Liaison Services
Librarian/Faculty Liaison Program

The Librarian/Faculty Liaison Program provides faculty with an ongoing opportunity to keep abreast of KSL services and collections. Each academic department has a designated research services librarian who maintains an awareness of the department's research and teaching needs. Departments are encouraged to include their librarian in meetings, research projects, and other activities, especially when library support is a factor to be considered. Librarians also teach classes related to research and information retrieval. We would be happy to develop a course-related instruction component for any of your classes. These classes, one or several, focus on specific research databases and other resources that students may use for papers and projects. For more information, contact a librarian listed below.

KSL also strongly encourages each department to formally designate a faculty member as the department's library liaison so that communication remains current. The department's liaison should keep the department informed of library activities and will act as the primary contact and advocate for faculty representing the needs of the department to the library.
