack of funds.

SASKATCHEWAN

- 4a-b Figures were not provided in previous years.

SYRACUSE

- 12 Previously reported in bibliographic units.

TEMPLE

- 1.b.i Higher number of volumes reflects increase in library funding.
4.b Increase reflects inclusion of government documents.
15a, 15b Increases are a result of an increase in funding.
15.c Includes a one-time purchase of a backfile and audio visual materials due to an increase in funding from the University Library.
15.d Reflects spending on bibliographic utilities in 2005-06 upon a closer reading of the instructions.
19 Reflects an increase in funding from the Law School and from the University Library system.
21 Figure reflects a one-time purchase.

TEXAS TECH

All figures are as of August 31, 2006.

TULANE

Volumes held June 30, 2005 revised to 374,691, reflecting the first accurate count since Hurricane Katrina.

VANDERBILT

Volumes held June 30, 2005 revised to 475,804 to include 9,111 volumes from 18th Century Collections Online.

QUESTION

NUMBER

FOOTNOTE

15.c Some expenditures included here were previously reported as Miscellaneous (15d).

24 The Law School provides much not reported here.

WASHINGTON U.-ST. LOUIS

1.a Does not include e-books.

4.b Cannot distinguish between serials purchased and received.

31 Law Library does not track reference transactions.

WESTERN ONTARIO

Volumes held June 30, 2005 revised to 179,750 due to an automated count from the system which does not include unlinked items previously counted as part of the manual count. These items will be linked over time.

8, 12, 13 Law Library is no longer counting computer files separately from the Main Library.

35 Requests for materials from other libraries are handled centrally.

YALE

Volumes held June 30, 2005 revised to 857,353.

33 Includes 6,252 from ELI Express.
