Empowering engineers to drive innovation.

The Institute for the Global Entrepreneur at UC San Diego encompasses a series of programs, centers and initiatives all working toward a common goal: preparing engineers to become change makers and technical leaders who drive innovation within organizations both large and small.

Get involved as a mentor
Create a custom program for your organization.

News from the Institute

May 23, 2017
New UC San Diego Technology Accelerator Selects Five Teams for its Inaugural Cohort

Today the Institute for the Global Entrepreneur (IGE) at the University of California San Diego announced team selections for its new technology accelerator. Five UC San Diego research teams, with innovations ranging from advanced healthcare diagnostics and medical device technologies to next-generation LiDAR for autonomous vehicle navigation, have been selected to join the new campus program. Full Story
The Startup Lab is a CAH initiative to support health and finance startups in leveraging behavioral economics through the application of existing findings from the field as well as original research. The academic incubator aims to expose startups to behavioral economics, support the integration of insights from social science, and facilitate collaborative projects with CAH lab members to answer startup-specific research questions. Learn more.

Want to know the latest behavioral insights?
Stay up-to-date on the latest behavioral research, events and resources.

What Makes Us Different...
The first interdisciplinary entrepreneurship school in the country with entrepreneurs as faculty from almost every college at FSU.
UNIVERSITY OF GUELPH
CBase – The Hub
http://www.uoguelph.ca/cbase/thehub

Dedicated Space to Grow Your Business

The Hub Incubator Program

Whether for-profit or not-for-profit, you can receive the support to grow or begin your startup. The Hub offers U of G students and alumni funding, dedicated office space and access to experienced entrepreneurs. The Hub focuses on helping startups develop a strong business model that can be rigorously tested and intelligently scaled.

The program is available to University of Guelph students and alumni working on innovative projects. Eligible teams must have at least one co-founder who is a current University of Guelph student or alumnus between the ages of 18 to 29. The Hub focuses on businesses in the beverage and food, life sciences, agriculture or social enterprise sectors but all ideas are welcome.

Teams accepted into The Hub are required to complete at least 30 hours of work each week and receiving full funding will be based on teams meeting certain requirements.

The Hub Offers

- Funding
  $6,000* grant to help expedite growth

- Mentors
  Access to experienced entrepreneurs

- Office Space
  Inspiring work and meeting spaces

- Business Services
  A network of accessible professionals

- Resources
  Tools and expertise to support growth

- Entrepreneurial Workshops
  Learn about trends, tools and pertinent topics

“...The Hub was an excellent experience for Balsa Robotics. Once we entered the Hub, the backing of the program caused more people to pay attention to us. It also focused our objectives and shifted away from only thinking about technology. They kept us motivated and on track by helping to set our goals and shifting our thinking during each meeting. The $6,000 was helpful because it helped us build the initial prototype and ultimately, convinced us to FounderLab...”

NORTH CAROLINA STATE UNIVERSITY
Technology Incubator @ Centennial Campus
https://techincubator.ncsu.edu/

HANG YOUR TECH HAT HERE.

Your tech business needs are simple: smart people, the right tools and a comfortable space in which to change the world.

We understand, and we've got you covered.

The Technology Incubator, located on Centennial Campus at NC State University and next to the Hunt Library, is your direct link to this unique research campus, employing experts and game-changers in the areas of research and development that matter most to you and your start-up company.

Unlike other university-based technology incubators, ours is open to all parties, not just university-related spin-offs.

Even better, no equity stake is assumed by the university. Your technology is your technology, from start to finish.

Contact us to schedule a visit or to learn more about our program.

The Ohio State University Center for Innovation and Entrepreneurship is an official academic center of The Ohio State University housed at the Fisher College of Business.

The center facilitates entrepreneurial and innovation-based learning and experiences that will impact the global economy by assisting in new company formation and the development of new products and services within existing businesses.

Innovation and Entrepreneurship

Because leading brands are increasingly employing innovation processes for new product and service development and creation to achieve sustainable differentiation and long-term viability, both business schools and businesses need to:

- Prepare students for a new professional paradigm
- Partner with one another through research, training and development focused on new processes for ideation, incubation, and commercialization
- Enact new approaches to value creation applied to a cross section of business issues and to address problems of global dimension, including job creation
Lion LaunchPad is a business accelerator program that helps student entrepreneurs turn innovative product and service concepts into viable startup companies by offering mentoring, work space, and micro-grants. We support students in all majors as they develop the entrepreneurial mindset, skills and desire to look for opportunities for innovation and positive change.
Special Living Option beginning fall 2017

First-year students from any college now have the opportunity to participate in a Special Living Option (SLO) and explore innovation and entrepreneurship alongside like-minded students.

Students interested in the Lion LaunchPad SLO for fall 2017 should indicate their preference in eLiving before May 15.

Learn more at Penn State News.

Student Entrepreneurs in Action

Read the stories of student teams that were recently awarded Lion LaunchPad grants. Best of luck to them as they continue to grow their businesses!

Blackstone LaunchPad is a campus-based experiential entrepreneurship program open to students, alumni, staff and faculty offering coaching, ideation, and venture creation support.
SYRACUSE UNIVERSITY
Blackstone Launchpad
http://launchpad.syr.edu/

COMPETITIONS
Campus challenges, as well as national, state and regional business plan competitions that provide opportunities for students from across the network to connect and innovate.

COWORKING
Campus-wide accessibility to open coworking spaces, specialized applications and tools to help startups off the ground and scale, with a focus on inclusive entrepreneurship.

NETWORKING
Events that build an innovation infrastructure, bringing together entrepreneurs, researchers, investors and funders, as well as technical service providers.

COACHING
One-on-one mentoring that cultivates entrepreneurial thinking and problem solving for both non-profit and for-profit businesses of any size and industry.

CONNECTIONS
Regional, national and global connections to university programs and venture leaders to share best practices, engage with successful entrepreneurs, and find network partners.

TESTIMONIALS

The Blackstone Launchpad has given us the setting and the resources to critically think through and solve the challenges we face as a startup. For our team, this space makes magic happen – it is a second home.

ENTREPRENEURSHIP AS A CAREER CHOICE

Where will your entrepreneurial journey take you?

Take the road less traveled.

CENTER FOR NEW VENTURES AND ENTREPRENEURSHIP (CNVE)
Since its inception in 1998, the Center for New Ventures and Entrepreneurship (CNVE) has served as the hub of entrepreneurship for Texas A&M University. CNVE enhances the student experience by providing education, training, networking and resources for aspiring entrepreneurs, faculty, students and alumni.

MGMT 489: INNOVATIVE PRODUCT DESIGN - DISCOVER THE FUTURE
As hockey legend Wayne Gretzky once said, "I skate to where the puck is going to be, not where it has been." In Professor Don Lewis' multidisciplinary Innovative Product Development course, cross-listed in five colleges, students of all levels use Lean Startup to see the future for a product and be light years ahead of industry trends.

UNIVERSITY / POST OAK MALL COLLABORATIVE (UPC)
Startup Aggieland's UPC is a "pop-up" retail incubator – the first retail incubator in our state. In partnership with Mays Business School's Center for Retailing Studies and CBs, Management in Waco, owner of Post Oak Mall, the UPC opened in June 2015 with our client Lynx Toys, which has since sold more than 25,000 pool noodle connectors.

GET PLUGGED IN AS A MEMBER OF ENTREPRENEURSHIP SOCIETY
A recognized student organization at Texas A&M University, E-Society is the front door for students to explore entrepreneurship. Leadership positions are available. E-Society's annual signature event is Startup 101. The student-managed three-day workshop is open to the public. E-Society also hosts speakers and social events.

3-DAY STARTUP / TEXAS A&M
3-Day Startup is an extreme launch experience, open to all majors and levels of study at Texas A&M University. Staged at Startup Aggieland each fall and spring, students form teams and develop products, then pitch to investors at a public networking event. 305 is free for students, including all meals and snacks at the 12-hour event.

STARTUP AGGIELAND SEED FUND
Student-vested the Seed Fund offers non-dilutive grants for student ventures. Startup Aggieland requires no equity or IP ownership in return, but we hope you'll pay it forward:

- Company client of Startup Aggieland
- Academically-eligible TAMU student
- Proven commitment to the company, success with evidence of results

WHAT IS ENTREPRENEURSHIP AT VIRGINIA TECH?

Purposeful, positive change to society is not possible without the cultivation of thoughtful leaders and enterprising minds. At Virginia Tech, our mission is to do just this, by inspiring and preparing students to turn their passion and ideas into action. We strive to create a culture that unleashes creativity, sparks vision and innovation, and instills in tomorrow’s leaders the entrepreneurial mindset and skillset that will enable them to truly invent the future.
WHERE INNOVATION STARTS

Virginia Tech is a world leader in interdisciplinary education and collaborative innovation. Our mission is to foster a love of learning and service to our community, both local and global. We support every stage of an entrepreneur’s journey from research to commercialization. But Virginia Tech is more than about starting businesses. We enable our students to create knowledge and to apply it to the needs of an interconnected world.

Entrepreneurship: Getting Started

Getting Started

This guide covers sources for:
- new enterprise / small business development
- social entrepreneurship
- family owned-businesses

Research in these areas is far-reaching, coming from a variety of sources, including library databases and reputable free sources of information (such as government agencies, competitors, and industry associations).

To save yourself time and frustration, it’s important to think about the information you need before starting your research.

To help you form an effective research strategy, the business librarians have developed two tools:

- Research Tips
  Tips for searching databases effectively and for realistic research.
- Jump-Start Your Research
  A step-by-step guide to planning your secondary research that you can e-mail to yourself and/or a business librarian.

Entrepreneurship as an Industry

Sources for learning about entrepreneurship and start-ups in various locations:

- Global Entrepreneurship Monitor (GEM Consortium)
  Global, national and special topic reports.
- Kaufman Index of Entrepreneurial Activity
  Reports on U.S. startup activity as well as articles on trends, indicators of success, demographics, etc.
- Crunchbase
  Crowd-sourced data on startup funding & investment activity and acquisitions.
The Small Business Accelerator offers free online access to reliable business information and tools for secondary market research for BC businesses and entrepreneurs. This initiative is led by UBC Library’s Irving K. Barber Learning Centre.

Introduction

This research guide is designed for use by both community-based and UK-affiliated entrepreneurs.

If you are not affiliated with the University of Kentucky (as faculty, staff, or student), you will have to come to one of our campus locations in order to access most of the electronic resources. Community members who are Kentucky residents and over 18 years of age can get a library card and check-out materials.

Books

Encyclopedia of New Venture Management by Matthew R. Marvel (Editor)
Publication Date: 2012

New ventures are often launched into highly dynamic environments characterized by rapid technological change, inherent unpredictability and an uncertain cash flow. While new ventures offer those who initiate them a high degree of independence, excitement, and potential for great reward, they also bring high risk, stress and greater potential for failure. Thus, it takes a special set of skills, techniques, and temperament to succeed. These skills, along with the potential risks and rewards and environmental settings and characteristics, are explored in the Encyclopedia of New Venture Management.

The Entrepreneur's Guide to Business Law by Constance E. Bagley; Craig E. Daumty
Publication Date: 2003
This book contains 17 chapters that follow the progression of a start-up business and anticipate its legal concerns through the stages of growth up to an initial public offering.

Exploring Entrepreneurship by Richard Blundell; Nigel Lockett
Call Number: H88616. B607 2011
Publication Date: 2011
Exploring Entrepreneurship examines the nature of entrepreneurial activity in the 21st century, and aims to help students develop the skills and knowledge required by commercial and social entrepreneurs.

The Lean Startup by Eric Ries
Call Number: HD625.9. R55 2011
Publication Date: 2011
The Lean Startup offers entrepreneurs - in companies of all sizes - a way to test their vision continuously, adapt and adjust before it's too late. Ries provides a scientific approach to creating and managing successful startups in a age when companies need to innovate more than ever.

Models of Opportunity by George Gerard; Adam J. Bock
Call Number: HD2346 U5 S65 2008
Publication Date: 2008
Links scholarly research on business models and organizational design to the reality of building entrepreneurial firms. It provides actionable advice based on a deeper understanding of how business models function and change. The insights, tools and cases, provide a fresh perspective on emerging trends in entrepreneurship, organizational change, and high-growth firms.

Small Business Sourcebook by N.K. Eonya D.
Call Number: HD2346 U5 S65 2008
Publication Date: 2008
In this annual two-volume annotated guide, you'll discover more than 27,000 listings of live and print sources of information designed to facilitate the start-up, development, and growth of specific small businesses, as well as more than 29,000 similar listings for small business topics.

Provides entrepreneurs with how to tap information that they can apply to their own businesses, including financing, financial planning, business plan creation, market analysis, sales strategy, and tax planning.

Small Business Reference Center (includes description)
Offers full-text periodicals and reports, sample business plans, U.S. tax forms, and reference books.

Business Owner's Toolkit
With an emphasis on problem solving. BuFilings Business Owner's Toolkit offers more than 3,000 pages of free-cost cutting tips, startup advice and business templates to small business owners and entrepreneurs.

Start Your Own Business: 50 Things You'll Need To Do
The more you know about starting a business, the more powerful you have to form an organization that develops into a lasting source of income and satisfaction. For help with the beginning stages of operating a business, the checklist on this website is a great place to start.
Entrepreneurship

The Van Almen Center for Entrepreneurship is the nexus for startup companies at the University of Kentucky. Services include market research, commercialization assessment, assistance with business plans and marketing strategies, connections to vetted service providers, and access to federal, state and private funding sources.

Ask a Librarian

Selma D. and Stanley C. Hollander MakeCentral: Makerspace

Hollander MakeCentral is an alternative learning environment and gathering space that encourages cross-discipline collaboration, experimentation and learning. All students, staff, faculty and community members can use the space for maker projects and activities. Our space encourages hands-on and social learning about new technologies and techniques.

Access

All students, faculty, staff and non-MSU affiliated patrons can submit files to be 3D printed, laser, or vinyl cut using Hollander MakeCentral 3D machinery. Fill out the submission form related to your request and staff will consult with you about pricing and completion date. All prints and cuts will be performed in the order they are received and may take a few days depending on order volume. Items printed from the Library 3D printer not picked up within 14 days after being printed become the property of the Library.

If you have questions, you can email MakeCentral Staff or call (517) 884-0644.
Open House: What's a Makerspace?

Location: Selma D. and Stanley C. Hollander MakeCentral
April 15th 11:00 AM – 4:00 PM

In this open house, Hollander MakeCentral will open its doors and open minds showing how to use cutting edge technologies to go from idea to invention. 3D Printing and Scanning, Programmable Circuity, and Play-Do and Legos (yup!) will all be showcased in this drop-in all ages event.

Entrepreneurship support

University of Toronto libraries supports campus entrepreneurs enrolled in courses and programs, commercializing research, and launching startups on their own or via a campus accelerator.

For more information or questions about anything on this page, please contact Entrepreneurship Librarian Carey Tuxen.

Research tools and support

Entrepreneurship research guide
Whether you’re new to commercialization or an experienced entrepreneur, this guide is a quick and easy way to access the most useful resources the library has to offer, including market research, journals, books, tools, and information on financing and business plans.

Entrepreneurship databases
An A-to-Z list of databases useful for entrepreneurship research by students, faculty and staff.

Introduction to patents and patent searching
This guide is designed to introduce you to patent searching. Basic patent information as well as useful resources are included to help you get started.

Standards and Codes research guide
Define, search, locate, and cite standards and codes across a broad range of engineering disciplines and manufacturing sectors and industries.

Request research help
Librarians are available to support your research via email or in-person consultation or referral.

Campus resources, space and equipment

Campus startups 101
New to U of T? Thinking about launching a startup? Wondering what an accelerator is, or where you can find a 3D printer? Start with this guide.

Launchpad: Campus resources for U of T startups
An orientation session offered each semester covering everything from accelerators to workshops to help you get your venture off the ground at U of T.
Workshops and instruction

The library offers a number of workshops related to entrepreneurship research.

Entrepreneurship research workshops
Open workshops offered through the library. Topics range from an introduction to business research to market sizing, primary research strategies and tools, datasets for entrepreneurs, and finding a startup job. Eligible for recognition on your Co-curricular record.

Research commercialization for graduate students
Includes an introduction to invention disclosures and research commercialization processes at U of T, as well as an orientation to campus resources and business research. Part of the Graduate Professional Skills workshop series offered by the School of Graduate Studies.

3D printing safety training
Complete this safety training workshop in order to gain access to the 3D printers housed at the IMAGLab at Gerstein Science Information Centre.

Plus: Faculty and Instructors can request instructional support on library market research resources by contacting Entrepreneurship Librarian Casey Tsane.
Find out more about how librarians support teaching.

FLORIDA STATE UNIVERSITY LIBRARIES
The Business Model Canvas
Introduction
Rationale: Family and consumer sciences curriculum provide many opportunities for entrepreneurship and small business ownership in various product and service areas. In this course students will explore issues, challenges and opportunities related to entrepreneurship in areas such as apparel retailing, restaurants, hotel operations, and childcare. Issues related to family-owned businesses, home-based businesses, and rural-based enterprises will also be addressed. Independent business owners and industry representatives will serve as resources for panel discussions.

Course Objectives:
- Identify characteristics of entrepreneurs, environmental conditions which foster entrepreneurship, and the role of entrepreneurs in the broader economy.
- Understand contributions of the family and consumer sciences professions to small business and entrepreneurship opportunities.
- Assess motivations for starting a small business, success factors and failure rates associated with independent business ownership.
- Evaluate personal and financial resources needed for starting a small business and sources of assistance for business start-ups. Identify funding sources that contribute to the capital base required for entrepreneurship.

BUS 170: Intro to Business Model Creation
Laura Leavitt ~ Guest Speaker: September 16, 2016

CASE STUDY #1
Square is a provider of payments technologies for retail businesses. The company’s devices include the Square Reader and Square Stand and its software includes Square Register, Market, Cash and Order (replacing Wallet).

Business Model Canvas
http://businessmodelgeneration.com
Nine Building blocks:
- Customer Segments
- Value Propositions
- Channels
- Customer Relationships
- Revenue Streams
- Key Resources
- Key Activities
- Key Partnerships
- Cost Structure

BUSINESS MODEL CANVAS

CASE STUDY #1
1. VALUE PROPOSITION
   - What value do you deliver to the customer?
   - Which one of the customer’s problems are you solving?
   - What bundles of products/services do you offer to each customer segment?
   - Which customer needs are you satisfying?

2. CUSTOMER SEGMENTS
   For whom are we creating value? Who are our most important customers?
   - Mass Market
   - Niche Market
   - Segmented
   - Diversified
   - Multi-sided Platform

3. CHANNELS
   Through which channels do our customer segments want to be reached?

4. RELATIONSHIPS
   How will we get, keep and grow customers?

5. KEY ACTIVITIES
   What key activities do our value propositions require?

6. KEY RESOURCES
   What key resources do our value propositions require?

7. KEY PARTNERSHIPS
   Who are our key partners?

8. REVENUE STREAMS
   What is the revenue model? What are pricing tactics? For what value are our customers willing to pay?

9. COST STRUCTURES
   What are the most important costs in our business model?

What You’ll Find

Use this guide to find information related to starting a new business and creating your business plan.

Most of the resources listed are available only to MU students, staff, and faculty. When you leave MU and find yourself needing information, look beyond Google. Check with your company and ask if there’s a librarian or research office which can help you track down information. Contact your local public library and ask for the business librarian who can tell you what the library can provide. If there’s a college or university nearby, call and ask what they have and what guests may access.

Introducing Weekly Jam Sessions

We learn best when we learn together!

Join your like-minded makers at our new weekly “Jam Sessions,” two-hour blocks set aside for focusing on a particular aspect of making.

While we may sometimes run structured workshops in this time period, usually Jam Sessions are casual, peer-to-peer learning events. You can get an introduction to the topic, learn a new skill, get help on a project, and connect with fellow makers to come up with new ideas and bring them to life in the Maker Hub. Makers of all skill levels are welcome. Jam sessions work best when the group has beginners, journeymen, and experts all hanging out together.

Note: During Jam sessions, the Maker Hub remains open to all other activity. You can still sew during Arduino Thursday, or 3D print on Woodshop Wednesday.

Jam Session Schedule

CNC Fabrication: Tuesdays 5-7pm. Work with Vinyl cutters, the laser cutter and 3D printers. Share techniques for designing with software like Tinkercad, Adobe Illustrator, Fusion 360, and more. Show off your work and brainstorm new ideas with other CNC enthusiasts.

Woodshop: Wednesdays 5-7pm. Learn how to use the Maker Hub’s power tools and hand tools. Learn and share techniques for working with wood and other traditional construction materials.

Be a Maker Hub Volunteer

Help us build our community of Makers at Georgetown and expand our impact on campus by becoming a Maker Hub Volunteer Monitor! Volunteers get access to the space during non-open hours in return for working at least 2 hours per week in the Maker Hub.

Click here for details!

Tell Your Friends!

Please support the Maker Hub by spreading the word. Forward this email to friends, classmates, professors and other interested colleagues. They will thank you later!
Get help on your projects, partner with other makers, and come up with new ideas.

**Arduino, Pico, and Electronics: Thursday 3-7pm.** Dive into the world of physical computing with platforms like Arduino and Raspberry Pi. Learn the basics of electronics and how to connect analog and digital worlds together. Get help with your projects, or get an introduction to a new tool or technology.

**Textiles: Fridays 3-5pm.** Learn how to knit, crochet, sew, weave, and more. Bring some jeans to repair, a pattern to make from scratch, or work with others to come up with new designs.

**We Take Donations!** Check out the garage or closet? The Maker Hub is accepting donations of any tools, electronics, equipment, and supplies. It need not be working, but if the donation is large, let us know in advance. In particular we need:

- Lab coats, aprons, utility vests
- Vintage AV Gear
- Projectors, cameras, and anything with lenses
- Old video game systems
- Legos and other construction kits
- Thread, fabric, and sewing supplies
- Woodworking tools
- Scrap acrylic sheets and wood for the laser cutter

**Contact**

- Website
- Email
- Find us on Facebook

**Location**

First Floor, Lauinger Library
Georgetown University

**Open Hours**

Mon-Fri, 10-8pm
Tue, Wed, Thu, 1-8pm

---

**Join our Google Group!** Share ideas, find collaborators, ask questions, and keep up with all the goings-on in the Hub by joining our google group. Note: emails to the google group may be more frequent than our newsletter, but you can subscribe to a daily or weekly digest.
Code+Art Visualization Contest

Announcing the winners of the 2017 Code+Art Student Visualization Contest!

- Grand prize: Nathanele Brooks, "Burst of Color" (top left)
- Second: Tyler Maybery, "Carnival Clown" (top right)
- Third: Simon Park, Julia Lineberry, Hilary Smith, Lucas Gargano, Conor Shipway, Nattanun Sumpunikutak, & Monica Nguyen, "Paper/Swine/VR" (lower left)
- Honorable mention: Nicholas Beem and Matthew Meeks, "On the Origin of Fishes" (lower right)

Read about the winning pieces in our news article!
What is it?
The NCSU Libraries is pleased to announce its third annual Code+Art Student Visualization Contest. Students are invited to create visualizations that may be data art pieces, procedural environments, or virtual reality experiences. Entries will compete for cash prizes and winners will be announced April 28, 2017.

Purpose
Libraries have long been places where people have explored new ways of interacting with information. We invite students to create visualizations that give visitors a taste of the possibilities that await them inside our Libraries.

What are we looking for?
We are looking for attractive visualizations that are created with a computer. Submissions in the following categories will be accepted:

- Data visualization / data art
- Generative art
- Procedurally generated environments (game environments, for example)
- Virtual or augmented reality experiences

Note: We are especially interested in “massively responsive” web-based work that could be displayed on the Hunt Library video walls.

Prizes
- First - $400
- Second - $200
- Third - $100

Winners are responsible for any tax implications. There is a greater impact on nonresident aliens who are subject to US tax of 30% for prizes and awards and additional State of North Carolina taxes. There are also several pieces of legal documentation required in order to process the payment for nonresident aliens (W-8BEN, visa, passport, I-94).

Who is eligible?
Any NC State undergraduate or graduate student enrolled during Spring 2017 is eligible to enter. Students may enter either individually or in groups. Groups may have both undergraduates and graduates within the same group. Students from all departments in the university are encouraged to enter. Students who graduated in December 2016 are ineligible.

Timeline
April 10, 2017 - Final deadline for entries
April 28, 2017 - Winners notified
Submit your entry

Need Help?
If you have any questions about the contest, available technology, resources, or making visualizations, contact Alison at allison@ncsu.edu.
Make-a-thon Inspires Students To Solve Sustainability Challenges

Imagine you’re a college student who’s running out of residence hall, wipe your student identification card at an emotional checkpoint and start riding a borrowed bike to class.

That’s the idea behind ReCycle, a campus bike sharing concept that uses abandoned bicycles and existing bike racks to minimize infrastructure cost and make bicycles more accessible to students.

Developed by four NC State students, ReCycle won the grand prize in the university’s second annual Make-a-thon, a four-day sustainability innovation competition.

The Feb. 3-5 event brought together 102 students on 36 interdisciplinary teams representing 8 of the university’s colleges, with the opportunity to competitively pitch sustainable solutions they had developed. Among the teams that competed were the student teams researched, designed and prototyped sustainability innovations using resources ranging from 3D design and internet of things to geographic information systems and microcontrollers.

“Implementing new technologies ... was definitely a difficult, challenging but fun process. We were able to get out of our comfort zone and learn something that was totally new for us,” said electrical engineering major Jack Hogato, who helped develop ReCycle.

Make-a-thon is organized by NC State Libraries, University Sustainability Office and the University Housing Living and Learning Villages Engineering Village, Women in Science and Engineering, Innovation and Entrepreneurship Village. With sponsorship from the NC State Sustainability Fund, Autodesk, IBM, and several other organizations, students competed for prizes including 3D printers, cash, and a consulting session with NC State’s social entrepreneur in residence.

A variation of a hack-a-thon with a sustainability twist, Make-a-thon kicked off with R.C. entrepreneur Eric Henry challenging students to see problems as opportunities for innovation. Then, a day of access to industry experts allowed students to explore the feasibility of their ideas as well as learn new technologies. On the competition’s final day, many teams used the Makerspace inside D.H. Hill Libra to turn their ideas into prototypes.

“It’s such an incredibly fulfilling experience to ... go from an idea on paper to it being printed and physical,” said sustainable materials and technology major Mani Poo Arvindavel, whose team designed a sensor system to reduce water waste in agriculture.

On the competition’s final day—and about 72 hours after Make-a-thon began—more than a dozen judges representing industry and campus partnerships listened to teams’ product pitches and selected winners

Step into Startup Culture

Do you have a great business idea that you think could change the world? Well, check out our newest book display on startup culture and social entrepreneurship to learn more about turning your business idea into reality!

Our newest display highlights a variety of books that focus on topics such as running your startup, creating a lean startup, social entrepreneurship and much more. Here are some more details for just a few of the great reads included in this display. The full list of books can be accessed here.

- *The Innovator's Method: Bringing the Lean Startup into your Organization* by Nathan Furr and Jeff Dyer
  - Furr and Dyer outline how to make innovative ideas become successful startups and businesses in real-life. This book walks you through the process of refining ideas and turning them into marketable solutions or products.

[http://www.library.yorku.ca/web/bbl/2016/01/07/step-into-startup-culture/](http://www.library.yorku.ca/web/bbl/2016/01/07/step-into-startup-culture/)
YORK UNIVERSITY LIBRARIES
Step Into Startup Culture
http://www.library.yorku.ca/web/bbl/2016/01/07/step-into-startup-culture/

- **Startup Potpourri: Tech Cocktail's Guide to Building, Growing, and Celebrating Startup Success by Frank Gruber**
  - The founder of Tech.Co provides you with a framework for creating a tech startup, while also giving real-world examples of failures and successes from well-known startups like WordPress and Basecamp.

- **The Real Problem Solvers: Social Entrepreneurs in America edited by Ruth A. Shaprio**
  - Learn about various aspects of social entrepreneurship from this edited book, such as different types of social entrepreneur ventures, how these ventures are funded, and how social entrepreneurship straddles both the non-profit and for-profit worlds.

- **The Art of the Start 2.0: The Time-tested, Battle-hardened Guide for Anyone Starting Anything by Guy Kawasaki**
  - Arianna Huffington classified this book as the “ultimate entrepreneurship handbook”, as it provides clear, actionable advice for a variety of topics, such as idea generation, financing, and getting the word out about your new product or service.

After perusing our display, you can flex your new startup and social entrepreneurship skills by signing up for the third annual Steacie Library Hackfest! The Hackfest will be held on February 17 and 18 at the Steacie Library. York students from all disciplines are welcome to participate. Students will pitch their startup or social entrepreneurship ideas on the morning of the 17th, then they will form teams, and create a minimum viable product to showcase during the final presentations on the afternoon of February 18. The Hackfest’s theme this year is Making a Difference with Data, so if you have any great ideas for this topic, please make sure to sign up for the Hackfest as soon as possible.

Enjoy our new book display and we hope to see you at the Hackfest this year!
Hacking For A Better World

Learn More
Steacie Library Dungeon Hackfest 2017

By York University Libraries

Date: February 22nd – 23rd 2017

Time: 9:00am Feb 22nd – 5:00pm Feb 23rd

Location: Steacie Science and Engineering Library.

Do you love crunching data? Creating breathtaking visualization? Or do want to learn how to do those things? Do you have a brilliant business involving data idea but you are not sure how to build it? Do you think that there’s some wisdom hidden in someone else’s data that can help us understand the world better? Are you a go-getter who will hack your way to your goals?

If you answered “Yes” to any of these questions, we invite you to participate in the Third Steacie Library Hackfest!

What is a Hackfest? If you haven’t been to one, it is about spending two days collaborating with your fellow students on a particular project, and bringing the project to reality! Students from disciplines such as Computer Science and Engineering, Fine Arts, Business, Digital Media, and Health will work together to share ideas and create solutions.

If you want to gain experience bringing an idea to life, or just want to participate in a fun collaborative environment, mark your calendar for the Annual Steacie Library Hackfest supported by LaunchYU, on February 22nd-23rd, 2017. We look forward to seeing you there!

Breakfast, lunch, and caffeine provided!
Job Descriptions
The Georgetown University Library’s Maker Hub Initiative provides a creative gathering place connecting Georgetown researchers, makers, and entrepreneurs from across campus with specialized equipment and a collaborative atmosphere to design, solve problems, and innovate. The Maker Hub Manager will help chart the direction of the Maker Hub Initiative and will oversee the daily operations by coordinating instructional activities, supervising a team of student peer mentors, and maintaining safe, organized work areas with fully functional equipment.

This position provides support to individual students or interdisciplinary teams working on independent projects or course assignments that enhance classroom learning experiences and contribute towards educating the whole person. The manager inspires discovery and experimentation, connecting Georgetown’s art, technology, and business communities with new models of innovation in a low-stakes environment where they can work together to solve problems and learn from each other. A critical aspect of this position involves collaboration with makers from all areas of the University, including academic units, student groups, and individual faculty, students, and staff.

The Maker Hub Manager will be expected to have or develop expertise with all of the equipment offered, including 3D printers and scanners, a laser cutter, sewing machine, vinyl cutter, and electronics, in addition to a wide variety of tools for fabrication.

**Work Interactions**

Reporting to the Director of the Gelardin New Media Center, the Maker Hub Manager will work closely with New Media Center staff to expand and enhance our current focus on digital media to physical making tools and resources.

**Requirements and Qualifications**

**Bachelor’s Degree**

**Practical Experience:**
- 5 years experience working in a Maker Space or organization that connects art, technology, and business communities.
- 2 years teaching experience.

**Technical Qualifications or Specialized Certification:**
- A background in the visual arts or the maker movement and the ability to use a variety of tools, including 3D printers and scanners, sewing machines, and laser cutters.
- Demonstrated experience using digital media and graphic design software.
- Experience with electronics and programming microcontrollers, including Raspberry Pi and Arduino.
### Responsibilities

This section allows you to describe the specific duties performed by the employee in this position. This section should provide detailed tasks tied directly to the summarized duties found in the Job Description above. Effectively used, each section will serve as a place to enumerate the duties grouped within functional categories. List the responsibilities in descending order of importance and indicate percentage of time required to complete the tasks. Percentages must total 100%. You must indicate whether a responsibility is Essential (E) or Non-Essential (NE) in order to comply with the American with Disabilities Act.

## Working Conditions and Physical Demands
In this section, please describe the physical environment in which the incumbent will be working (e.g., workstation, office setting, laboratory, etc.) and any special working conditions (e.g., exposure to noise, fumes, dust, or other hazards) of which the incumbent may be exposed.

Choose a item

### Task Supervision
- Indicate the number of staff this position will supervise. If none, please select "0." 0
- Indicate the number of student employees this position will supervise. If none, please select "0." 0
- Will this position be solely responsible for making hiring and firing decisions of the position it supervises?

### Budget/Financial Accountability
- If this position is responsible for developing/creating a budget, what is the total revenue for which the position is accountable? If not applicable, please leave as default "0." 0
- If this position is responsible for developing/creating a budget, what is the total expenditure for which the position is accountable? If not applicable, please leave the default "0." 0
- Will this position be solely responsible for making hiring and firing decisions of the position it supervises?
- Will this position manage sponsored funds (e.g., grants)? No

### Employment Background Checks
- Does this position direct, manage, or oversee a program that serves minors?
- Do the job responsibilities include staying overnight with minors in properties owned or operated by GU?
- Do the job responsibilities involve regularly spending time alone with minors (individually or in groups)?
- Is there another reason for requiring a background check for this position?
Business Researcher Position

The UK Libraries Reference Department has a student position available as a Business researcher. The position is funded by the Kentucky Small Business Development Center and would consist of doing secondary market research for KSBDC counselors to use with their entrepreneurial clients. KSBDC is a non-profit organization that helps entrepreneurs start businesses or change existing ones.

The research usually involves searching in UK’s business databases and other resources for articles and reports that would help the entrepreneurs. The researcher would then write up a short synopsis of what he or she found for the counselor to use with the client. The topics vary widely -- from very high tech -- like nanotechnology companies -- to very mundane -- like a bicycle shop or a liquor store. It’s usually pretty interesting and the researcher would get a lot of experience working with business databases -- which is very helpful if you want to work in an academic or corporate library.

The person filling this position does not necessarily need to have a business background – just good researching and writing skills, an ability to work independently, and a willingness to learn. Creativity, flexibility, and persistence would also be good qualities to have. The position is for 20 hours per week and pays $8.80 per hour. Though the pay is low, it is great experience and looks good on a resume. Several people who have had this position in the past are working as Academic Librarians at research universities.
UMass Amherst PTRC / Job Description / March 2017

- Serves as Patent & Trademark Resource Center Representative; attends annual training seminars conducted by the US Patent and Trademark Office; when possible attends webinars conducted by other offices such as the World Intellectual Property Organization (WIPO) and European Patent Office.

- Conducts training seminars on patents and trademarks for; assists with patent and trademark portions of academic class instruction.

- Provides information and reference service to patent and trademark patrons - students, faculty, staff and community patrons.

- Outreach to the community – on campus and beyond – for patent and trademark education.
Entrepreneurship Librarian / Librarian I
Michigan State University
Gast Business Library
2016-2017

JOB DESCRIPTION:

Reporting to the Head of the Gast Business Library, the Entrepreneurship Librarian / Librarian I is a member of the team that plans and delivers the full range of reference, instruction and liaison services to the patrons of the business library.

The specific responsibilities of the Entrepreneurship Librarian/Librarian I include the following:

• Offers a full range of general business reference and instructional services, including weekly on-site reference office hours and e-mail reference services. Provides in-depth, specialized service in the assigned subject areas of entrepreneurship and small business development, supply chain management and corporate social responsibility.

• Maintains effective liaison relationships with faculty active in assigned departments and subject areas (as listed above) and communicates with the same faculty on a regular basis.

• Leads efforts to integrate business library services into a growing number of campus programs and university initiatives in the area of entrepreneurship, including the new campus-wide minor in entrepreneurship.

• Co-teaches and provides embedded instruction to entrepreneurship classes offered through the Broad College of Business. Explores opportunities to teach to entrepreneurship classes in other colleges.

• Develops and markets specialized services to local businesses, economic development agencies and related community groups and presents programs on business library resources and services to these groups.

• Provides oversight and guidance to the library’s makerspace and represents the library in campus-wide initiatives in this area, including 3-D printing and modeling. Supervises one Librarian assigned to the makerspace as a secondary assignment and develops library programs and workshops that highlight the library’s makerspace and related services.

• Strategically selects appropriate business content for the library collection that meets the needs of faculty, staff, students and community members in the assigned areas of responsibility. Communicates the appropriate use of library subscription databases to a wide range of audiences with varying levels of access.

• Provides assistance in using library resources through the development and implementation of orientation and instructional sessions, online research guides and web-based tutorials.

• Participates in relevant library and business professional organizations, and takes an active role in state-wide library initiatives in the area of entrepreneurship.

• Pursues research and publication opportunities or other scholarly activities.

• Other appropriate duties as assigned.
Librarian for NYU School of Professional Studies Graduate Programs

New York University – Division of Libraries in New York City

Description:

The New York University Division of Libraries is seeking a librarian to serve as liaison to the faculty, graduate students, and administrators in the NYU School of Professional Studies. Librarians play a key role in the educational mission of NYU by establishing strong relationships with faculty and students, and connecting them to the services, content, and tools that meet their research, teaching, and learning needs.

The NYU School of Professional Studies offers master's degree programs and graduate certificates in a wide range of professionally oriented areas of study. The School's graduate programs reflect the emerging trends, opportunities, and innovative business strategies in each respective field that they represent, and include programs in the Schack Institute of Real Estate and the Center for Global Affairs. Graduate students at the School of Professional Studies include full-time and part-time students, working professionals, and individuals returning to the academic world after pursuing other pathways. Classes are held in the Washington Square area, the Washburn Building, the Midtown Graduate Center, days and evenings, and online. School of Professional Studies graduate programs are served by the NYU Bobst and Brause Libraries.

Responsibilities:

Working in a collaborative environment this tenure-track position is responsible for building a program of extensive instructional, consultation, and research support services; developing responsive and innovative information services; and extensive outreach to faculty and administrators in the School of Professional Studies. The School of Professional Studies Graduate Librarians will create and deliver outreach methods to students (such as consultation hours, social networking forums, and in-library/online services development); develop information literacy and research proficiency programming; and engage students and faculty as active users of NYU Libraries services and collections.

This position is a member of the business team and reports to the Head of Business and Government Information Services in the Public Services Division of NYU Libraries. The position is engaged in and contributes to the highly collaborative work of the department and the NYU Libraries. The School of Professional Studies Graduate Librarian works with colleagues at the Bobst and Brause Libraries to implement and enhance programs and services, deliver physical and virtual research and reference services, and take a leadership role on projects and initiatives as appropriate.

Qualifications:

Preference will be given to candidates with demonstrated business experience in an academic library environment; or an advanced degree in business, real estate, economics or related discipline.

Professional contributions beyond the primary job, such as publications, leadership in professional organizations, and other research and creative activity, are required for tenure.
Salary/Benefits: Faculty status, attractive benefits package including five weeks annual vacation. Salary commensurate with experience and background.

To Apply: To ensure consideration, send resume and letter of application, including the name, address, and telephone number of three references to: Enrique Yanez, Assistant Dean for Human Resources, New York University Libraries, 70 Washington Square South, New York, NY 10012 or via email to libraries.careers@nyu.edu. Resumes will be considered until the position is filled.

NYU’s Division of Libraries embraces diversity and is committed to attracting qualified candidates who also embrace and value diversity and inclusivity.

EOE/AA/Minorities/Females/Vet/Disabled/Sexual Orientation/Gender Identity
Librarian for Business and Economics

Description:

NYU Libraries seeks a subject specialist in business and economics to support the research and teaching programs of faculty, graduate and undergraduate students in the FAS Department of Economics, the Stern School of Business and other departments and programs across the university. The librarian serves as a library liaison with special emphases on building and curating collections in all formats; developing a program of extensive outreach, instruction, consultation, and research support services; and delivering responsive and innovative information services. The Librarian for Business and Economics supports faculty and student data research needs and makes effective use of statistical methods, system and tools. Librarians play a key role in the educational mission of NYU by establishing strong collaborative relationships with faculty and students and connecting them to the services, content, and tools that meet their research, teaching and learning needs.

The Librarian for Business and Economics is a tenure track position based in the Research Commons, and a member of the Business and Government Information Services group in the Public Services Division, NYU Libraries. The successful candidate works collaboratively with other social science librarians, the Data Services team and colleagues at NYU Abu Dhabi and NYU Shanghai to deliver statistical and numerical services related to business and economics, and takes a leadership role on selected projects and initiatives. Librarians at NYU participate in Library-wide committees and professional activities outside of NYU; and monitor developments and best practices to help ensure the excellence of the NYU collections and research support services.

New York University Libraries: Library facilities at New York University serve the school’s 40,000 students and faculty and contain more than 4 million volumes. New York University is a member of the Association of Research Libraries, the Research Libraries Group, the Digital Library Federation; serves as the administrative headquarters of the Research Library Association of South Manhattan, a consortium that includes three academic institutions; and is affiliated with The New-York Historical Society. For the NYU Libraries Mission and Strategic Plan go to http://library.nyu.edu/about/Strategic_Plan.pdf

Qualifications:

Required:

- ALA-accredited master’s degree; a second master’s degree will be required for tenure
- Undergraduate or graduate degree in economics or business or related social science discipline
- Public service experience in an academic library, including reference, instruction, or collection development
- Demonstrated public service orientation and knowledge of user needs for teaching, learning, and research
NEW YORK UNIVERSITY LIBRARIES
Librarian for Business and Economics

- Demonstrated experience working with statistical datasets and the ability to effectively communicate with faculty, students and staff about textural, numerical and spatial data resources
- Strong interpersonal, written and verbal communication skills
- Demonstrated ability to work independently and collaboratively in a complex organization
- Creative, service-oriented approach to problem solving
- High degree of facility with technologies and systems germane to the 21st century library
- Knowledgeable in the issues surrounding scholarly communications

Preferred:

- Advanced degree in economics
- Experience with quantitative or qualitative packages for statistical analysis, e.g., Stats, SPSS, SAS, Atlas.ti
- Record of professional activities, including research and engagement in professional organizations

Salary/Benefits:

Faculty status, attractive benefits package including five weeks annual vacation. Salary commensurate with experience and background.

New York University Libraries:

Libraries at New York University serve the school’s 40,000 students and faculty and contain more than 5 million volumes. The Libraries supports NYU’s vision to become the first true Global Network University by collaborating and providing services to our 11 global academic centers and our first “portal campus”, in NYU Abu Dhabi. New York University Libraries is a member of the Association of Research Libraries and the OCLC Research Library Partnership. The Libraries participates in a variety of consortia and collaborates closely with the New York Historical Society and the Brooklyn Historical Society. For the NYU Libraries Mission and Strategic Plan go to http://library.nyu.edu/about/Strategic_Plan.pdf.
Title: 3D Design Studio Manager & Renovations Support Specialist

Position Summary
The 3D Design Studio Manager and Renovations Support Specialist provides leadership and coordination for the University Libraries’ 3D Design Studio. The position oversees the daily operations of the Studio, monitors its technology and equipment, operationalizes Studio policies and programs, and supervises student staff. **JOB SUMMARY AND QUALIFICATIONS**

**Chief Objective of Position:**

This position oversees the development and management of the University Libraries’ Fusion Studio. Chief objectives of the position include coordination of the daily operations of the studio as well as the organization of programmatic events related to Studio activities. This position also works to design and implement a commons assessment program using ethnographic and user experience methodologies, with the aim of better understanding the interactions occurring within library spaces and optimizing the Libraries’ learning environment for effective collaboration and learning.

The Fusion Studio Manager and Learning Space Assessment Coordinator contributes to the development of the Learning Environments unit by providing insight into current and emerging library practices in project management, interdisciplinary research practices, and user experience studies. The position applies creative problem-solving skills to meet the needs of the changing academic learning environment and works cooperatively with other units throughout the library system. This position represents the unit with external partners when necessary.
### Qualifications:

#### Required Qualifications

- Master's degree or higher.
- Demonstrated evidence of interdisciplinary collaboration.
- Strong communication and interpersonal skills, including the ability to work collaboratively with individuals and groups.
- Evidence of successful project management and outreach skills.
- Ability to work as part of a team in order to accomplish institutional goals in a fast-paced, energetic environment.

#### Preferred Qualifications

- Experience with strategic planning, program assessment, and project management.
- Experience in core library liaison activities, including reference, instruction, and collection development.
- Familiarity with interdisciplinary research methodologies.
- Evidence of creativity, innovation, and scholarship.
- Experience with space management.
- Experience with ethnographic methodologies.
- Evidence of cross-campus collaboration.
- Grant writing experience.

### Education, Licensure, Certification required for entry into position:

Does the employee supervise 2 or more Full Time Equivalent employees:  
- Yes  
- No

Which of the following are required to meet legal and policy requirements?

- Commercial Driver's License (CDL)
- Criminal History check
- Driver's license
- Drug screening
- Medical exam
- Other, specify:

### PHYSICAL REQUIREMENTS

Check the physical activities required to perform the essential functions of the position:

- Light lifting (<20 lbs.)
- Moderate lifting (20-50 lbs.)
- Heavy lifting (>50 lbs.)
- Standing
- Sitting
- Lifting
- Walking
- Reaching
- Repetitive motion
- Bending
- Climbing
- Pushing/pulling
- Other, specify:

### Coordinates assessment of University Libraries learning spaces

- Works collaboratively with partners in Learning Division and other library units to design and implement a commons assessment program using ethnographic and user experience methodologies.
- Analyzes and reports quantitative or qualitative data gathered from various sources including library systems, observations, surveys, web analytics, interviews, and focus groups.
- Investigates and communicates new methods for data collection, analysis, and documentation for learning spaces assessment.
- Communicates and publishes findings, datasets, and reports to library in support of decision-making; reports data and findings to external audiences as appropriate.

### Participate as a leader in the Learning Environments Team

- Works collaboratively with Learning Environments service point coordinators to strategize effective delivery of services within the learning spaces of the University Libraries.
- Contributes progressive, original approaches and ideas for the development and implementation of learning environments at University Libraries.
- Collaborates within the Learning division, other University Libraries departments and units, and other campus partners on learning-related activities.
- Conducts research and produces scholarship as appropriate.

### Contribute to the mission of the University Libraries

- Participates in continuing education and professional development opportunities in order to continually professional practice and philosophies.
- Maintains current awareness in the library profession and related fields.
- Serves actively on appropriate Departmental, Library, University, and professional committees.
- Provides quality services in a professional manner with a demonstrated commitment to team efforts, service excellence, and diversity and inclusion.
- Performs other duties as assigned.
