QUESTION NUMBER	FOOTNOTE
<b>ALABAMA</b>	
	Figures are as of 09/30/2007.
19	Includes bibliographic utilities and literature searching.
<b>ARIZONA</b>	
1b.ii	Library is undergoing facility renovation and numerous volumes were discarded as a result.
2	Monographic titles purchased are only counted.
<b>BOSTON</b>	
1a	Volumes held June 30, 2006 revised to 327,976.
<b>BOSTON COLLEGE</b>	
1a	Volumes held June 30, 2006 revised to 240,957. This number has been adjusted as per the instructions for (1b). The adjustment reflects the addition of 2,795 cataloged e-book titles which are part of digital products reported in the footnote for (2). In future years we will add only additional cataloged e-books in this product to (1bi).
2	This figure includes 2,795 e-books included in the following digital products: HeinOnline: 1,581; LLMC Digital (Law Library Microform Consortium): 977; BNA-ALL (Bureau of National Affairs): 237.
4-4a	See footnotes for Questions 4a.i. and 4a.ii.
4a.i	These numbers reflect partial (not complete) de-duping of e-resources between the University and Law Libraries.
4a.ii	Unable to de-dupe law library print resources against either law library e-resources or against University library print or e-resources this year.
4b-4b.ii	Not de-duped.
<b>BRIGHAM YOUNG</b>	
	Figures are as of 12/31/2006.
13	This figure is very low and included with the Audio count.
<b>CALIFORNIA, DAVIS</b>	
4a, 4b	Number was NA/UA for 2005–2006.
6-12	No longer useful units withdrawn causing minor drop from 2005–2006 total.
34	Change in filled requests given low total number is not statistically significant.
36-42	Institutional-level data reported in ARL Statistics.
<b>CALIFORNIA, LOS ANGELES</b>	
4a.i	Unable to breakout for Law only their electronic resources from total electronic serials.
<b>CASE WESTERN RESERVE</b>	
4a.i	The law library also has access to 37,913 e-journals that are reported in the main library's statistics.
15d	OCLC expenditures.
17, 18, 26	Expenditures and staff FTE have decreased since the IT department for the Law Library no longer reports to the Director of the Law Library.
<b>CHICAGO</b>	
1, 1b	Withdrew 38,608 volumes that were duplicative or available in electronic form and in the university library.
2	Reflects receipt of books ordered late in 2005–2006 and a new policy to expend all book funds before 7/07.
13	Established a popular DVD collection and purchased 409 DVDs.
15-15a	In 2006–2007, electronic expenditures data were excluded. The increase in monographic expenditures was due to a new policy to reduce year-end commitments and expend book funds before 7/07.
15b	In 2005–2006, electronic expenditures data were excluded. The correct amount for (15b) for 2005–2006 was \$1,327,931.
15c	The 2005–2006 survey incorrectly reported (15c) as \$293,461. The correct figure for other library materials (15c) was \$18,028.
17c	No student project staff were employed in 2006–2007.
21	The correct amount for (21) for 2005–2006 was \$409,974.
26-26b	No project staff were employed in 2006–2007.
33	The library was undergoing a renovation all year and 200,000 volumes were placed in dark storage.
34	Number of titles lent varies based on the unpredictable requests from other libraries; further, 200,000 volumes in storage were unavailable for ILL.
35	May be attributed to the need to borrow titles owned, but now in dark storage.

**CINCINNATI**

Excludes the Raymond Walters College and Clermont College libraries.

- 4a.i It was too difficult to separate our e-journals from the other jurisdictions within the university. We are reporting only our paper titles, allowing the e-journals to be counted in the “main” count.

**COLUMBIA**

- 1a Volumes held June 30, 2006 revised to 892,389. Restated from 2005–2006 to include 21,811 e-volumes.  
4a.i Includes Hein Online and LLMC (de-duped from paper total).  
24 Includes expenditures for computer maintenance.  
28 Number included in Butler count (102 for Law Library only, 107 total for Columbia).  
34 Filled requests provided to other libraries includes 4,888 from fee-based service.

**CORNELL**

- 1a Volumes held June 30, 2006 revised to 548,518. Change from ending figure for 2005–2006 reflects the fact that additional e-books were counted. E-book counts are as of 10/2007.  
1b.i Includes a small number of manually cataloged e-books.  
4 Estimate only. Divisions by paid/unpaid unavailable. 21% of the titles in this count were estimated to be print. 3,300 of these titles were estimated to be non-current e-titles. This count was made particularly difficult by the fact that online records do not exist for two of the Law Library’s largest e-journal packages as they are not available beyond the Law School (these packages were not counted in the past). For the largest aggregators, estimated percentages used to de-dupe counts were percentages available for central and Law online records combined. The central estimate to de-dupe between print and e was arrived at through manually searching a sample. Print counts include numbered and unnumbered monographic series and non-serial continuations.  
31 Decrease from 2005–2006 due in large part to a new sampling method instituted at CUL.

**DUKE**

- 1b Volumes showed negative growth because a large number of duplicate titles were discarded in preparation for library renovation. The renovated space resulted in a 20% loss of shelf space.

**EMORY**

- 1b The Law Library has recently removed a large quantity of its volumes, primarily those whose content is now available online. For this reason, this value is a negative figure, representing a reduction in size.  
2 Fewer funds are available for purchase of new titles due to large amount of operational budget going toward continuation costs.  
10 Three of eight maps have been discarded. The size of the item count is small, so a loss of three maps constitutes a large percentage difference from 2005–2006.  
13 A large quantity of videos were removed from collection due to loss of functional capacity.

**FLORIDA**

- 1a Volumes held June 30, 2006 revised to 319,955.  
5 Not all government documents are included in this count. Some serial government documents are added to our LC classified collection and get counted at time of processing. Others serial government documents are added to the documents collection and are included in (7).

**FLORIDA STATE**

- 1a Volumes held June 30, 2006 revised to 304,954.  
39, 41 Information from internal sources. IPEDS was unavailable.

**GEORGE WASHINGTON**

- 34-35 ILL statistics for 2005–2006 were unusually low for unknown reasons. Statistics for 2006–2007 returned to normal levels.

**GEORGETOWN**

- 29-30 Data for 2006–2007 reflects an expanded teaching presence as well as improved tracking and reporting over previous year.

**GEORGIA**

Branch library numbers have been included in the Main Library statistics (see ARL Statistics).

- 1a Volumes held June 30, 2006 revised to 614,121. Number adjusted to include e-books.  
2 Includes purchase of 118,210 Eighteen Century Collection Online.

**HARVARD**

15-21 Increase in endowment allocation for 2006–2007.

**HOUSTON**

- 1a Volumes held June 30, 2006 revised to 533,721. 2005–2006 number (260,684) was reported incorrectly.  
1b A large weeding project was undertaken during the year.

**HOWARD**

- 6 Processing of 5-year backlog.

**ILLINOIS-URBANA**

- 20 This figure only includes (15) and (19). This does not include (16).

QUESTION NUMBER	FOOTNOTE
<b>INDIANA</b>	
15c	Bibliographic utilities: \$6890; other (memberships, etc.): \$2,869.
<b>IOWA</b>	
2, 4a, 4b	Estimate.
17a	Does not include director's salary.
<b>KANSAS</b>	
1b.i	We changed how we counted volumes to reflect new ABA standards. We had previously included cataloged electronic serial title volumes that are now counted differently. We adjusted to remove electronic volumes previously reported and to add electronic volumes counted with new ABA standards.
1b.ii	We withdrew 40,256 volumes to accommodate library remodeling.
2	Includes electronic monographic volumes purchased in MOML and Supreme Court Records and Briefs.
4a	Our reported number of current serials purchased dropped because of de-duping with Main and Medical libraries and because of cancellations in preparation for library remodeling. Number of current serials received but not purchased are included. Government document titles counted here.
10	Cartographic materials reflects number purchased.
12	Audio reflects number purchased.
26b	One support staff position was converted to tenure track librarian position.
<b>LOUISIANA STATE</b>	
1a	Volumes held June 30, 2006 revised to 443,204. Includes 994 e-books not counted in 2005–2006.
1b.i	Two of our electronic vendors, LLMC-Digital and Hein Online, added 3,610 e-books in the past year. In addition, our normal level of print volume purchases increased due to the purchase of several new state statute sets and the reinstatements and replacement of large sets following the Katrina-related cancellations.
15a	Reflects the additional costs associated with the purchase of the additional state statutes, reinstatements, and replacements mentioned in question (1b) above.
15b	Part of this increase was again due to the reinstatement of serial titles cancelled following Katrina. Much of the remainder was due to the change in language to (4a) which allowed us this year to count full-text electronic serial titles. In 2005–2006, these titles were excluded from the count and instead were reflected in the Supplementary Statistics. Since we could count these electronic serial titles this year, we included the cost to purchase access in the serial titles expenditures. In 2005–2006, we reflected these expenditures in Other library expenditures, (15c) (see below).
15c	Excludes the cost of electronic serial titles that are instead included in (15b) (see above). The remaining amount reflects the expenditures for electronic database access but which cannot be tied to the cost of any particular electronic serial title as required to be reported in (15b).
19	2005–2006 amount included equipment expenditures which did not occur this year.
22	In 2005–2006, this question focused only on the cost of electronic serials which were excluded from inclusion by the language of (4a). This year's language is broader and allows us to report the cost of all ongoing electronic resource purchases.
24	In 2005–2006, we had no new computer purchases for the library, but we overlooked the cost of support for our computer system and so we underreported. This year's figure more accurately reflects those support costs, primarily telecommunications expenses.
<b>MIAMI</b>	
17a	Excludes law library director's salary.
36-42	Institutional-level data reported in ARL Statistics.
<b>MICHIGAN</b>	
15d	ILL, \$378 and mass de-acidification, \$50,717.
32-33	Includes reserves.
<b>MICHIGAN STATE</b>	
4	Because of the ARL decision to count individual serial titles rather than serial subscriptions, some electronic sources have been counted by the individual titles they contain instead of counted as one subscription. In addition, since the last fiscal year more of our serial titles have been represented by bibliographic records in the catalog.
25	We have seen an increase in this budget line in both the number of transactions and the cost per transaction.
<b>MINNESOTA</b>	
1a	Adjusted to count volumes transferred from University Libraries.
4a,4b	Breakdown of unique titles by branch library is not feasible.
11	Breakdown of A/V media holdings not entered because not available for main ARL statistics. Law Library holdings are Graphic, 13 Audio, 250, and Video 875
36	Breakdown corresponding to branch library not available. Counts for entire campus entered in main statistics.
