Create a custom program for your organization.

News from the Institute

May 23, 2017
New UC San Diego Technology Accelerator Selects Five Teams for its Inaugural Cohort

Today the Institute for the Global Entrepreneur (IGE) at the University of California San Diego announced team selections for its new technology accelerator. Five UC San Diego research teams, with innovations ranging from advanced healthcare diagnostics and medical device technologies to next-generation LiDAR for autonomous vehicle navigation, have been selected to join the new campus program. Application Deadline: March 22, 2017

Start your Application

Eligibility:
The Startup Lab aims to smartly accelerate the development of early stage companies in the health and finance fields through integrating behavioral economics principles and experimentation methods into their business models and products. Startups participating in our 3-9 month program will learn to leverage academic research to test, build, and scale their products and understand their users’ decision making processes so as to design products that powerfully impact the way their consumers form habits, make decisions, and interact with digital tools.

Want to know the latest behavioral insights?
Stay up-to-date on the latest behavioral research, events and resources.

Get Involved
Interested in how you can contribute as a partner or mentor? Drop us a line at startup@advanced-sight.com or check out our open mentorship opportunities.

Apply to the Startup Lab
Excited about integrating behavioral insights into your health or finance tech product? Applications are open until June 30th at 5pm EST. Apply Now

Creating Collisions

Bringing creators together to spark innovation

At the Innovation Hub, the idea of bringing together creative people infuses everything from the design of the building to the workshops, panel discussions, receptions and other events that make this incubator program unique.

800+ New Jobs

Since the building opened, startup companies have created 800+ jobs, contributing to the local economy.

"The environment here is phenomenal. All the things you need as a fledgling company to tie all your ends together and keep going are here."

Jonathan Rowe - CEO, Neuronet
Events for Residents*

The Innovation Hub is much more than a building. Events such as workshops, panel discussions and networking receptions, bootcamps, and market feedback sessions help you gain the knowledge you'll need to grow your startup company faster.

*These events are open to members and the general public. To learn more, visit flinnhub.ufl.edu.

Increase your chances of success

Your startup will have a significantly better chance of success with access to our resources and advisors. According to the National Business Incubator Association (NBIA), 97 percent of startups admitted with incubation assistance survived — four times the national average. To increase your chance of success, submit the intake application form. Once received, we will contact you to discuss the next step in the application process.

What Makes Us Different...

The first interdisciplinary entrepreneurship school in the country with entrepreneurs as faculty from almost every college at FSU.
UNIVERSITY OF GUELPH
CBase – The Hub
http://www.uoguelph.ca/cbase/thehub

Dedicated Space to Grow Your Business

The Hub Incubator Program

Whether for-profit or not-for-profit, you can receive the support to grow or begin your startup. The Hub offers UofG students and alumni funding, dedicated office space and access to experienced entrepreneurs. The Hub focuses on helping startups develop a strong business model that can be rigorously tested and intelligently scaled.

The program is available to University of Guelph students and alumni working on innovative projects. Eligible teams must have at least one co-founder who is a current University of Guelph student or alumnus between the ages of 18 to 29. The Hub focuses on businesses in the beverage and food, life sciences, agriculture or social enterprise sectors but all ideas are welcome.

Teams accepted into The Hub are required to complete at least 30 hours of work each week and receiving full funding will be based on teams meeting certain requirements.

The Hub Offers

1. **Funding**
   - $6,000* grant to help expedite growth

2. **Mentors**
   - Access to experienced entrepreneurs

3. **Office Space**
   - Inspiring work and meeting space

4. **Business Services**
   - A network of accessible professionals

5. **Resources**
   - Tools and expertise to support growth

6. **Entrepreneurial Workshops**
   - Learn about trends, tools and pertinent topics

---

*The Hub was an excellent experience for Redtree Robotics. Once we entered the Hub, the backing of the program caused more people to pay attention to us. It also focused our objectives and shifted away from only thinking about technology. They kept us motivated and in sync by helping to set our goals and refining our thinking during each meeting. The $6,000 was helpful assistance to build the initial prototype and ultimately, converted us to Founders.*

The Ohio State University Center for Innovation and Entrepreneurship is an official academic center of The Ohio State University housed at the Fisher College of Business.

The center facilitates entrepreneurial and innovation-based learning and experiences that will impact the global economy by assisting in new company formation and the development of new products and services within existing businesses.

Innovation and Entrepreneurship

Because leading brands are increasingly employing innovation processes for new product and service development and creation to achieve sustainable differentiation and long-term viability, both business schools and businesses need to:

- Prepare students for a new professional paradigm
- Partner with one another through research, training and development focused on new processes for ideation, incubation, and commercialization
- Erupt new approaches to value creation applied to a cross section of business issues and to address problems of global dimension, including job creation
PENNSYLVANIA STATE UNIVERSITY
Lion LaunchPad
http://lionlaunchpad.psu.edu/

Lion LaunchPad is a business accelerator program that helps student entrepreneurs turn innovative product and service concepts into viable startup companies by offering mentoring, work space, and micro-grants. We support students in all majors as they develop the entrepreneurial mindset, skills and desire to look for opportunities for innovation and positive change.
Special Living Option beginning fall 2017

First-year students from any college now have the opportunity to participate in a Special Living Option (SLO) and explore innovation and entrepreneurship alongside like-minded students.

Students interested in the Lion LaunchPad SLO for fall 2017 should indicate their preference in eLiving before May 15.

Learn more at Penn State News.

Student Entrepreneurs in Action

What'sPoppin | DezComp | Parking Bee | SomeoneNew | Musical Minds
Blackstone LaunchPad is a campus-based experiential entrepreneurship program open to students, alumni, staff and faculty offering coaching, ideation, and venture creation support.

Blackstone Launchpad is a program of Blackstone LaunchPad, a nationwide initiative of Blackstone, a leading global private equity and real estate firm with offices in New York City and Boston. The program is designed to help students, alumni, and faculty bring their ideas to life by providing access to resources, mentorship, and networking opportunities. Blackstone LaunchPad is supported by the Blackstone Foundation.

The program is located at the Blackstone LaunchPad, an incubator and co-working space on the campus of Syracuse University. The incubator provides a collaborative environment for students, alumni, and faculty to work on their ideas and develop them into viable businesses. The incubator also offers access to funding, mentorship, and other resources to help entrepreneurs succeed.

The Blackstone LaunchPad is part of the broader Blackstone Launchpad network, which includes incubators and co-working spaces across the United States. The network is designed to support entrepreneurs and help them succeed by providing access to resources, mentorship, and networking opportunities.

Blackstone LaunchPad is a key part of Syracuse University's entrepreneurship ecosystem, which includes a variety of programs and initiatives focused on supporting entrepreneurship on campus. The program is supported by the Office of Innovation and Entrepreneurship, which is dedicated to fostering entrepreneurship and innovation on campus.

For more information about Blackstone LaunchPad or to get involved, visit the website at http://launchpad.syr.edu/.

- **SERVICES**
- **COMPETITIONS**
  - Campus challenges, as well as national, state, and regional business plan competitions that provide opportunities for students from across the network to connect and innovate.
- **COWORKING**
  - Campus-wide accessibility to open coworking space, specialized applications and tools to help get startups off the ground and scale, with a focus on inclusive entrepreneurship.
- **NETWORKING**
  - Events that build an innovation infrastructure, bringing together entrepreneurs, researchers, investors and funders, as well as technical service providers.
- **COACHING**
  - One-on-one mentoring that cultivates entrepreneurial thinking and problem solving for both non-profit and for-profit businesses of any size and industry.
- **WORKSHOPS**
  - Technical assistance programs that build competence through experiential learning, and referral to highly ranked Syracuse University entrepreneurship education programs.
- **CONNECTIONS**
  - Regional, national and global connections to university programs and venture leaders to share best practices, engage with successful entrepreneurs, and find network partners.

**TESTIMONIALS**

The Blackstone Launchpad has given us the setting and the resources to critically think through and solve the challenges we face as a startup. For our team, this space makes magic happen – it is a second home.

~Ryan Brinkerhoff, Thrive Project
Texas A&M University
Startup Aggieland
http://startupaggieland.com/

Think globally. Act locally.

Startup Aggieland is a globally recognized, award-winning, pre-acceleration program disguised as a multidisciplinary business accelerator. A testimony to the American Dream, our business accelerator accepts client companies that want to change the world, make a real difference in people’s lives and create value where none previously existed. Students, staff and faculty – as well as former students – are eligible to apply for mentorship and resources as clients of Startup Aggieland. Applications are competitive and require participation in a rigorous Lean Startup program.
ENTREPRENEURSHIP AS A CAREER CHOICE

Where will your entrepreneurial journey take you?

Take the road less traveled.

CENTER FOR NEW VENTURES AND ENTREPRENEURSHIP (CNVE)
Since its inception in 1998, the Center for New Ventures and Entrepreneurship (CNVE) has served as the hub of entrepreneurship for Texas A&M University. CNVE enhances the student experience by providing education, training, networking and resources for aspiring students, faculty, veterans and former students.

GET PLUGGED IN AS A MEMBER OF ENTREPRENEURSHIP SOCIETY
A recognized student organization at Texas A&M University, EScience is the front door for students to explore entrepreneurship. Leadership positions are available. EScience's annual signature event is Startup 101. The student-managed three-day workshop is open to the public. EScience also hosts speakers and social events.

MGMT 489: INNOVATIVE PRODUCT DESIGN - DISCOVER THE FUTURE
As hockey Legend Wayne Gretzky once said, "I skate to where the puck is going to be, not where it has been," in Professor Don Lewis' multidisciplinary Innovative Product Development course, cross-listed in five colleges, students of all levels use Lean Startup to see the future for a product and be light years ahead of industry trends.

UNIVERSITY / POST OAK MALL COLLABORATIVE (UPC)
Startup Aggieland's UPC is a "popup" retail incubator – the first retail incubator in our state. In partnership with Mays Business School’s Center for Retailing Studies and CBs, Management in Waco, owner of Post Oak Mall, the UPC opened in June 2015 with our client Lyrix Toys, which has since sold more than 26,000 pool noodle connectors.

3-DAY STARTUP / TEXAS A&M
3-Day Startup is an extreme launch experience, open to all majors and levels of study at Texas A&M University. Staged at Startup Aggieland each fall and spring, students form teams and develop products, then pitch to investors at a public networking event. $500 is free for students, including all meals and snacks at the 12-hour event.

STARTUP AGGIELAND SEED FUND
Students vote for the Seed fund offers non-dilutive grants for student ventures. Startup Aggieland requires no equity or IP ownership in return, but we hope you'll pay it forward:

- Company client of Startup Aggieland
- Academically-eligible TAMU student
- Proven commitment to the company success with evidence of results

WHAT IS ENTREPRENEURSHIP AT VIRGINIA TECH?

Purposeful, positive change to society is not possible without the cultivation of thoughtful leaders and enterprising minds. At Virginia Tech, our mission is to do just this, by inspiring and preparing students to turn their passion and ideas into action. We strive to create a culture that unleashes creativity, sparks vision and innovation, and instills in tomorrow’s leaders the entrepreneurial mindset and skillset that will enable them to truly invent the future.
WHERE INNOVATION STARTS

Virginia Tech is a world leader in interdisciplinary education and collaborative innovation. Our mission is to foster a love of learning and service to our community, both local and global. We support every stage of an entrepreneur’s journey from research to commercialization. But Virginia Tech is more than about starting businesses. We enable our students to create knowledge and to apply it to the needs of an interconnected world.

RESOURCES

Networking  Product Design  Working Spaces  Education  Funding & Legal

Apex Systems Center for Innovation and Entrepreneurship
The premier resource for Virginia Tech students, alumni and faculty innovators and entrepreneurs.

Roanoke-Blacksburg Technology Council
Promoting the growth of the region's technology sector.
