Off the 6 million volumes currently held by Duke University Library:
- 453,547 (or 3.5%) are part of the Slavic collection.
- Of that number 329,434 volumes are in Slavic languages.
- 124,113 in Western European languages.

Description

Duke University Libraries contains one of the oldest and most extensive Slavic collections of all the academic libraries in the Southeastern United States. The bulk of the collection relates to the former Soviet Union and its successor states in Eurasia and Eastern Europe, that is, to the territories that share either a common Slavic linguistic heritage or a political history with the lands and cultures of Slavic Eurasia. The Library's consortial responsibilities vis-à-vis other institutional members of the Triangle Research Library Network (TRLN), and the interests and support of Duke's faculty, have laid the basis for several significant collections, particularly in Russian visual culture and Polish studies.

Thank You

I would like to express my gratitude and appreciation for Jami Beserock who was very helpful in designing this...
On March 11, 2011, a magnitude 9.0 earthquake struck off the East coast of northern Japan. The devastation from the earthquake and the resulting tsunami leveled cities and towns in Miyagi and Fukushima prefectures. Further complicating the response, the Fukushima Daichi nuclear reactor has been severely damaged. Low-levels of radiation have been emitted despite the efforts to cool the nuclear fuel.

This Global Resources Center guide attempts to bring together all the significant information that is currently being generated about the disaster, both earthquake and tsunami and the resulting damage and recovery efforts. We hope it will keep you up-to-date on the current situation in Japan.
